SWANLEY, KENT.

ESTABLISHED 1864.

HENRY CANNELL & SONS

THE PROPERTY OF THE PROPERTY O

are desirous of tendering their respectful and heartiest thanks to all patrons for their kindness and preference to their Firm.

They have the great pleasure of posting the 37th Edition of their Floral Guide of Plants for 1904, which is also regularly looked for in all our Colonies and abroad, and perused with as much interest as in Great Britain.

Their situation and knowledge of plant life, together with their long experience of preparing and packing, and their continued successes, place them in an unique and meritorious position of being competent to give untold pleasure and satisfaction to Floral patrons at home, and also those residing as far as 14,000 miles away.

They further beg to acknowledge their indebtedness to many esteemed patrons for favourable recommendations, of which they have had numerous proofs, and trust in the future, as in the past, that all they have the pleasure of supplying will give complete satisfaction and pleasure.

HENRY CONNELL.

HENBY CONNELL.

NEW, GOOD, AND RARE

>> PLANTS **

ALL SPECIALLY RECOMMENDED FOR THE YEAR 1904.

NEW DOUBLE BEGONIAS, 1904.

RAISED AND SENT OUT BY H. CANNELL & SONS.

BLUSH QUEEN—A very pretty variety; flowers on first opening are pure white, gradually changing to a delicate and pleasing shade of blush; a fine flower. 10s.

EARL OF DEVON—Massive flowers of a brilliant scarlet eolour; good habit; one of the finest. $7s.\ 6d.$

J. BURNESS-Bold massive flowers; good vigorous habit; soft lake colour; fine. 7s. 6d.

LADY BATHURST-A pleasing shade of yellow; well shaped flowers; free and attractive. 6s.

LADY SAMUELS—Very large fine flowers; tinted white ground delicately edged with rose; free and good. 10s.

MISS DOROTHEA HOLLAND-Deep clear pink; splendid well-formed flowers. 6s.

MISS VIVIAN-A pretty shade of china pink, much lighter centre; free and effective. 7s. 6d.

MR. A. G. HUBBUCK—Pretty shaped flowers of a soft searlet shade; free and effective. 10s.

MRS. HENRY WALTON—A pleasing and distinct shade of china pink; large, fine, and free flowering. $7s.\ 6d.$

MRS. WILSON NOBLE—Fine formed flowers; a charming pink colour; good. 7s. 6d.

MRS. WM. MARSHALL—A very pretty variety; clear salmon; undulating edges; floriferous.
7s. 6d.

PRINCESS VICTORIA—A most pleasing shade of soft salmon pink; large, fine, and free; extra. 7s. 6d.

REV. F. D. HORNER-Clear yellow; beautifully fringed edges; splendid habit; free and good. 7s. 6d.

(i)

CANNELLS' TYPE OF DOUBLE BEGONIAS.

NEW CHRYSANTHEMUMS FOR 1903-4.

Raised, introduced, and highly recommended by H. CANNELL & SONS.

The Prices quoted are for Plants-Cuttings, Half-price.

JAPANESE.

BROCKHAMPTON-Very long elegant florete; clear yellow, of a greenish shade in arge. 5s.

BYRON—Fine bold flowers; soft purple shade; good. 5s. centre; large.

BYRON—Fine bold flowers; soft purple shade; good. 5s.
CAPT. A. H. KENDALL (Kerslake)—One of the best novelties of the season, producing first-class refined flowers of full exhibition size, and when finished off of great depth and forming into a huge ball; graceful florets, of a pleasing soft reddish-chestnut, reverse soft golden shade. (See Engraving.) 7s. 6d.
DANIEL LAMBERT—A gigantic flowering variety, coming easily 10 inches across; very long artistic florets of a pleasing and pretty shade of rose-pink, glossy silvery reverse; a grand novelty. Stock limited. 7s. 6d.

CAPT. A. H. KENDALL.

Fage ii.

(iii).

DAPHNE-Of a soft crushed-strawberry shade, tips of florets shaded soft yellow; an

unusual shade; good. 5s.

MAJESTIC (Cannell)—A splendid Japanese variety, ground colour ivory-white, florets most evenly marked and lined with clear rosy-lilac; elegant recurving petals, full-sized flowers; distinct and beautiful. 7s. 6d.

MISS AMY CASTLES-Rich yellow, deeper centre; elegant petals, large and fine;

MISS OLIVE YOUNG-Pretty and attractive shaped flowers, silvery blush; has

every indication of becoming a popular variety. 5s.
. MR. JOHN CARVILL (Cannell)—A very distinct and beautiful variety; long graceful drooping outer florets of a clear amber-yellow, centre petals slightly incurving and reverse of florets deep amber. We have uo hesitation in pronouncing this novelty a splendid introduction.

MRS. AGNES CHRISTOPHERSON - A pretty and delicately tinted flower, soft

flesh colour, centre pure white; large and fine; dwarf habit. 7s. 6d.
. MRS. EDWIN CURRIE-A fine habited variety, grand flowers, lilac-pink, silvery

reverse; good. 5s.

flowers being of a mealy-blush tint; beautiful shape. Must be taken on the second crown. 7s. 6d.

RED MME. CARNOT—It is with much pleasure and satisfaction we have the honour

of introducing this grand novelty, a good rcd coloured variety, possessing all the fine qualities of the well-known elegant white *Mme. Carnot*, which has been eagerly looked for during the past few years, and *Red Mme. Carnot* will be found to fulfil all the requirements in that respect—identical in formation of flowers and size, and constitutionally stronger in habit. We therefore fully anticipate that it will soon attain a prominent position in the Chrysanthenium world. 10s. 6d.

. W. W. MANN (Cannell) (Incurved)—A splendid rich yellow coloured variety. A richer and brighter colour than Modesto. Will be indispensable for the showboard; extra. 7s. 6d.

NEW SINGLE-FLOWERING CHRYSANTHEMUMS, 1903-4.

BEAUTY OF KENT (Cannell)-Will be found very distinct, and where a true amber coloured flower is required, this fulfils every requirement; very free flowering, and producing a most pleasing effect for conservatory decoration. 2s. 6d.

splendid habit cannot fail to be of great value for specimen plants for the conservatory, eorridors, and other similar prominent positious; flowers of a pretty sbade of lilac-piuk, with a distinct pure white ring round a clear yellow centre; has been much admired. 2s. 6d.

EUREKA (Cannell)—A grand single of the Gigantea class; fine bold flowers of the privest white, long graceful florets, good high-cushioned yellow centre, free flowering, and very effective; for the decoration of large vases and bold massing this will be found indispensable. The flowers, as shown in the eugravings, were photographed from disbudded plants, but when grown as a bash form, and not thinned out, this fine novelty produces a quantity of elegant blossoms on long stiff stems, that for table and other similar embellishments cannot be surpassed. Of good lasting qualities; quite an acquisition. 5s.

MARGUERITE (Cannell) - In formation and general appearance of flowers identical with the well-known Paris Daisy Marguerite; very free; pure white, distinct yellow centre; very

effective for conservatory displays. 2s. 6d.
. MISS RUNCHMAN (Cannell)—Well-formed flowers of a primrose-yellow; very

pleasing and attractive, distinct and desirable. 2s. 6d.

MRS. JEWRY (Cannell)-Rich reddish chestnnt; fine starry-formed flowers, of

special value for table decoration; very free. 2s. 6d.

PROGRESS (Cannell)—Distinct and pretty; bronzy chestnut, with a broad ring of pure yellow round a dark coloured centre; well open formed flowers; just the identical variety for

pure yellow round a dark coloured centre; well open formed flowers; just the Identical variety for decoration where artistic arrangement is necessary; good habit and free flowering. 2s. 6d.

ROSY MORN (Cannell)—A splendid habited variety, forming into well-shaped bushes, and covered with elegant narrow petalled flowers of a delicate tint of flesh colour, almost white at base of florets, and thus producing a very pleasing effect; a gem. 2s. 6d.

ROYAL ROSE (Cannell)—Flowers of good lasting qualities; massive heads of well-formed graceful flowers of a distinct shade of rose; good. 2s. 6d.

SUNDERAM (Cannell)—A first class variety, and where a dwarf habited bush plant is

SUNBEAM (Cannell)—A first-class variety, and where a dwarf habited bush plant is required that produces a mass of clear yellow flowers, this will be found worthy of every attention;

required that produces a mass of clear yellow howers, this will be found a useful remarkably free flowering. 2s. 6d.

THE LION (Cannell)—A seedling from Victoria, and will be found a useful exhibition flower; rosy red; large and well formed; a fine novelty. 3s. 6d.

VERA (Cannell)—Of the exact form of its parent, Mary Anderson, but of a decided shade of deep pink; well formed flowers; pretty. F.C.C. 3s. 6d.

WHITE DUCHESS (Cannell)—Of the purest white; medium size flowers; extra

fine. 2s. 6d.

GRAND NEW LATE-FLOWERING MARKET CHRYSANTHEMUMS.

HARRY WHATELY — Award of Merit, R.H.S. Undoubtedly the finest_late-flowering white variety yet introduced.

MAY McBEAN—Golden bronze; most useful. Award of Merit, R.H.S.

MILE. LOUISE CHARVET—A beautiful late pink; a coming favourite. Award of Merit, R.H.S.

MRS. A. DUNCAN—A true sport from Niveus, with eurled and twisted florets; has proved a good traveller, which should strongly commend this variety to all market growers.

RED PRINCESS VICTORIA—A fine bronzy red sport from the well-known Princess Victoria.

Victoria.

1s. 6d. each.

MRS. G. H. KERSLAKE. Page viii. (vii)

NEW CACTUS DAHLIAS FOR 1904.

INTRODUCED AND HIGHLY RECOMMENDED BY H. CANNELL & SONS.

It is with much pleasure we bring to the notice of lovers of the Dahlia two new varieties raised by a successful and enthusiastic grower in Australia.

MRS. G. H. KERSLAKE-Producing large and fine flowers of artistic refinement and up to the full English standard as regards the type and finish of flowers. The engraving will convey a good idea of the length of florets. Owing to the unfavourable weather of last year we were unable to exhibit this novelty, but from the flowers produced we were fully conviaced that it will

prove a first-class exhibition variety, and of a charming combination of colours that will please everyone, a pretty shade of fawn-yellow suffnsed rose-pink. 3 ft. 7s. 6d.

WHITE GEM—Producing Pom-pom sized flowers that will be found admirably adapted for all florists' work, being on long wiry stems and of the purest white. Much smaller than Lord Roberts, of a purer white and a much finer petal. Highly recommended by the raiser. 3½ ft.

NEW SINGLE ZONAL PELARGONIUMS FOR 1904.

ALL OUR OWN RAISING.

A SPECIMEN OF THE "SWANLEY" STRAIN.

SIR THOMAS HANBURY-Vivid scarlet-crimson in upper petals, lower tinged magenta, distinct large white eye; producing flowers fully 23 inches in diameter, of great substance and most Forfect form; this we consider quite an acquisition. 7s. 6d. each.

KING VICTOR—Clear cerise-red; of thick leathery substance, fine bold trusses and individual pips; free flowering and a good habit, an improvement on Lord Kitchener. 5s. each.

DUCHESS OF ROXBURGHE-A deep self-salmou; enormous sized pips and trusses;

good habit, a fine improvement on Mrs. Hall. 5s. each.

CHARLES CURTIS—Deep reddish scarlet of an attractive shade, clear white eye; bold wellformed flowers, very free flowering. We consider this will soon become a standard variety in this

section of colour. 6s. each.

COUNTESS OF JERSEY—A very fine light-coloured variety, producing large flowers of shell-like formation, centre of flowers clear coral-salmon, outer portions of florets of a much lighter shade; spleudid dwarf spreading habit. A most telling variety throughout the winter season.

SIR FRED TREVES-Certainly by far the deepest crimson-coloured variety in commerce, large white eye and adding much to its attractiveness; enormous sized flowers and graud trusses;

very striking. 7s. 6d. each.

SIR ERNEST CASSEL—A very fine brilliaut scarlet, slightly shaded deeper towards the base of florets, more especially during the winter season, as regards to colour a decided advance on The Sirdar; large white eye; very effective. 5s. each.

THE MACKINTOSH OF MACKINTOSH—Cherry-red suffused plum, large pure

pearly-white eye; fine circular flowers and bold heads of hloom; good hahit; distinct. 5s. each.

QUEEN OF ITALY—A very pleasing and distinct novelty; of a soft transparent china pink-salmon; large circular well-formed flowers and beautiful hold trusses; foliage being of a self pea-green adds to the full effect of the charming colour of the flowers. 5s. each.

MRS. B. W. CURRIE—Soft rosy pink; flowers large and very circular; enormous trusses,

rohust habit; a fine introduction. ős. each.

The set of 10 for 50s., in 60 size pots.

NEW FANCY-STRIPED AND MOTTLED ZONAL PELARGONIUMS.

OF WHICH Souv. de Mirande and Mme. Jules Chretien WERE THE FIRST PARENTS.

MRS. WM. WATSON—White ground with a distinct stripe, spotting and markings of bright lake, and also with a neat narrow picotee edge of a more intense colour, and occasionally sporting and producing flowers and trusses of a more reddish lake colour and the white not then heing so conspicuous; cuormous sized trusses produced in ahundance; one of the most interesting

heing so conspicuous; cuormous sized trusses produced in anunuance; one of the most fute certain and striking novelties we have yet seen. 5s. each.

LADY WARWICK—Very large pure white flowers, with a dainty picotee margin of pink; a fine improvement on Lady Malet; splendid dwarf spreading habit; very free flowering. 4s. each.

RETICULATA—White ground, distinctly reticulated and edged with a bright deep sbrimppink colour shaded red; an improvement on Lady Sarah Wilson. 4s. each.

PRESIDENT LOUBET—A very distinct and heautiful novelty; pure white ground with a gradual and charming gradation of colouring from the centre of flower to the margin of florets of a gradual and charming gradation of colouring from the centre of flower to the margin of florets of a gradual and charming gradation of colouring shade; bold flowers and trusses; good robust habit; a deep lilac-magenta of a telling and pleasing shade; bold flowers and trusses; good robust hahit; a unique and effective introduction. 4s. each.

MR. J. A. BELL—Similar in general appearance to Mark Twain, but producing larger and

finer flowers, but the white portion predominating and the hright reddish shrimp-pink making it very attractive; fine well-formed flowers; large trusses. 4s. each.

GEORGE COATS—Fiery salmon-red, somewhat lighter in upper petals, large white centre;

hold round flowers and compact trusses; vigorons grower, of hold appearance. 4s. cacli.

The set of 6 for 22s., in 60 size pots.

NEW CACTUS-FLOWERED ZONAL PELARGONIUMS.

CACTUS BEAUTY (semi-double)—A lovely variety of rosy carmine flowers.

CACTUS GEM (single)-A charming rose-piuk, delicately heautiful.

CACTUS KING (semi-double)-A deep rose-coloured variety, deeper than Cactus Beauty. CACTUS QUEEN (semi-double)—This novelty is intermediate in colour between Cactus King and Cactus Beauty.

7s. 6d. each.

NEW VARIEGATED FOLIAGE PELARGONIUM.

DEUTSCHER SIEGER-Foliage deep green, with creamy white variegation, and double flowers of a rich crimson shade; effective. 2s. each.

A NEW SCENTED-LEAF PELARGONIUM.

CLOVINDA—Raised by Dr. Bonavia, the result of a cross between a Cape Pelargonium and Quercifolium, of splendid free bold growing habit; deep green foliage of the Lothano type, and of an agreeable and refreshing fragrance. Flowers of good size and quite an improvement in that respect; in fact, particularly large for a scented-leaf variety, and of a bright rosy-cerise shade, the colour in the two upper petals being deeper and feathered a bright maroon; very free flowering and leating a considerable time on the plant a martin of 20 days or more. flowering and lasting a considerable time on the plant, a matter of 20 days or more. Not only a desirable variety for cultivating in pots in the ordinary manner, but has every indication of being adaptable for large hanging baskets and other similar arrangements. 2s. 6d. each.

NEW DECORATIVE PELARGONIUMS FOR 1904.

RAISED AND INTRODUCED BY H. CANNELL & SONS.

GALATEA-Slightly fringed white, lightly marked or streaked pink, rich blotch on upper

petals; robust habit.

GLORIOSA—An improvement on Kingston Beauty; beautiful pearly-white petals, solid blotch

on the upper petals; very effective.

HYPATIA—Blush pink, red blotch; very distinct; good large trusses and flowers of the finest form.

NERONIA-In colour brighter than Duke of Cornwall, deep reddish crimson with a slight salmon margin to each floret; very large and of great substance, massive trusses; splendid habit.

ORMONDE—Of a beautiful blush-rose tint, distinct blotch on the upper petals; grand flowers

and trnsses; fine constitution.

SAN TOY-Of a pleasing shade of rosy pink, distinctly feathered on each petal; very large and fine.

ST. GATIEN-Deep salmon, maroon blotch on each pctal; trusses and flowers of enormons size; a splendid addition.

VOLUTUS-Soft purple, dark upper petals; very large and fine. 5s. each.

NEW CANNAS.

BLAZING TORCH-Brilliant crimson-scarlet; fine well-formed flowers in large spikes;

very showy and handsome. 3s.

BRANDYWINE—Beautiful dark bronze foliage, and a magnificent display of fine large flowers; intense vinous red, beautifully dappled with deep crimson, occasionally edged with gold; a bold vigorous grower. 3s.

BRONZE POITEVINE-Long rigid stems; bright purple bronze foliage, flowers brigh

orange with centre of rose colour and copper shadings. 2s. 6d.

CHAUTAUQUA—Flowers rich pure scarlet, intensely vivid; tropical foliage, prettily bronzed and splendid contrast with the blossoms. 3s.

CHAMP D'OR—Flowers very large, and of a beautiful yellow self-colour; trusses very large; compact in growth. 2s. 6d.

DAVID HARIM. Pright represident scarlet.

DAVID HARUM-Bright vermilion-scarlet, mottled with deep red-bronze foliage. 2s. 6d. EASTERN BEAUTY-Bronze leaved; flowers light salmon and orange, changing to flesh pink. 3s.

EVOLUTION-Flowers rich golden yellow shading through canary and sulphur to a centre of beautiful blush pink; bronze foliage; unique. 3s.

FALBALA—Dwarf habit; bronzy green foliage; flowers brilliant orange; free. 3s. GLADIATOR—Bright yellow petals thickly-spotted pure crimson, ceutre petals solid crimson,

rich and glowing; trusses very large. 3s.

HIAWATHA—Flowers in big bunches on strong straight stalks; delicate tint of rosy-pink daintily dappled with silver-blush, and finished off with a border of clear cerise; a most charming

combination; metallic bronzy foliage. 3s.

IMPROVED DUCHESS OF MARLBOROUGH—A very pretty shade of pink and

nnlike the older variety, the trusses are erect; a free bloomer; vigorous; green foliage. 3s. JAMES WOOD—Deep orange-yellow flowers of fine form; good. 3s.

JOANNES BEURRIER—2s. 6d.
LOUISE—Flowers of large size, long petals, of a soft deep rich rose-pink colonr, delicately dappled and streaked with red; spikes very large; green foliage; a magnificent variety. 3s. 6d.

M. A. MENARD-A remarkable shade of coppery orange, mottled with fiery red; the colour

effect is superb; robust habit. 3s.

M. DE RAYNAL—Flowers of the largest size, brilliant rosy pink; the deepest and brightest shade of rose yet obtained. 3s. 6d.

(x)

MONPLAISIR—Intense rose colour. 3s. 6d.

MONT BLANC-Producing large cream-coloured flowers on strong branching stalks; blooms early and continuously; bright glossy green foliage. 3s.

PRIMROSE—Clear primrose-yellow; a free bloomer, and a very vigorous grower. 2s. 6d.

QUEEN OF HOLLAND-Deep rich orange; dark green foliage, heavily veined and edged

with bronze; handsome. 3s.

WEST GROVE-Bright rich coral pink, delicately overlaid with glistening orange-scarlet; petals finely dotted and lined with deep crimson; free bloomer. 3s.

NEW WINTER-FLOWERING CARNATIONS.

RECOMMENDED AS BEING A GREAT ADVANCE ON EXISTING VARIETIES.

EXMOUTH GEM IMPROVED-Soft salmony blush; has every good point in form, substance, colour, and constitution; thoroughly winter blooming. 2s. 6d.

GODFREY'S KING-Undoubtedly the best dark crimson for winter blooming; a perfect flower, with smooth edges, good substance, and sound calyx; good grower, robust habit, free; good winter bloomer. 5s.

PRIDE OF EXMOUTH-Salmon-pink, in the way of Mdlle. T. Franco, but the blooms are larger and of better shape; sound calyx; stems are stiff and wiry; clean and healthy grower; a fine

WAVERLEY-Deep and solid salmon, distinct from every other in this section; good grower; free flowering; good throughout the winter. 5s.

NEW SELF AND FANCY BORDER CARNATIONS AND NEW YELLOW GROUND PICOTEES.

ABBOT-Yellow Picotee, heavy purple margin, of very fine form; vigorous. 3s. 6d. BACHELOR-Yellow Picotee; good form of flower; broad rose-lilac margin, clear yellow. 3s. 6d.

BADOURA—Clear deep yellow, large handsome flowers, distinct rose margin. 3s. 6d.

BOOKHAM CLOVE-A pure white clove-scented carnation, well-formed petals; of large size and handsome form; vigorons. Award of Merit. 3s. 6d.

COPPERHEAD—A well-formed self-coloured Carnation, very dark apricot colour; large;

a fine border variety. 3s. 6d.

DIAZ-A charming fancy Carnation; buff ground, with flakes and markings of bright rose. 3s. 6d

HORSA-A pretty fancy; deep yellow ground heavily marked and margined crimson; splendid form. 3s. 6d.

LORD NAPIER-A true yellow ground Picotec, clear yellow without markings, narrow rose

edge; splendid. 3s. 6d.

LUCY GLITTERS—A decidedly handsome yellow ground, petals well formed, flowers large,

medium rose edge. 3s. 6d.

MAZARIN—Yellow ground, distinct broad margin of crimson; very effective in groups and

exhibition stands. 3s. 6d.

OTHELLO—Yellow Picotee; deep yellow ground, broad margin of rich crimson; a yellowground brunette; very distinct. 3s. 6d.

PROFESSOR COOPER-A superb fancy Carnation, faultless in form; deep buff ground, pctals heavily marked lavender and pink. 3s. 6d.

RABELAIS—Fine clear yellow, with a margin of rich purple. 3s. 6d.

SUNSET—A handsome, fancy, well formed, large size; buff ground heavily marked rose, red, and lilac; a distinct and pleasing combination. 3s. 6d.

THE DAWN—A handsome Carnation; bright pink flowers, freely produced; excellent border variety. 3s. 6d.

YEOMAN - White ground faney; excellent form and large size, heavily marked with crimson; free in growth. 3s. 6d.

NEW PINKS.

BRACKLEEN-Rose centre, deep rose margin on white ground. 1s. 6d. LUFRA-Maroon centre, deep red lacing; flowers large and of fine quality. MORNA-Large flowers, white ground, deep maroon-crimson lacing. 1s. 6d. ORIEL-Large flowers, prettily fringed rose centre. 1s. 6d. RAINBOW-A free blooming variety, margined rose, rose-purple centre. 1s. 6d.

NEW SPECIES OF COLEUS.

COLEUS THYRSOIDEUS.

COLEUS THYRSOIDEUS—A species received at the Royal Gardens, Kew, from British Central Africa, where it was discovered by Mr. White. The habit of the plant is similar to that of an ordinary Colens. The leaf petioles are 1½ to 2 inches long, and the bright green leaves, triangular, nearly 2½ inches wide and rather more than this in length, with coarsely servated or toothed margin. The inflorescence is terminal, thyrsoid, and about 8 inches long. The flowers are very numerous, about ½ in. long, and rich gentian blue in colour. This new brilliant blue, January and February flowering plant, as will be seen by the engraving, is very distinct, and one of the most lovely Delphinium-like spikes of flowers ever seen. It is of the easiest culture, and unlike others of its family, having green leaves of strong growth, and not liable to insects or disease. We exhibited it last year, when it was granted an Award of Merit, and again last January, when it was unanimously awarded a First-Class Certificate as the best hlue winter flowering plant in enlitivation. It is such an unusual acquisition that one must see it to believe there exists such an invaluable plant.

Plants, 1s. 6d. and 2s. 6d. cach.

NEW CACTUS AND OTHER DAHLIAS FOR 1904.

FROM VARIOUS SOURCES.

Have been Awarded Certificates.

*HEREWARD (Fancy Cactus)—Pure white freely striped and speckled crimson, fine petals; a great advance on Alpha, a welcome addition. 3½ tt. 7s. 6d.

GERMANIA.

. H. W. SILLEM-Vivid vermilion-scarlet; petals very narrow, flowers of large size and

exquisite finish; good for exhibition and the garden. 3 ft. 7s. 6d.

J. C. QUENNELL—Cerise, with a coral pink shading at edges of petals; a constant and

useful variety for exhibition or decoration. 4 ft. 7s. 6d. KATE SEALE-Rich golden yellow, outside petals shading off to pale amher; a great acquisition both for exhibition and garden decoration, 2 ft. 7s. 6d.

*LAURETTA—Yellow ground deeply edged rosy red, quite new and distinct in colour; good for garden and exhibition. 3 ft. 7s. 6d.
*LADY COLIN CAMPBELL—Lovely light yellow, onter petals shaded orange, every

flower well above the foliage; its distinct habit requires less space than any other variety. 7s. 6d. *LIGHTNESS-A nice dark crimson variety, slightly veined with white; very pointed and Cactus-like. 4 ft. 7s. 6d.

LIBERTY—Description and price on application.

LES ALLIES (Dec.)—Ground colour lilac, striped and spotted deep lake; vigorons. 2s. 6d.

MADELEINE LE CLERC—White, slightly tinged primrose; splendid well-pointed florets; the largest and finest variety in this colour; dwarf and free. 5s. MARK TWAIN (Single) - Rich deep velvety crimson with scarlet shadings, a most intense

and glowing colon; useful for exhibition. 3 ft. 3s. 6d.

MAISIE—Fawn, striped crimson; very dwarf and free flowering; fine crect habit, constant, 21 ft. 3s. 6d.

MAVIS-Salmon, with lighter almost pure yellow at base, of the finest form. 3½ ft. 7s. 6d. MISS CONSTANCE FARMER-Violet-purple; good narrow well-formed petals, free and ercct. 7s. 6d. MERMAID-Centre rich cream, gradually shading off to a heautiful rose-pink; long narrow

petals and fine habit; a lovely colour. 2½ ft. 7s. 6d.

MME, GEORGES BOUCHER-Of a peculiar and distinct shade of pink tinged lilac, orange at base of florets; dwarf. 4s. 6d.

MON. A. BORIE-Wine-colonred lake, shaded red, a splendid colour. 3 ft. 3s. 6d.

MON. A. LUMIERE-Immense flowers of splendid colonring, deep vermilion; surpassing in size Red Rover. 5s.

MON. DE WARGNY-Of a pink anrora tint, marked with white and lilac; pretty. 3s. 6d. MON. JARRY-DESLOGES-Very dwarf and free; aurora-yellow and capacine orange; good. 5s.

MR. KEITH-Deep blood crimson, long and narrow petals; a grand flower, fine for exhibition; babit pendulous. 4 ft. 7s. 6d.

MRS. ARTHUR BRIDGE-A lovely shade of salmon, points of florets coral; a beautiful blending of coloure; free and distinct. 31 ft. 7s. 6d.

*MRS. D. B. CRANE-A beautiful pure white variety, wonderfully free flowering and well above the foliage; of great beauty and elegance. 4 ft. 7s. 6d.

MRS. D. CORNISH-Yellow, rosy red tips and edges; good all through the season; very fine; erect growing; constant. 4 ft. 7s. 6d.

MRS. F. J. PATEMAN-Quite distinct and very pretty, and a continuous bloomer, 31 ft. 7s. 6d.

MRS. GLADSTONE -A lovely soft pale pink or blash coloured; has been much admired; good. 3 ft. 7s. 6d.

(xy)

*MRS. H. L. BROUSSON—Delicate salmon on a pale yellow ground; dwarf sturdy habit; a sterling good flower. 3 ft. 7s. 6d.

*MRS. J. W. WILKINSON-Deep rosy pink, florets long and incurving; a bold and beautiful variety. 7s. 6d.

*MRS. REGGIE GREEN (Fancy)—Pure white ground, slightly flaked and veined rosy purple; of fine shape. 4 ft. 7s. 6d.

NELLY—A rich blending of soft rose and lemon-yellow; one of the most distinct and striking; recommended. 3 ft. 7s. 6d.

NORTHERN STAR-A huge deep crimson, of good form and habit; a good garden variety. 4 ft. 7s. 6d.

*OLIVER TWIST—Bright crimson, petals very finely twisted and often so incurved as to almost meet in the centre; grand for exhibition. 4 ft. 7s. 6d.

OPHELIA (Single) - Rich yellow, striped salmon-red; very dwarf and floriferous; suited for hedding purposes. 2 ft. 3s. 6d.

SICILIA.

ORION-A perfectly distinct shade of rosy mauve; good dwarf habit, erect on long stiff stems; much admired. 3 ft. 7s. 6d.

*OSPREY-Yellow ground fancy, striped with light scarlet; very free. 3 ft. 7s. 6d.

OWEN MURRELL—Lovely fawn-coloured flowers, reddish orange centre; a fine upright growing variety; a good thing. 3 ft. 7s. 6d.

PERCY MORTIMER—Deep orange centre, outer florets a lovely hright pink, fine petals of the Cactus type; a good and distinct variety. 4 ft. 7s. 6d.

PLENTIFUL (Pom.) - Pure white; the earliest and freest of any variety, of good quality for exhibition, cutting, and decoration. 3 ft. 5s.

PORCUPINE—One of the finest pointed varieties, hright scarlet; good medium size flowers and very distinct. 3 ft. 7s. 6d.

•PREMIER-Bright erimson-scarlet, of good size and great refinement; a distinct, constant, and-fine variety of the highest quality. 3½ ft. 7s. 6d.

*PRINCESS OF WALES (Single)—Lovely soft pink with a delicate shading of mauve; perfect in form; quite an ideal exhibition variety. 3½ ft. 5s.

POMPONNETTE (Pompon)—Garnet, tinted red; very pretty; good. 2½ ft. 3s. 6d.

*QUEEN ALEXANDRA-A beautiful mixture of soft salmon and pink; a lovely variety, distinct from all others. 3 ft. 7s. 6d.

*RAINBOW—Beautiful soft pink with lighter disc; recommended as one of the very best. $4\frac{1}{2}$ ft. 7s, 6d.

ROMEO (Single)—Rich maroon, fine shape and perfect habit; bold handsome flowers. 3 ft. $3s.\ 6d.$

*ROTHESAY (Show)—Centre clear yellow, petals become peach colour flushed with salmon as they expand; colour unique and form perfect. 3 ft. 7s. 6d.

*ROSEBANK SCARLET (Single)—A rich brilliant searlet of fine form, medium size; a most useful variety for both garden and exhibition. 3 ft. 5s.

*SHREWSBURY—A grand addition to the yellow varieties. A lovely primrose-yellow with long pointed florets, a most clegant flower. 3 ft. 7s. 6d.

*SIRIUS (Fancy Cactus)—Bright golden yellow ground heavily striped with vivid scarlet; another good addition. 4 ft. 7s. 6d.

*SWEET NELL-Deep pink, bold flower, central florets paler; a very distinct kind. 31 ft. 7s. 6d.

SAFRANO (Single)—Centre of petals creamy white, each petal regularly and distinctly edged pale amler; very free and constant, distinct and lovely. 2½ ft. 3s. 6d.

SICILIA-Description and price on application.

THE QUEEN—Delicate primrose-yellow shading off to pink at the points of the florets; quite distinct, a fine garden variety. 4 ft. 7s. 6d.

T. W. SANDERS—Rich crimson; a fine addition to exhibitors of specimen blooms on boards, 3 ft. 7s. 6d.

*VIOLETTA-Violet-rose flushed erimson; a very distinct variety, excellent for garden and exhibition. 4 ft. 7s. 6d.

 $\begin{array}{c} \textbf{VESUVIUS} \ \ (\textbf{Single}) - \textbf{Beautiful rich bright orange-scarlet} \ ; \ \ \textbf{fine formed flowers} \ ; \ \ \textbf{distinct.} \\ \textbf{3}\frac{1}{2}. \textbf{ft.} \quad \ 5s. \end{array}$

YELLOW GEM-A delicate lemon-yellow of good quality and shape; most effective. 7s. 6d.

GIGANTIC FLOWERING DECORATIVE GARDEN DAHLIAS.

MDLLE. HÉLÈNE CHARVET—A seedling from that pretty and much admired garden variety Mme. Van Den Dael, only flowers are much larger and florets of enormous width; pure white; good vigorous habit. Grand variety for Church decoration. 1s. 6d.

SOUVENIR DE GUSTAVE DOUZON—The flowers produced by this variety are even larger and more prodigious than the above and as regards—size, quite a rival to the sunflower; colour of a pleasing and attractive shade of orange-red; a sensational novelty and invaluable for all large floral designs. 2s.

JEANNE CHARMET—A seedling from Mme. Van den Daël; the flowers measure eight inches across, and are borne on long and wiry stems; the exquisite colours are piuk-lilae at the edges, pure white towards the centre, and light yellow at the margins; each lighle is edged with a Picotee-edge of deep violet-red; a remarkable novelty; very free; dwarf habit. 5s.

MME. A. LUMIERE—Unique colouring, pure white with violet-red points; a fine contrast of eolours; distinct. 3s. 6d.

MME. KELLER—Orange ground, marbled with a fiery-red, shaded with violet-carmine; very interesting colouring; large, 3s, 6d,

SOURCE DE FEU—Deep orange, splashed and streaked with vermilion; a dazzling colouring. $3s.\ 6d$

(xvii)

MLLE. HÉLÈNE CHARVET. (Half natural size) Page xvii,

(xviii)

souv. DE GUSTAVE DOUZON. Page xvii.

NEW COLLARET DAHLIAS.

MME. LE PAGE-VIGER-A beautiful true reddish scarlet, collaret golden yellow; the contrast of colours producing a brilliant effect.

LA FUSÉE—Petals pointed and twisted like Single Cactus Dahlias, garnet-red; collaret fine and erect, the white shaded with reddish violet; elegant and original.

DUCHESS J. MELZI D'ERIL—Yellow, tinted orange, heavily marked and striped red, and aureoled golden-yellow in the centre; collaret pinky white, shaded and striped with deep red;

original colours of great beauty.

PRINCE GALITZINE-White ground, heavily shaded with purple-pink and reddish carmine; collaret white, slightly striped with rcd.

COMTE CHÉRÉMETEFF-Reddish vermilion, with golden points and golden aureole; collaret yellow, of a bright and distinct colour; of lovely effect.

6s. each. (xix)

NEW EUONYMUS.

PRESIDENT GAUTIER-Similar in colour to Marginata Alba, but far superior, 2s, 6d, each.

RE-INTRODUCTION OF EUPATORIUM PETIOLARE.

During the botanic expedition sent ont by the King of Spain, Charles IV., 1795 to 1804, Mocsino discovered in Mexico a very interesting and beautiful plant, a reproduction of which is represented in the engraving. The anthorities at Kew, after having seen a plant, and comparisons made with specimens in their Herbarium, identified the plant as Eupatorium Petiolare, a name which has now been definitely adopted. Unfortnnately, as in many other instances, photography and reproduction for engraving fail to convey the full beanty and merits of the plant in question, although it will help to give a good idea of the general appearance of this re-introduction of Eupatorium Petiolare. The habit and growth of plant is vigorous and the foliage a beautiful green, contrasting for effect with the flowers, which are almost a pure white when fully expanded; when in a young state the ground colour is of a pleasing, bright, and delicious blush shade, gradually hecoming covered with a veil of the white stamens. The colouring of the young flowers in combination with the older and almost pure white ones has a most charming effect, and reminds one of the lovely and free-flowering Polyantha Rose. The flowers have a soft and sweet perfume somewhat similar to that of the Winter Heliotrope, and, owing to their long-lasting qualities, should be of special value for entting purposes. A plant well adapted for decoration and groups. Award of Merit, R.H.S. In young plants, 2s. 6d. each.

EUPATORIUM PETIOLARE,

NEW HARDY LOBELIAS.

(Lobelia Syphilitica Hybrids.)

We have pleasure in offering the following novelties, feeling sure they will be highly appreciated as desirable horder and bedding plants. They have been rigidly selected and proved from a very large number of hybridised seedlings.

ANDREW BARLOW-Flowers of good size of a rich deep violet-purple, freely produced on brauching stalks. Award of Merit, R.H.S. 3 ft. 3s.

ATTRACTION—A bright shade of a combination of vermilion, overlaid crimson, and having a white throat. 2s. 6d.

BLUESTONE—A distinct and showy variety of hright blue; robust habit; the individual flower being of good size. 2s. 6d.

ELSIE-Large flowers of a lively soft purple; very showy and distinct. 2s. 6d.

GLARE OF THE GARDEN—A showy plant for bedding or massing; the flowers are small, but in such masses as to be very gay; the colour is a carmine and scarlet combination. 2s. 6d.

KING OF THE CRIMSONS—The richest shade imaginable of deep crimson, a nnique colour; dwarf. 3s.

MAGNIFICENT—The finest both in spike and flower of all the crimson varieties, and being of this race, quite hardy; a great advance. 3s.

MULBERRY-A distinct and beautiful shade of richest mulberry; vivid green foliage. 2s. 6d.

MULTIFLORA—A particularly bright variety for bodding; small flowers of a hright ruby shade, and produced in large quantities on neat branching stalks; dwarf. 2s.

PRINCE OF BEDDERS—Very branching habit, rich rosy vermilion, leaves green; a desirable bedding plant. 2s.

PURPLE KING-Flowers large, rich hrilliant trne purple; most distinct. Award of Merit, R.H.S. 3s.

PRINCESS-Large flowers, deep rich cerise; very finc. 2s.

PERCY LADHAMS-Large flowers, true cerise colour, tall habit; a desirable variety. 2s. 6d.

The set of One Plant each for 20s.

GRAND NEW ROSE, HYBRID-TEA.

ETOILE DE FRANCE.—Very vigorous in growth and of robust constitution, forming upright bushes of a great size and possessing but very few thorns; foliage of a handsome greeu bronzy colour; fine long bud coming singly and carried on stiff erect stems. Flowers very large and possessing petals of very good substance, of magnificent cupped form, very full and expanding very freely. Superh colour, velvety reddish crimson, the centre petals being a vivid reddish cerise. The flowers are highly fragrant and last a very long time. The result of a cross between Mme. Abel Chatenay and Fisher Holmes. This grand novelty has inherited the wonderful habit of growth and free-blooming qualities of its parent and the hrilliant colouring of Fisher Holmes. Etoile de France will prove a grand addition to the class of Hyhrid-Teas, and for bedding and massing it will be much appreciated; for cut flower purposes it will prove a very good variety on account of its colour and free-blooming qualities. A large Silver-Gilt Medal and a First Class Certificate have been awarded to this New Rose. To he sent ont November 1st. 1904, and supplied in strong dwarf plants from the open ground and ready-pruned to be planted. 7s. 6d. each.

GRAND NEW VERBENA.

VERBENA WARLEY—Handsome soft rich red, splendid large trusses of bright flowers; habit is robust, the stont stems rising vigorously instead of falling readily to the ground and creeping along it; a spleudid introduction. 1s. 6d. each.

PERENNIAL ASTERS (MICHAELMAS DAISIES). NEW VARIETIES.

ALICE—Pale pink; bushy hahit. 3 ft. 9d.
ANNIE—Lavender, shaded pink; late. 2½ ft.
BRIGHTNESS—Deep bright pink, larger than type.

CAPTIVATION-Pure white, changing to pink. 3 ft.

CHARMING-White, changing to purple. 41 ft.

CORDIFOLIUS MAGNIFICUS-Distinct habit; dark blue.

DELIGHT—Small, white, golden centre, changing to pink.

EDWIN BECKETT-Bich bluc; a splendid variety.

ESTHER—Delicate pink; late. 2½ ft.

ERICOIDES SUPERBUS—Large pale blue.

FREEDOM-A giant form of the Ericoides section.

GRACE DARLING-A seedling from Coombe Fishacre, pale pink. 3 ft.

GORGEOUS-Purplish pink flowers. 11 ft.

GRANDIS-White petals, golden centre; very distinct. 5 ft.

HON. EDITH GIBBS-Pale blue; densely flowcred. 5 ft.

HON. VICARY GIBBS-Bright pink. 3 ft.

KATIE-Large dark blne flowers. 3 ft.

MINNIE—White, changing to pink and purple. 2 ft.

ROYALTY—Deep purplish pink; compact. 2½ ft.

SENSATION-White, golden centre; branching.

THORA-White, changing to pink, yellow centre. 3 ft.

TRIUMPH-A seedling from Coombe Fishacre, dark pink flowers; late. 5 ft.

VENUS-Pale lavender, suffnsed pink. 21 ft.

VIMINEUS PERFECTA-White petals, pale rcd centre; dainty.

13. each. 12 varieties for 10s.

NOVI-ANGLIÆ RYECROFT PINK-Large bright rosy pink flowers; branching

NOVI-ANGLIÆ RYECROFT PURPLE—Rich blue purple; the most intense colour in this section.

NOVI-BELGII D. B. CRANE-Rich manve blue, shaded rose; dwarf habit; early

NOVI-BELGII EVENING STAR-Pretty star-like flowers of a soft mauve with a rosy sbade; pretty and distinct.

NOVI-BELGII STARLIGHT-Starry flowers, mauve with a bluish tint; light and

graceful habit; very distinct.

1s. each.

OTHER NOVELTIES FROM VARIOUS SOURCES.

ACALYPHA BICOLOR COMPACTA.

ACALYPHA BICOLOR COMPACTA-A distinct and novel variety with foliage 3 to 41 inches wide and 6 to 8 inches long, the ground colour of which is bright green, margined with a wide irregular band of lemon-yellow, and with wide yellow bars running lengthwise through the leaf, which is also thickly dotted with yellow. The plant is of free branching habit, and grows from 12 to 18 inches high. Will stand full sunlight. 2s. 6d.

ACALYPHA SANDERI, syn. HISPIDA

—The A. Sanderi is a green-leaved species, with
spikes of gorgeous crimson flowers hanging from
every node. These beautiful floral spikes are from 30 to 30 inches long, and thick as an ordinary walking-stick. All the year round it sends forth its glowing pendants, and its initial cost being small, it is likely to be popular with those of modest purses who love the presence of floral beauties. Plants, 1s. 6d.

AGERATUM, ANDENKEN AU GROF VIRCHOW-A nice improvement in the blnc flowering varieties. 1s.

ALTERNANTHERA AMŒNA SPECTABILIS GRANDIFOLIA-Owing to its more vigorous habit and bolder foliage this will soon be generally grown in preference to several of the more delicate varieties. 1s.

BEGONIA, **AGATHA**—A fine addition to the winter-flowering section; in general appearance it resembles *Choire de Lorraine*, but has larger and richer-colonred flowers, and n more compact habit. Award of Merit. 3s. 6d.

BEGONIA, AGATHA COMPACTA—The dwarfest growing variety, and one of the best yet raised, varying in height from 9 inches to 1 foot; free flowering; pink-coloured flowers Award of Merit. 5s.

BEGONIA, ENSIGN-Semi-double; bright rose-pink of fine form; very effective. Award of Merit, R.H.S. 2s. 6d.

BEGONIA, MDME. CHARRAT—A seedling from B. Corallina, but much dwarfer than that variety, and is covered for the greater part of the year with clear coral-colonred flowers, lasting in good condition for a considerable period. It is also well adapted for planting outdoors, where the flowers attain to a brilliant coral colour, admirably adapted for the border. 1s.

BEGONIA SUCCESS — Of robust habit and bold foliage; flowers are semi-double, 2 inches in diameter, and of a bright carmine toned with scarlet; of branching babit; a most useful addition. Award of Merit. 7s. 6d.

BEGONIA, TURNFORD HALL—A vigorous sport from Gloire de Lorraine; white, very slightly tinted with apple-blossom pink; very free. 2s. 6d., 3s. 6d., 5s., 7s. 6d., 10s. 6d.

BOUGAINVILLEA CYPHERII — Grand new plant. Largest and best-coloured Bougainvillea ever offered; a splendid grower and remarkably free bloomer. Awarded a First-Class Certificate at Wolverbampton Floral Fete, 1896, and at the Oxford Commemoration Show, 1896: also the Gold Medal at Shrewsbury Great Royal Commemorative Show, 1897, for the best new plant in the Exhibition. 2s. 6d.

BOUVARDIA, KING OF THE SCARLETS—The giant of the family, producing scarlet-coloured flowers; very fine. 2s. 6d.

CALLA, or ARUM LILY, PERLE VON STUTTGART—Very compact babit; flowers are of a beautiful pure white; a profuse bloomer; will be generally admired for its beauty and usefulness. 1s. and 1s. 6d.

CAMPANULA ISOPHYLLA MAYII—The capabilities of the plant are evident to those who attend the R.H.S. meetings regularly, and there was little need to consider whether the Campanula would be useful for this or that purpose, and whether it would be amenable to cultivation or not. Its usefulness either as a pot or basket plant, drooping or growing erect, was made apparent, while the large, flattisb, light blue flowers, produced with the greatest feeedom, proved that the plant was as floriferous as one could wish. Award of Merit, R.H.S. 1s.

CEROPEGIA WOODI—A very ornamental and graceful trailing plant, with slender greyish branches, bearing small orbicular fleshy leaves, most prettily marbled with silvery white on the upper surface. The flowers are pinkish in colour, tubular, distended at the base, and expanding at the top into fine dark purple segments united at the tips in the form of a crown. The variegated foliage and curious structure commend this plant alike to the connoisseur and to the botanist. Will form a most interesting and excellent basket plant for a warm greenhouse, and is suitable for rockeries or other decorative purposes. A native of Natal. 1s. 6d.

CLERODENDRON BALFOURI STRIATA—Distinct striped calyx. 2s. 6d.

CORYDALIS THALICTRIFOLIA—A new species from Central China, bearing great quantities of short, slender, tube-shaped yellow flowers, in racemes 5 to 7 inches long. It can be well recommended for cool bouse and conservatory decoration, and when grown in pots will yield a display for several months together. An excellent rock garden plant in well-protected positions. 1s, 6d.

CROTON ELEGANTISSIMUM ROSEUM—A most beautiful combination of orange-red and dark green; inclined to be spiral, and slightly interrupted; a fine table plant. 7s. 6d.

CROTON, GOLDEN GEM-Mottled green and yellow; a most pleasing and hardy kind. 5s.

CROTON TURNFORDIENSE—Award of Merit, R.H.S. Deep yellow, fringed with dark olive-green, which serrates into the yellow; distinct, and a good constitution. 7s. 6d.

DÆDALACANTHUS PARVUS — Winter-flowering stove plant; flowers purple; resembling a *Phlox*. 2s. 6d.

(xxiii)

DRACÆNA GODSEFFIANA—A most striking new ornamental foliage plant, of free-branching habit, and forms into beautiful compact graceful specimens in a very short time; foliage is rich dark green, densely marked with irregular dots and spots of a creamy white; very hardy as a house plant. 4s.

FICUS RADICANS VARIEGATA—This charming and effective variety is without doubt destined to become "a plant for everyone," its easy culture, effective variegation, and regular growth making it one of the best ornamental plants yet sent out. As a variegated plant for banging pots or vases it cannot be excelled. Awarded a First-Class Certificate, R.H.S. 1s.

FICUS REPENS VARIEGATA—A very pretty marbled variety, quite distinct from above. 1s. 6d.

FUCHSIA, ANDENKEN AN HEINRICH HENKEL — A splendid winter-flowering variety, and belonging to the Triphylla Hybrida class. 1s. 6d.

FUCHSIA BARON DE KETTELER—A grand double variety; enormons corollas, plnm-purple; very fine 1s. 6d.

FUCHSIA, FURST OTTO VON WERNIGERODE—A seedling from Triphylla, and producing flowers of a pleasing shade of pink; quite distinct. 1s.

FUCHSIA, GENERAL VOYRON—Flowers large and fine; sepals bright red; corolla rich purple. 1s. 6d.

GAZANIA NIVEA LATIFOLIA—Flowers and petals very large, sulpbnr-white, centre deep yellow, reverse of petals violet. 1s.

HELIOTROPE COLLYRIS — Dwarf, deep violet, almost equal in colour to the well-known Violet The Czar; clear white eye; a fine novelty for the border and pots. 1s.

HELIOTROPE, MME. AUG. RODRIGUES—Very large heads of bloom, intense reddish violet; white eye; the most distinct red-coloured variety. 1s.

HELIOTROPE, MLLE. FERNANDE VIGER-Robust and compact; immense beads of bloom, of a deep rich shade of violet; fine. 1s.

JACOBINIA CHRYSOSTEPHANA—Flowers bright golden yellow, borne in dense flowered crown-like corynibs at the tips of branches; of easy culture and flowering during November and December. 3s. 6d.

KALANCHOE FLAMMEA—A brilliant-flowered succulent. 1s. 6d.

LOBELIA, LOW'S TRIUMPH—Intense dark blue; large ivory-white eye; very dwarf and compact; one of the finest. 6d. each; 5s. per doz.

MOSCHOSMA RIPARUM—This, like Coleus Thyrsoideus, comes from British Central Africa, and is very similar in appearance to a Spiræa. The small flowers are blush-white, with light purple-coloured stamens; a useful greenhouse winter-flowering plant. Should not be grown in larger than 5 or 6 inch pots. 1s. and 1s. 6d. each.

NEPHROLEPIS PIERSONII—For hanging baskets as well as pots it is a great acquisition; graceful, striking, and hardy. 2s. 6d.

PHYLLOCACTUS PHYLLANTHOIDES, GERMAN EMPRESS—Extremely free flowering; a lovely rose-pink, of easy culture. 1s. 6d.

PRIMULA KEWENSIS—An acquisition as a winter-flowering decorative plant; the spikes are useful for cutting purposes; flowers are bright yellow and very fragrant; floriferous, distinct. 5s.

SALVIA SPLENDENS, TRIUMPH—Spikes of rich velvety scarlet flowers; a grand acquisition for cutting purposes. 1s.

SAXIFRAGA SARMENTOSA TRICOLOR SUPERBA—A most charming and bighly decorative greenhouse plant, the variegation of the foliage being very attractive. 1s.

NEW AND RARE HARDY PLANTS.

ADONIS WALZIANA-Flowers large, yellow in early spring. 2 to 3 ft. 3s. 6d.

ANEMONE PULSATILLA ALBA—Flowers white, produced in great profusion on short stems; easily grown, and well adapted for the rockery and front row of the border. 1s. 6d.

ANEMONE, QUEEN CHARLOTTE—A splendid semi-double rosy flesh-coloured variety, darker reverse; flowers measure 4 inches across; strong robust growth; a great acquisition. 1s. and 1s. 6d.

ARUNCUS SYLVESTRE, var. KNEIFFI—New perennial Spirmen, with fern-like finely-divided dark green foliage, and beautiful plume-shaped flower trueses of a pure white. The plants attain a height of 4 to 5 feet, and are perfectly hardy. Per pkt., 1s. 6d.; plants, 1s. to 3s. 6d.

ASTER, MRS. W. PETERS-White flowers; very free. 2 ft. 1s.

ASTER, RIVERSLEA-Large flowers; bright hlue. 1s.

ASTILBE DAVIDII—Is a strong growing perennial with elegant tufted leafage and graceful spikes of deep rose-violet or mauve-coloured flowers, borne on stems of 6 or more feet in height. A magnificent new hardy plant and a decided acquisition. 7s. 6d.

ASTILBE (SPIRÆA) CHINENSIS—Distinct from all others of this family; erect branching stems, terminating with pretty feathery planes of pink flowers; fond of a moist situation. 2½ ft. 1s. and 1s. 6d.

AUBRIETIA, DR. MULES—The richest-coloured variety yet raised, very fine glowing purple flowers; profuse bloomer. 9d.

CAMPANULA PERSICIFOLIA ALBA GRANDIFLORA (BACKHOUSEI)—The new large-flowering varieties of *C. persicifolia* have quickly superseded the old small-flowering kinds for cutting purposes, even so will those now offered soon be much sought after and preferred to the old small-flowering double varieties; they produce splendid double flowers of $1\frac{1}{2}$ inches diameter. No grower of flowers for cutting purposes or lovers of hardy perennials should be without specimeus of this lovely novelty. 9d.

CAMPANULA PERSICIFOLIA GRANDIFLORA (BACKHOUSEI) FL. PL. BLUE—Per pkt., 1s.; plants, 9d.

CAMPANULA PERSICIFOLIA GRANDIFLORA (BACKHOUSEI) FL. PL. WHITE-Per pkt., 1s.; plants, 9d.

CAMPANULA PERSICIFOLIA MOERHEIMI—Award of Merit, R.H.S. Pure white flowers $2\frac{1}{2}$ inches across, quite double; flowers are large and freely produced; grows more compact than the other *Persicifolia* varieties. 1s.

CINERARIA MARITIMA DIAMANT—A superb plant, originating in Lyons; the foliage is somewhat shorter than the old variety C. Maritima, and the silvery appearance much more effective—in fact, at first sight, one might take it to be Centaurea candidissima. This is an excellent acquisition, and most useful for the formation of borders, carpet bedding, and other like purposes. Per pkt., 1s.; plants, 9d.

DELPHINIUM, ALBION—White, semi-double; a free grower, and produces a well-formed spike; quite distinct; a flower of great beauty. 3s. 6d.

ERIGERON HYBRIDUS ROSEUS—A beautiful purplish-rose, disc a clear golden-yellow. Produces its lovely flowers from May until late in the antnmn. 9d.

GALEGA HARTLANDI—A lovely blue and white bicolour form of Goat's Rue; unique silvery variegated foliage when coming into growth; a splendid novelty. 3s. 6d.

GERANIUM GRANDIFLORUM — Remarkably pretty species, with large deep nltramarine blue flowers appearing in comples on long stems during May and June; showy hardy perennial. 1s.

GERBERA JAMESONI (Barberton Daisy)—Large showy flowers, resembling giant Daisies, and varying in colour from mostly fiery orange-scarlet to rose-pink, and almost white. It is only hardy in very sunny or sheltered gardens, but grown as a cool greenhouse plant, and watered sparingly during winter, it is of easy culture. In pots, 2s. 6d., and 3s. 6d.

GEUM HELDRECHI—Large, rich, orange-coloured flowers in late spring, growing vigorously in almost any soil or situation. 1 ft. 9d.

GYPSOPHILA PANICULATA FL. PL.—A new donble pure white-flowered form of this useful plant; valuable for cutting; very free and quite hardy. Award of Merit. 7s. 6d. and 10s. 6d.

HELENIUM PUMILUM MAGNIFICUM—About 3 ft. high, soft yellow flowers. 1s. HEUCHERA BRIZOIDES GRACILLIMA—Minutely branched panieles of miniature tinted rosy-crimson flowers; very elegant. $2\frac{1}{2}$ ft. 1s. 6d.

HEUCHERA ZABELIANA—In the way of *H. sanguinea*, 3 ft. high; stems bright reddish erimson, flowers bright pink. 1s.

IRIS PALLIDA FOL. VAR.—The variegation of yellow, white, and glaucons green is most distinct and effective; pale blue flowers; a splendid subject for pot culture as well as the herbaccons border; quite hardy. 2s. 6d.

JASMINUM PRIMULINUM—Producing large and finer flowers than *J. nudiflorum*; bright yellow, a spleudid variety. 7s. 6d.

KNIPHOFIA, TRIUMPH—The finest of all the new hybrids; flower spike bold and massive; glowing orange-yellow; strong sturdy grower and free bloomer. 43 ft. 3s. 6d.

LATHYRUS LATIFOLIUS GRANDIFLORUS ALBUS (White Pearl)—This variety claims to be one of the finest of recent introductions; of the purest white, flowers nearly twice the size of the old variety, and of the finest form and substance, horne on stout footstalks. 5 ft. 7s. 6d.

LEWISIA REDIVIVA—Dark green, fleshy foliage, resting upon the ground; flowers of a glistening satiny rose; requires a dry position. 1s.

LIATRIS SCARIOSA MAGNIFICA—The finest of the Liatris; flowers crimson purple. 1s. 6d.

LITHOSPERMUM CANESCENS—Tufts of slender stems about 1 ft., having soft silky foliage and dense ends of long, tubnlar, rich orange flowers. 1s. 6d.

LOBELIA CARDINALIS ATROSANGUINEA—In this fine new Lobelia the Cardinalis group will be enriched by a very valuable variety. It is thoroughly distinct by reason of the deep blood-red colour of its flowers, has the same noble habit, and the follage is just as dark and handsome as that of the L. C. Victoria. Per pkt., 1s.

LOBELIA, LORD ARDILAUN—The finest yet raised, and the most richly coloured; a glistening crimson-scarlet. 3 to $3\frac{1}{2}$ feet. 1s. 6d.

LOBELIA RIVOIREI—This will prove to be a valuable acquisition on account of its beauty and large light pink flowers. It is a perennial plant, and blooms during the whole summer and autumn. The best culture is in the open ground; we must, however, say that the germination is very slow and difficult, the seeds must absolutely not be covered with carth. Plants, 2s.; seed, per pkt., 1s. 6d.

LUPINUS, SOMERSET—A handsome new perennial Lupin of semi shrubby growth; a showy border plant. 4 ft. 1s. 6d.

ENOTHERA, M. CUTHBERTSON—The flowers are double, bright glossy yellow, borne on stems 2 to $2\frac{1}{2}$ ft. high. A unique and beautiful feature of this plant is that in all its stems. leaves, and buds, it is of a deep red colour, showing off the bright yellow flowers in bold relief; it is perfectly hardy, and deserves a place in every garden; for exhibition purposes very useful. 2s.

ŒNOTHERA SPECIOSA ROSEA—Sweet large rosy flowers, somewhat tender, beautiful.

PAPAVER ORIENTALE, MRS. MARSH—Flowers rich crimson-scarlet, marked more or less with white or blnsh; a remarkable novelty. 1s. 6d.

POLEMONIUM CONFERTUM VAR. MELITTUM—A very distinct plant from Colorado; creamy white flowers. 1s.

POLYGONUM BALDCHUANICUM—A hardy perennial climber of the highest decorative value. The stems are twining, attaching themselves to any near support. Flowers creamy white, and tinted rose-pink, produced all along the branches; very attractive and effective. 3s. 6d.

POLYGONUM CILINODE—Beautiful green foliage, inuumerable white flowers; owing to its rapid growth a spleudid plant for covering trelliswork, trunks of old trees, and other similar positions. 1s. 6d.

PRIMULA CASHMERIANA ALBA—New white-flowering variety of this lovely early blooming Primrose, reproducing itself true from seed. The flower heads are much larger than those of P. denticulata alba. Per pkt., 1s.

SAPONARIA OCYMOIDES ALBA—The flowers are not absolutely pure white, but have in the older days a tinge of pink that provides a pretty effect with the whiter appearance of the opening flowers. The chief value of such a plant is the great length of time it flowers. 9d.

SCABIOSA CAUCASICA PERFECTA—This represents the greatest perfection in this class. The colour of the flowers ranges from the most beautiful water-blue to the deepest azureblue, and while the old Scabiosa caucasica is single flowering, this novelty has three or four rows of petals. This will recommend itself through its beauty. Per pkt., 1s.; plants, 1s. 6d. and 2s. 6d.

SILENE FORTUNEI—A hardy Chinese species; pinkish flowers, and very free.\ 2 to 3 ft. 9d.

TRILLIUM SESSILE, SNOW QUEEN—Bearing large pure white flowers; handsome broad petals; strong vigorous grower. 1s.

VINCA ACUTILOBA—Pale china-white blooms; an excellent rock plant, flowers all the year round. 1s.

RETARDED BULBS AND ROOTS.

We heg to inform our customers we are now in a position to offer the following in first-class condition, and should have much pleasure in hooking orders for any or all of the undermentioned to be delivered at stated intervals throughout the year:—

LILY OF	THE VALLEY	***	•••	***		•••		•••	8/0 and	1 12/0	per 100

,,	JAPONICA	•••		•••						6/0	,,

JAPANESE FERN BALLS.

DAVALLIA BULLATA—A variety from Japan with deep green fronds, 8 to 10 inches long, from creeping rootstocks or rhizomes. These are made up by the Japanese into fanciful shapes, such as halls, wreaths, and various other figures, and may be suspended from the roof of the conservatory or window garden, where they soon start into growth. These roots are fastened to a frame made of sphagnum moss, which retains the moisture, so that an occasional dipping into a pail of water is all that is required to keep the plants in a good growing condition. As we have found the ball-shaped forms to give the best results, as well as heing the most artistic in appearance, we only offer this shape. 3s. 6d. and 5s.

NEW GOLDEN CONIFER.

RETINOSPORA OBTUSA CRIPPSII—This magnificent plant is acknowledged by all to be the most heautiful Golden Conifer known; it is stately, graceful, and pyramidal in habit, was raised as a scedling from Retinospora obtusa, and is an exact counterpart of the parent in growth. It provides the most brilliant bit of gold colouring known among Conifers, and fully exposed to the sun it does not hurn in the least degree. First Class Certificate, R.H.S. Established plants in pots, 7s. 6d., 10s. 6d., and 15s.

NEW GRAPE.

MELTON CONSTABLE SEEDLING—A seedling from Lady Hastings and Gros Colmar. The raiser states that it keeps much later than Black Alicante, and is of finer flavour than Gros Cclmar. It colours and fivishes well in a 6-in, pot, which Colmar will not do, and he has no hesitation in saying it will prove a grand market sort. Fruiting canes, in pots, 31s. 6d. planting canes, in pots, 21s.

PLEASE WRITE TO US FOR PARTICULARS AND PRICES OF PLANTS REQUIRED AND NOT MENTIONED HERE.

THE SMALLEST ORDERS, AS ALSO THE LARGEST ONES, RECEIVE OUR BEST ATTENTION.

Now the cost of carriage of seeds and parcels is considerably lower, and goods can reach you in a few hours direct from us who possess the hest resources and stock, together with the largest and fluest facilities for carrying on business successfully to all parts of the World, we are relying on our esteemed customers and their kind recommendations to enable us to add to the usefulness and reputation of our establishments.

PRICES AT WHICH PLANTS, ROOTED CUTTINGS, AND CUTTINGS ARE NOW SOLD.

All prices herein denote established plants, and the style of packing should be left to us, the material only being charged for; or, if desired, the soil can be shaken away. and nearly all plants sent by Letter or Parcel Post. The following are supplied as rooted outtings and outtings, viz.:—Ageratums, Bouvardias, Calceolaria (Shrubby), Chrysanthemums (new varieties half price), Coleus, Fuchsias, Heliotroplums, Lantanas, Salvias, Tropmolums, Verbenas, and Violas. Plants priced 6d., a rooted outting would be 4d., and a outting 2d.

Zonal and other Pelargoniums differ only in price thus—if priced 1s., rooted cuttings will be 9d., and cuttings 6d., also sent by post, and so on in proportion to the price of the plant. Plants sent by post, without soil, to all parts of the world.

NOTICE.—Dry Tubers of Begonias, Dahlias, Gloxinias, and other Bulbs are supplied on condition that the purchaser takes all risk of their breaking into growth. Cuttings of all kinds are also supplied at lower prices than plants, at customers' sole risk of their striking.

BOXES AND POSTAGE AT ACTUAL COST.

Nearly all the Plants and Seeds mentioned in our Catalogues are in readiness, at all Seasons, to be sent to any part of the World on receipt of the price stated, adding one-third extra for India, China, Australia, and New Zealand, when extra strong plants must be selected to outlive the voyage. Any other flowers not herein mentioned will be supplied at their fair and proper prices. A remittance is requested from unknown correspondents.

Photos desired of groups or of any novel object from our Seeds or Plants supplied direct. Senders of those accepted for reproduction in our Catalogues will receive to value in stock 10s. for small, 15s. to 20s. for large.

THE ST. LOUIS EXHIBITION.

At the forthcoming American Exposition to be held at St. Louis (April, 1904), we have undertaken to supply the Hardy Herbaceous and other plants necessary to carry out the arrangements of the "Old English Flower Garden," as shown on the "Plans," see pages xxx and xxxi. Should any lady or gentleman be desirous of having a similar or smaller extent furnished with sufficient plants to produce the same effect, we should be most pleased to inform them how many plants would be required and the probable cost of same, together with full particulars, and a competent man to superintend planting the same if desired.

OUR ADVERTISEMENTS.

COME AND SEE OUR CHRYSANTHEMUMS.

An enormous amount of evidence confirming our Special System, first adopted by us, of propagation from properly prepared stock—from pure, clean, healthy, open field-grown stools, free from fungi—has come to light and is still coming, proving more and more that ours are far the best, the key to success, and win more victories than perhaps all others put together. Please remember our forte and aim is stock of the best quality, earrying satisfaction all over the world.

Henry Cannell & Sons'

(F.R.H.S., M.R.A.S.)

FLORAL GUIDE

FOR 1904.

A Remittance is requested from Unknown Correspondents.

To all who accompany their Orders with Cash we

offer liberal treatment.

All Cheques to be made payable to H. CANNELL & SONS, and crossed Martin's Bank, SWANLEY, KENT. Post Office Orders to be made payable at SWANLEY, KENT.

Sums under 5s. can be remitted in stamps.

When a variety of Plants is ordered (except those advertised at a cheaper rate), extra kinds will be presented to partly compensate for Carriage.

THE TRADE SUPPLIED ON OUR USUAL TERMS.

Horticultural Establishment:

SWANLEY, KENT.

SEED FARM, EYNSFORD

(S. E. & C. Ry.), both adjoining the Stations.

TERMS OF BUSINESS.

Although every care will be taken in the packing and sending of plants, seeds, &c., risk of every description must be borne by the purchaser immediately they are delivered

to the Railway Company.

Every article is charged at the very lowest price, therefore no credit can be given. Our object is to give the ready-money huyers the advantages they are really entitled to. It may happen that prices lower than ours may sometimes be quoted. This invariably means false economy in a variety of ways-good things must be looked after by good men, who must he fairly paid, and good strains are only procured by unccasing labour and care.

Full instructions as to the proper mode of forwarding must accompany each order, as it is calculated to expedite transit of goods, and save vexatious mistakes. All goods are advised the same day as forwarded, and the invoice posted as soon as possible afterwards.

Say by what rail. Please to write the address plain and in full on each order. No complaints entertained nuless made immediately on receipt of goods.

The greatest care is exercised, and utmost liberality shown, when the selection of sorts is left to us.

All accounts due nett quarterly.

It is particularly requested that all small Orders be accompanied with remittance, to avoid the necessity of Booking.

Returned Empties .- As all Carriers refuse to receive these unless PREPAID, and they are usually so much damaged during transit that when they reach us they are nearly useless, all packing material will be charged as low as possible, and CANNOT BE ALLOWED FOR.

All orders by post will be dealt with precisely as if given As the season advances, and the New Plants become cheaper, so are the prices lowered accordingly; and those who send above their value will have additional plants put in to make up the full amount.

It often happens that we are sold out of rooted cuttings of some varietics, and plants are shaken out of pots to complete orders, consequently plant price must be charged.

When plants are publicly advertised by us, the usual trade allowance will not be made.

To avoid delay and disappointment, all business communications must be sent direct to the firm, addressed "H. CANNELL & SONS," otherwise they will remain unnoticed. Telegraphic address, "CANNELL,

All Cheques to be made payable to H. CANNELL & SONS, and crossed

Martin's Bank, Swanley.

As the numbers shown against the plants herein are altered annually, it is particularly requested that the Edition of the Catalogue from whence such numbers are selected be quoted in ordering, so as to avoid mistakes.

We have every facility for keeping a large stock of everything enumerated in this Catalogue, and are therefore determined to adopt the system of quick sale and ready money. All who euclose

remittances will be most liberally dealt with.

The Home of Flowers is open for business, &c., from 6 o'clock a.m. until 6 p.m., and 5 o'clock p.m. on Saturday. No visitors admitted on Saturday evenings and Sundays. Closed on all Bank Holidays. Customers are particularly requested, when sending orders for friends (with their own), to do so on separate papers, with each address written plainly, to prevent

mistakes.

WHEN SPECIAL QUOTATIONS ARE GIVEN, CUSTOMERS ARE KINOLY REQUESTED TO MENTION SUCH

H. CANNELL & SONS, F.R.H.S.,

Importers and Exporters of all New and Choice Florists' Flowers to and from all parts of the World.

FOREIGN AND COLONIAL NOTICES.

Plants and Seeds are despatched to India through the Indian Parcel Post, and also by the ordinary mail. Costomers will kindly notify by which service they wish their parcels sent.

In America, Australia, India, and Cape Town, the general expression amongst both the trade and amate are is "None are so successful in exporting plants as Cannell & Sons," consequently we need hardly say our trade has increased to a very great extent.

When Plants are received abroad let them lie in milk-warm water for six hours without removing the packing from the roots; then napack and put in pots, according to size, being careful to shade from sun, draught, and kept close until they make fresh growth.

Telegraphic address, "CANNELL, SWANLEY, ENGLAND."

OUR FOREIGN TRADE.

The bave now so perfected the system of sending plants and seeds into the most remote parts of the world that success is no longer an uncertainty.

S there any difficulty in getting plants and seeds out alive and in good condition to the most distant parts? No; none whatever. We have exported thousands of cases with the most success and less exposure to the most success to and the exact and less expense to those furthermost parts than has ever heen done hefore. The main thing to ensure success is to let us have the order early, giving us time to prepare the plants, and to send at the exact and best time, and in all cases the way of packing had better be left entirely in our hands. Our post system for most things is certainly preferable, but such as Azaleas, Camellias, Fruit Trees, &c., should be left to us. Chrysanthemms we grow many thousands, especially for foreign trade; and there is hardly a show but what the plants that we have sent out are not figuring most prominently.

IMPROVED PLANTS.

Nothing is hailed with more joy by all lovers of Floriculture than gradual and marked improvement in our Florists' Flowers from year to year. Changes without attractiveness are of little or no value; new colonrs and stont dwarf growth are qualities immediately sought for. We should he glad to hear from any amateurs or gardeners having new and improved varieties of plants (also vegetables, see Seed Catalogue) enumerated in our Floral Gnide; they must be a decided advance on all existing kinds.

AURIC'ULAS.

HESE are amongst the most charming sights we know of, and are certain to attract notice from those most oblivious to the beanties of flowers, their perfect form and wonderful colouring rendering them the cynosure of all eyes; whilst, in addition to their great loveliness, they possess that great desideratum in flowers—long-lasting blossoms.

SEED—Cannells' Alpine Varieties, is. per packet.

Auriculus, garden varieties, free flowering and effective, our selection, 6s. dozen.

Seedling Alpines, of a most heautiful strain and in great variety, 6s. and 10s. per dozen; named kiuds, 12s. and 18s. per doz.

38. SCHMITTI, FL. PL.—Pretty shade of flesh-piuk.

All those not priced 9d. in Spring. Flowering plants in Autumn, 1s. 6d. each and upwards.

HESE give a very heautiful and tropical aspect to pleasure grounds, by their stately growth and broad, massive foliage, relieved by rich crimson, scarlet, orange, or yellow flowers during the summer months; their foliage, comprising various shades of rich green, glaucous and chocolate-crimson leaf-tints, fits them admirably for effective groups, their appearance rendering

them a striking contrast to other plants.

They are also invaluable for large pot plants as portable specimens in pleasure-ground decoration, and equally so for summer groups in large conservatories, in which their great diversity of foliage appears to advantage, and they are very ornamental for any purpose. The following are the best for conservatory, porches, or standing in tubs, pots, &c.; ahout a garden they are grand objects, and for beds or single clumps are the finest flowering varieties of this family we ever had.

NEW CANNAS.

For Newest Varieties, see front of Guide.

VARIOUS RAISERS, WITH THEIR DESCRIPTIONS. | DRIED ROOTS UNTIL MARCH TO GO BY POST. 140. AMI BENEY-Beautiful green foliage; large spikes of well-formed flowers of a rich

clear magenta colour. 2s. 6d.

141. BOULE D'OR- Flowers of medium size, but spikes are numerous and compact; rich golden yellow, base of each petal slightly spotted amber, lower petals heavily speckled; green foliage. 2s. 6d.

142. BRACIA HOSER—Green foliage; flowers large and fine, of a pretty shade of salmon,

suffused deeper, and edges of petals golden. 2s. 6d.

143., CLAUDE FICHET-Foliage green; free-flowering, well-formed flowers of a deep reddish-purple colour. 2s. 6d.

144. COMTE RAOUL CHANDON DE BRIAILLES - Splendid green foliage; wellformed flowers, deep citron-yellow, heavily feathered in each petal; a beautiful carmine colour. 3s.

146. ERNST H. KRELAGE-Deep green foliage, enormous trusses; fine large flowers of a clear rich cerise-carmine. 2s, 6d.

147. GABRIEL VIAUD-Very dwarf and compact habit, bronzy-green foliage, bordered purple; stems thick and short, and bearing gigantic heads of large fine flowers of a velvety reddish crimson. 3s. 148. GUSTAVE GRUNERWALD-Foliage green; fine large flowers of a beautiful orange-

carmine, heavily suffueed deeper. 2s. 6d.
151. JACQUES LELOIR—Yellow, tetally spotted reddish brown; green foliage; flowers large and well formed. 4s.

152. J. B. DELEUIL—Deep green foliage; large flowers of a beautiful deep canary-yellow, sep maroon-crimson blotch in centre of flower 2s. 6d.

deep maroon-crimson blotch in centre of flower

153 JEAN BEURRIER-Thick leathery glaucous green foliage, spikes uumerons and compact; fine round flowers of a deep brick-red, shaded carmine, slightly edged gold, reverse of florets old gold and red. 3s.

154. JOHN SHORT-Superb green foliage; large well-formed flowers, deep golden yellow,

heavily spotted red. 2s.

155. JUPITER-Flowers very large, brilliant red, distinctly bordered golden yellow, green

foliage, first elass. 3s.

157. MIRIFIQUE-Bright green foliage, dwarf habit, spikes numerous and quite vertical, well above the foliage; flowers are large and elegant, bright orange red, regularly bordered golden yellow; this variety is remarkable on account of the bright appearance and abundance of its flowers; early flowering. 3s.

162. MME. JEAN BURLAT-Producing spikes with great freedom; large, well-formed flowers

of a beautiful tender rose, irregularly bordered clear yellow passing to almost a white. 3s. 164. PHŒBUS- Foliage slightly hordered with brown; compact heads of flowers; flowers large and well formed, vermilion, shaded carmine. 2s. 6d.

165. PLUTUS—Of great effect; abundant green foliage, splendid large flowers of quite a distinct shade—bright orange with a broad margin of golden yellew. 3s.

STILL ONE OF THE MOST USEFUL CANNAS.

171. KÖNIGIN OHARLOTTE—Very vigorous, with beautiful and massive foliage; very dwarf; the spikes, on which the individual blooms are arranged bouquet-like, are very large, and stand out well around the foliage. The flowers are large, with well-rounded petals; bright red, edged one-eighth of an inch wide with gold, the contrast of colour giving a novel and effective appearance to the plant. A grand variety for the conservatory and greenhouse. We have flowered and shown it all the year-lovely even in December and January. Award of Merit, Royal Horticultural Society. 1s. Strong plants, 1s. 6d.

GENERAL COLLECTION.

For Newest Varieties, 1904, see front of Catalogue.

Collection selected from all over the world.

We have a vast stock of these useful and most beautiful flowers, and can serve our patrons well. Awarded Gold, Silver-gilt, and Silver Medals at the principal exhibitions throughout England.

- yellow. 137. SICILIA -- Chrome-yellow, salmon
- spots. 2s. 138. SUEVIA-Canary-yellow and bronze.
- 1s. 6d. *139. UMBRIA—Vermilion, chamois stripes.

ARNATIONS.

25.

We have much pleasure in submitting to our esteemed patrons a few cultural notes from an eminent and most successful Carnation Specialist. They will be found concise and to the point. The same also applies to the cultivation of the Picotee.

CULTIVATION OF THE CARNATION.

1. Time for Planting .- From the middle of September until the end of October. spring, whenever the weather is favourable.

Preparation of the Ground .- This should be done in September, or sooner, by trenching it to the depth of 15 or 18 inches, and work some decayed manure in during the process. A good medium clay loam is best, and one rather inclined to be heavy than light; but I have grown Carnations admirably on light sandy soil—but in this case some clayey loam mixed with leaf-mould

and decayed mannre was placed round the roots.

3. Planting.—This should be done as soon as the plants are received, the ground having heen previously prepared. Carry the box containing the plants to the bed, and plant them out as they are removed from the moss and papers. The plants should he six inches from the edge of the hed and 15 inches asunder in the rows. Plant to the first pair of leaves; the roots should be well into the ground, and some fine soil worked in amongst them, pressing it down firmly. After whether makes the property the roots with decayed meaning the roots are respectively. planting, mulch the surface of the soil amongst the plants with decayed manure; this arrests evaporation from the soil, and acts as a protective agent in winter.

4. Treatment after Planting.—The plants, if well put into the ground, do not usually require

any support; but slender, tall plants may require a slight stick to hold them upright. Any plants that may become loosened, or even thrown ont of the ground by alternate frosts and thaws during

winter, must be pressed in with foot when the soil is soft.

5. Pot Culture.—All the successful exhibitors of Carnations grow a considerable number of plants in flower pots. The layers are potted up in the antumn in small flower pots, large and small good compost is formed of four parts loam, one of leaf-mould, and one of decayed manure, with sand to keep the material in porous condition. After potting them, place in a garden frame, kept rather close for a few days, and if they are potted up early it may be necessary to shade from bright sunshine.

THE CARNATION MANUAL contains much useful and practical information for Amateurs. Copies can be supplied at 3s. 6d., free by post.

For History, Properties, and Management of Carnations and Picotees, see Dodwell's Book. 1s. 7d., post free.

SOUVENIR DE LA MALMAISON—Blush-white; large and full. 1s. to 2s. 6d.

SOUVENIR DE LA MALMAISON-Pink, similar in every respect to the above, except in colour. 1s. and 2s. 6d.

SOUVENIR DE LA MALMAISON MME. ARTHUR WAROCQUE-Dark scarlet self, good shape; dwarf habit, very free. 1s. and 2s. 6d.

SOUVENIR DE LA MALMAISON PRIN-CESS OF WALES-Rose-pink; a very pleasing colour. 1s. 6d. and 2s. 6d.

THE CHURCHWARDEN--Very large and full; bright crimson-scarlet. 1s.

TRUMPETER — Very large, dark scarlet; sweet scented; robust. 1s. 6d.

Carnations made safe against Wireworm, and also vigorous and doubly satisfactory.

Again, out of the many thousands of plants we grow, not one was lost during the last two seasons. A teaspoonful of our Mauure, mixed with six times the quantity of soil and a like quantity of soot, not only keeps them free and safe all the season against this pest, but adds double vigour to the plants, makes the blooms considerably larger and produced in greater quantity, and intensity of colour much increased. No one should ever fail to sprinkle some, and round every plant immediately after planting. It not only entirely keeps the pest away, but it makes the grass a lovely glaucous green. All would admire your Carnations, and everybody would be proud of their plants grown in pots. Should be used once a month. By strictly attending to this the flowers would be double in quantity and of a larger size.

Cwt., 80s.; 56 lbs., 42s. 6d.; 28 lbs., 22s. 6d.; 14 lbs., 12s. 6d.; 7 lbs., 7s.; per lb., 1s. 3d. Postage, 4d. extra.

CHRYSANTHEMUM NOVELTIES of 1903.

JAPANESE.

A McVINISH-Large and fine; deep crushed strawberry shade, slightly tinged 2s. 6d. amber.

AMORITA-Deep pink, silvery pink reverse; a nice refined flower, good constitution.

3s, 6d,

CHAS. SCHWARZ-Mahogany red; large and fine. 5s.

CHRYSANTHEMISTE CHOULET—Rich orange yellow and bronze, reverse of florets greenish yellow; good solid flowers. 3s. 6d.

COL. ROWELL—Very fine narrow petals, medium size well-formed flowers of a clear soft yellow; attractive. 3s. 6d.

COMMONWEALTH.

COMMONWEALTH-Pure white, slightly green in centre; long petals, somewhat

in the form of Edith Tabor: large and fine. 3s. 6d.

ETIENNE BONNEFOND Fine bold flowers, broad petals, incurving centre, onter florets falling gracefully; rich fawn colour in centre, outer petals of a more reddish shade; fine and distinct, an advance.

JOSEPHINE ROUX-Bright amaranth; long elegant petals, beautifully arranged;

large and fine, good.

LELIA FILKINS - Solf rose pink, silvery reverse; pretty. 2s. 6d. LOHENGRIN-Rich orange yellow and chestnat, mottled and marbled with yellow;

fine large flowers.

LT. COL. DRUCROISET-A splendid variety; deep rich yellow; very pretty. 5s. MAYNELL-A splendid rich crimson variety, golden reverse: large and fine. 3s. 6d. M. F. VUILLERMET-Rich chrome yellow, the older petals showing markings of a chestnut shade; narrow graceful florets, large. 3s. 6d.

M. MARTIGNIER-A splendid novelty: good bold flowers of a beautiful soft reddish

brick colour. 58.

MLLE. ABBE BERTRAND Soft manve; large and finc, a splendid novelty.

Second crown bud. 5s.

MLLE. E. CHABANNE-A charming variety, centre deep cream, and as petals

multiple and the second crown bud. 5s.

MLLE. E. CHABANNE-A charming variety, centre deep cream, and as petals

multiple and the second crown bud. 5s. expand, pure white, finishing off in the long graceful outer florets to a soft mauve; dwarf habit,

MLLE. MARTHE MOREL-Large solid flowers, long petals, forked extremities;

pure white, necasionally tinted bright flesh colour. 5s.

MME. HENRI DOUILLET-Very fine, broad petals; deep rose, lighter reverse; grand flowers.

MME. J. CHIFFLOT-Fine bold flowers, broad massive petals; creamy white;

MME. J. PERRAUD-Of immense size; creamy white; long petals and full flowers;

select.

MME. PAUL SAHUT (Iuc.)-Beautiful and refined, large, bold and solid flowers; white, slightly tinted; extra fine.

PRESIDENT VIGER-Rich amarenth; splendid long graceful flurets; good. 5s. PROVIDENCE-Very distinct, soft dove colour or flesh tinted chamois, softer reflex; a very pretty and charming colonr.

SOLEIL COUCHANT-A grand yellow variety, shaded deeper; large and fine;

splendid for exhibition. 5%.
SOUV. DE CALVAT PÉRE (Inc. Jap.)—White, tinted rose, tips of florets yellow

and green; broad petals; distinct. 5s.

TANCREDE BASTET-Dwarf sturdy habit; medium-sized flowers of an intense rich golden yellow, suffused coppery red. 3s. 6d.

GRAND LATE-FLOWERING DECORATIVE VARIETY,

GRATIANOPOLIS-Almost of the same type of flower as Lord Brooke, but far superior to that variety, and also W. H. Lincoln; splendid habit and good stiff stems. Cultivated in the usual way the finwers are of a deep bright yellow, slightly suffused bronze in outer florets; every lateral comes with a good long stem and useful sized flowers, and by removing all side blooms to top spray, a most beautiful bronze yellow incurved flower is produced, just the colour so much sought after at the present time, and of a size most useful for all floral decorations; an acquisition. Special quotations on application. Plants, Is. 6d. each; cuttings, 1s. each.

NEW EARLY-FLOWERING CHRYSANTHEMUMS, 1904.

Ruisers' descriptions. To be distributed in March, 1904 (plants only).

BLUSH BEAUTY—Blush, almost the exact colour of Mrs. J. R. Pitcher; long stiff stems, and a whole vase or bouquet of them are indeed beautiful. September. 2½ ft. 3s. 6d.

GOLDEN BEAUTY Large golden Pom; very free flowering; stiff habit. Flowers about the middle of September onwards. 2 ft. 2s. 6d.

MAGGIE BOYES-Rosy pink, shaded gold centre; very pretty; a splendid pot

plant. Flowers all through September. 1½ ft. 2s. 6d.

ORANGE—Orange terra-cotta, a charming colour; large flowers; long stiff stems.

orange; extremely pretty, smooth florets; whether for Early September.

pots or borders it is equally effective. 2 ft. 2s. 6d.

PEARLIE-Pearl-pink, one of the prettiest of all pinks; long, loosely formed sprays; effective. Early September. 2 ft. 2s. 6d.

PRIMROSE—One of the prettiest of large Poms; stiff stubborn stems; a great beauty. September and October. $1\frac{1}{2}$ ft. 2s, 6d. **REGGIE**—Cream; very bushy; if planted singly produces growth and flowers like a perfect globe. 2 ft. wide and high. September and October. 2s, 6d. **ROSALIND**—Deep blush-pink, shaded cream; large flat flower; free. Early

SEPTEMBER BELL Pearl-pink, shaded white and salmon; enormously free; most effective when left in sprays. September. 3 ft. 2s. 6d.

THE CHAMPION—Deep yellow; a splendid flower. This throws up strong suckers

from the bottom, and continues flowering a long time. 2 ft. 3s. 6d.

THE SPARKLER-Crimson-scarlet, a splendid border variety, of bright effect if not disbudded; masses of flowers during September. 2 ft. 3s.

WHITE BOY—More like a miniature Elaine; long stiff wiry stems of white flowers,

best for bunches. End of September. 3 ft. 2s. WHITE PET-A beautiful plant for pots or borders; a perfect gem. September. 15 ft. 3s.

One plant each of the above 14 varieties, 32s. 6d.; or two of each, £3.

LANGFORD DUNCAN-Crushed strawberry or deep rosy cerise; a sport from François Vuillermet; distinct from any other. 3s.

NEW EARLY-FLOWERING VARIETIES,

From various sources.

Plauts in March onwards, 1904.

BOULE DE NEIGE—Purest white; splendid large bold flowers, and very free; disbnd to one flower on a stem; stiff stems. End of September. 2 ft. 3s.

CHAMP DE NEIGE—Pure white; immensely free; one of the best for pots: good foliage; flowers come nearly all at once; good. 1½ ft. 3s.

ESPERANCE—White, greenish creamy centre; large flowers; very prolific. Middle of September. 2½ ft. 2s.

INNOCENCE—Pure white; beantiful flat flower, stiff erect stems; useful variety for white work. End of September. 2 ft. 2s. 6d.

JASON-Beautiful soft pure yellow; a perfect gain in the yellows. Middle of

September, 2½ ft. 3s.

LA PARISIENNE—White, cream centre, pure white when fully expanded; very free; valuable for borders or pots. September. 2 ft. 3s.

LE PACTOLE—Beautiful bronzy yellow; large noble flower; beautiful habit; strong grower: extra good in pots as well as planted out. September and early October. 2½ ft. 3s.

ROI DES BLANCS—The best white which begins flowering early in September, and whether dishydded or not is equally heaptiful and lovely. 2½ ft. 3s. 6d. Stock limited. and whether disbudded or not is equally beautiful and lovely. $2\frac{1}{2}$ ft. 3s. 6d. Stock limited. RUBIS—Reddish claret; a good pot plant for flowering the first week in October; a good doer in every way. $2\frac{1}{2}$ ft. 2s. 6d.

One plant of each of the above nine varieties in March, 22s.; or two sets, £2.

NOVELTIES · FROM VARIOUS SOURCES, 1904.

JAPANESE.

A. L. STEVENS-A very beautiful and distinct flower of full size and fine graceful form, with long drooping petals of medium width; colour richest golden-yellow; a splendid variety.

Plants in spring, 6s. each; two for 10s.

BEAUTY OF HANTS—Large deep flower, with rather narrow florets, which, however, are of great length; colonr light chestnnt, flushed with orange; good grower, reliable

and free.

6s, each; three for 15s.

BEAUTY OF LEIGH—A magnificent acquisition. Incurved Japanese of the ricbest golden-yellow, and undoubtedly one of the finest yellow varieties ever raised; strong robust grower, yet easy and reliable, every flower, no matter how grown, being perfectly double. Best results from plants stopped middle of May for first crowns. 7s. 6d each; three for 20s.

BEN COOMBE—A seedling from Mons. Chenon de Leche; beautiful crimson, flushed yellow, long spreading florets. Plants very dwarf and robust. Height not more than 2½ ft. Natural second grown. A very easy and reliable verifier. 7e fid.

Natural second crown. A very easy and reliable variety. 7s. 6d.

BRENDA—One of the gcms of the season; flowers large and very deep, petals drooping gracefully and twisting into points; colour deep chrome, heavily overlaid and suffused brouze-red; a most telling and distinct variety. Plants in spring, 7s. 6d. each; two for 13s. 6d.

(19)

CHARLES HOBBS-An immense flower of fine form; colour rich blood-red, petals broad and leathery; distinct from all others; fine habit. Plants in spring, 6s. each; two for 10s.

DORA STEVENS-Old rosy cerise, a glorious colour, and a 71/2-in. flower, and one of the easiest growers: has large heautiful foliage, and quite one of the best. First crown for the south, but further north should stop about 1st of May. 5 ft. 7s. 6d.

EDITH A. FULLER-A grand brouzy-red sport from General Hutton; has all the good qualities of its parent, the only difference being colour. Plants in spring, 6s. each; two

for 10s.

E. H. PARKER-A fine addition to the crimsons. This cannot be called a large variety, but is of good size, and will he a useful flower ou account of its heautiful hright crimson The petals reflex evenly. 6s. each; two for 10s.

EMILY MILEHAM—Priest white; a large beautiful flower with fairly broad drooping enring florets, which can only be compared to an enlarged Malle. Therese Rey of a few years ago. The habit is all that can be wished for, and the height about 4\frac{1}{2} ft.; full 7\frac{1}{4} in. flower.

First crown. 7s. 6d.

EVA TWINN—A lovely pink incurved Jap., the result of a cross between Mrs. E.

Hummell and Marquis V. Venosta, partaking of the form of the first named and colour of the latter;

habit dwarf. Stop middle of April for crown, 7s. 6d.

FAIRY WREATH (Shea)—A gigantic flower of graceful huild: petals of good substauce, medium in width, and 7 in. long; colour an exquisite combination of yellow and sulphur, shaded and lined soft rose. 6s. each; two for 10s.

HERBERT WINGFIELD -A flower of deep graceful build, in colour nuiquesulphur-yellow ground, heavily overlaid with rich copper, and suffused with a pretty tint of rose.

Plants in spring, 6s. each; two for 10s.

(HER GRACE—Beautiful creamy-white incurved Jap. of large size, florets broad, and of great substance; one of the most chaste varieties in cultivation; habit of plant dwarf and robust Crown. 7s. 6d.

H. H. CARTER—Very large deep spreading flower of a bright terra-cotta, with light golden reverse, the hlooms resembling a well-grown Le Grand Dragon in form, lower florets drooping in a most graceful manner; very strong grower. Crown. 7s. 6d.

HON. MRS. SEYMOUR—A fine companion to F. S. Vallis, which it resembles in

form and fluish, but in colour is a much deeper yellow, and the petals are a little wider; a superb

variety. Plants in spring, 6s, each; two for 10s.

J. H. DOYLE—Terra-cotta; a flower of the largest size, hut requires rather a long season of growth as second crowns must be secured. It needs no stopping in the south. There was not time to grow this to exhibition size after they reached us from Australia, where it was awarded the Gold Medal amongst 13 competitors for the hest novelty. It has a beautiful habit,

awarded the Gold Medal amongst is competitors for the nest noverty. It has a beautiful habit, and only grows 4 ft. high. 7s. 6d.

J. H. SILSBURY—Light brilliant crimson, golden reverse, very broad petals; good onlany bud. Ahout third week in August. F.C.C., N.C.S. 7s. 6d.

LADY CRANSTON—This is admitted by all who have seen it to he a grand acquisition. It is a sport from Mrs. Barkley, but the form, as well as the colour, is entirely handed. changed. It is a pure white, except just the apex or crown of flower, which is shaded with a tinge of vivid piok. The florets are very long and drooping, very hold, many heing 1 in. in width.

Plants, 10s. 6d. eoch.

MARY WEST-A flower in the form of Sir H. Kitchener, but much larger. It is of
MARY WEST-A flower in the form of Sir H. Kitchener, but much larger. It is of the same colour-yellow, shaded rich reddish bronze. A large massive flower of much excellence.

Will hecome very popular. Second crown, 7s. 6d.

MAUD DU CROS-An immense flower, nearly 10 in. across and 12 in. deep, shape most perfect and graceful; petals are of medium width, long, curling, and interlacing; colour a lovely shade of clear ennary-yellow, with lighter reverse. This glorious variety is from the same seed he d as Miss Mildred Ware, and is quite as easy to grow. Plants in spring, 7s. 6d. each; two for 13s 6d. F.C.C., N.C.S.; A.M., R.H.S.

MISS DOROTHY WEBSTER—Canory-yellow, heavily shaded towards base with bronzy carmine. The florets ore long and drooping; a large, full, and handsome flower of great excellence. Crown. 7s. 6d.

MAJOR POWELL COTTON-A grand variety, quite distinct from all others; the flowers are of immense size and perfect shape, heing both broad and deep, with well rounded shoulders; petals of medium width, evenly reflexing; colour canary-yellow, slightly suffused with bronze; very handsome. Plants in spring, 7s. 6d. each; two for 13s. 6d.

MERSTHAM RED-Reddish chestnut, with hronze reverse; a large flower, with broad florets, something the shape and make of Mrs. Geo. Mileham; full 8 in. flower. Does well in small pots. Second crown. 4 ft. 7s. 6d.

MERSTHAM YELLOW—This is a yellow similar to Mrs. T. W. Pockett, but more massive and a better door, and is at its best the end of October; full 7-in. flower. This will be the A1 for amateurs, for it is one of the easiest doers. Second or third crowu. 4 ft. 6s.

MISS A. BROWN—A very distinct and charming variety, quite new in colour, which is a preity blending of soft yellow-buff and cbocolate; broad petals, evenly reflexing; full deep flower of fine form; a novel and distinct variety. Plants in spring, 6s. each; two for 10s.

MISS PHYLLIS CHITTENDEN-This is a sport from the heantiful variety Miss Lily Mountford, and is the brightest Chrysanthemum in cultivation. The colour is made up of a combination of scarlet, bright lake, and richest yellow, thus making the most brilliant colour of all. Flowers of fine form. Plants in spring, 6s, each.

MISS WINNIE TERRY (Bryant)—A deep apricot-yellow, with long flat drooping

florets; this will make a flower somewhat smilar to General Hutton, but narrower florets; has a splendid foliage, and is a good doer. First crown. 4½ ft. 7s. 6d.

MRS. A. H. LEWIS—Very large Japanese, with broad florets standing well out, so

that it forms a flower of considerable breadth; will make a solid back row flower; colour rosy violet. Stop end of April for first crown. Easy and reliable. 7s. 6d. each; three for 20s.

MRS. BISCHOFFSHEIM—A distinct sport from Miss Lity Mountford; rich

orange-yellow overlaid with rosy pink, shading to bronze-apricot at base; a charming addition to

the class; plant more robust than parents. Plants, 6s.; two for 10s.

MRS. C. BECKETT—Purest white; a beautiful, well-formed Japanese, with long florets fluted at the tips; a bold heavy flower, distinct from all other whites; extra fine. Natural first crown without stopping. 7s. 6d. cach; three for 20s.

MRS. GUY PAGET—This is an enormous flower with florets fully 10 inches in

length, clear ivory-white. The raiser coasiders this the largest variety in cultivation. Natural first crowns; on second crowns the colour has a pinky tingc. 7s. 6d. each; three for 20s.

MRS. H. A. ALLEN—Deep rosy pink; one of the largest of any; in fact, it will be a strnggle with Madame Carnot for size; the florets are broader, it is over 9 inches either way, and

as good as it is big, and the habit is of the very best, with stiff flower stems. 4 ft. 7s. 6d.

MRS. HAMBLEDON—Very large incarved Japanese flower of distinct form; colour buff, tinted rose; wide petals, incurving and twisting, making a full globular flower. Plants in spring, 6s, each; two for 10s.

MRS. HARRY ELAND (Anemone)—Lilac, large cushion, and an easy doer, both as a bush plant or as an exhibition variety. 3s.

MRS. J. A. MILLER-Reddish terra-cotta; similar make to Matthew Smith, hnt with stont flower stems; a full 9-in. flower, and a good doer. Stop end of March for second crown. 5 ft. 7s. 6d.
MRS. J. C. JUDGE—A grand variety, giving flowers of immense size with broad

leathery petals, which droop in the same way as Mrs. Mileham; colour deep rich pink, very bright and attractive; splendid robust habit; every bad opens. Plauts in spring, 6s, each; two for 10s.

MRS. J. DUNN-This beautiful and distinct variety is considered to be the best white that has been introduced since Madame Carnot. It is almost an exact counterpart of F. S. Vallis in form, the only difference being that the petals are nearly two inches longer, thus making it more graceful than that variety. Every bud develops. Fine stiff robust labit. A great future is predicted for this variety. F.C.C., N.C.S.; A.M., R.H.S. Plants in spring, 7s. 6d. each; two for 13s. 6d.

MRS. J. HADAWAY-This charming variety is a sport from Miss Mildred Ware,

and is of the same immense size and fine form; colour a lovely shade of straw yellow, slightly titted light fawn, quite a new and distinct shade. Plants in spring, 7s. 6L each.

MRS. J. WHEELER BENNETT—A beautiful and thoroughly distinct variety of deep and graceful build; colour rich yellow, slightly margined and shaded bronzy red; petals medium in width, and drooping very evenly, making a large and handsome flower. Plants in spring, 0s. each; two for 10s.

MRS. S. SHAW—Bronze sport from Mrs. E. Thirkell, same in every way except

colour. 6s.

MRS. SHIMMINS (Anemone)—Apricot, shaded red; a beautiful stiff-stemmed Anemone, which will be equally useful for cutting in sprays as well as a large exhibition variety. 5s.

MRS. W. DUCKHAM—This may be described as a deep golden-yellow Nellie Pockett, with red lines on the edge of the florets; the growth also is almost identical with Nellie Pockett, and requires same treatment. 7s. 6d.

MRS. W. HIGGIE-An enormous pure white Jap. in way of Mrs. II. Weeks; florets long and enrling, building up a bloom of great size; this is one of the largest varieties, and will become one of the leading exhibition varieties; very easy doer. Stop early in March for second crown. 10s. 6d. (stock limited)

PHILLIPE DU CROS-A large and very striking variety which will be sare to make its way to the front; pctals narrow and of good substance, evenly reflexed; colour bright scarlet-red, tinted gold, soft yellow reverse. Plants in spring. 6s. each; two for 10s.

RENÉE—A very large variety, perfect in form, and of a colour almost impossible to describe, being a lovely bleuding of lilac, mauve, and pink; the petals are of medium width, well reflexing except just at the tips, which incurve slightly; an exquisite variety. Plants in spring. 6s. each; two for 10s.

RED BARKLAY (Bryant)-This is a reddish terra-cotta with nearly white reverse. Mr. Bryant describes this as a Red Barklay, and, although a seedling, it is almost an exact counterpart, except colour. 7s. 6d.

SOUV. DE MDME. BURON - Deep canary-yellow sport from Miss Elsie Fulton (Princess Alice de Monaco). This was awarded a F.C.C. with felicitations at the Pavis Horticultural Society in October, 1903, and we have been fortunate in securing the stock. This will be one of the grandest and most welcome sports ever obtained, and as it is shy in giving cuttings we cannot guarantee delivery before March 1st. 10s. 6d.

SUNRISE-Much in the way of Sensation, but the colour is brighter, flower deeper in form, and petals of better substance; one of the most promising. Crown bud. 6s.

THE PEARL-Pearly white, later blooms striped rosy lilac; a very full flower of large size; a variety of easy culture and suitable to beginners. Best for show purposes on natural second crown, but comes good on any bud. 6s. each: three for 15s.

VALERIE GREENHAM Bright pink; very large and long petals. First crown bud. 7s. 6d.

WINIFRED, COUNTESS OF ARRAN-An immense flower of perfect form and massive build, petals long, drooping, and twisting; colour a distinct shade of rosy pink. Plants in spring.

YELLOW PETIT AMIE - This is a yellow sport from Souvenir de Petit Amie. same in every other way. 5s.

NEW DECORATIVE AND MARKET VARIETIES.

ALLMAN'S YELLOW-This is one of the most free flowering Chrysanthemums ever raised; with light trusses of beautiful clear yellow flowers on stiff wiry footstalks; charming for small vases or any light decoration, especially dinner tables. Strongly recommended to all, florists and others requiring quantities of out flowers. Plants, 1s, each; cuttings, 8d.

WEEKS' CRIMSON—This variety will supply a long-felt want for a brilliant

crimson for late work; the plant is dwarf and very free flowering; the blooms are produced on very stiff footstalks, and can be had in flower from the middle of December till the end of January; has been greatly admired by all engaged in the trade who have seen it. Special quotations for large quantities. Plants end of March. 3s. 6d.

NEW INCURVED FROM VARIOUS SOURCES.

BUTTERCUP-A fine incurved with broad florets and good form; a telling and

desirable flower of a clear rich buttercup yellow without any shading. 6s, each; three for 15s. FALSTAFF-Coppery-rose, shaded crimson, with a bronze reverse. A true incurved of perfect form; an easy doer, the large globular flowers being produced on a plant of dwarf habit. Crown bnd. 6s.

INVICTA-A fine hold flower of perfect form; petals of good substance, well incurving, making a deep solid exhibition variety; colour pure white, shaded soft blush pink. Plants

in spring, 6s. each; two for 10s.

MISS A. DIGHTON—A beautiful broad-petalled deep cream, needs no dressing and was awarded a F.C.C. at the N.C.S., where it was exhibited by Mr. W. Iliggs; it also received a F.C.C. at the Scottish Horticultural Society at Edinburgh. This is from the same raiser as Nellie Southam. Stop early in April. Second crown. Gs.

MISS VIOLET—White, flushed with pink; a very pretty flower of the largest

size, has fairly broad florets which incurve naturally and require very little dressing. Stop early

in April and secure second crown, but not first crown by any means. 6s.

MRS BARNARD HANKEY—Mahogany bronze; the make and size of this is almost exactly the same as C. H. Curtis. This was awarded a F.C.C. by the N.C.S. to Mr. W. Higgs, where it was exhibited in his vases, also 36 distinct incurveds; it was also awarded a F.C.C. at Edinhurgh by the Scottish Horticultural Society. Second crown. 7s. 6d.

MRS. J. P. BRYCE—Certainly the largest and best pure white in this section; it is

large and of good form and of very easy culture, requiring but little dressing. Stop early in April.

Terminal hud only. 7s. 6d

F. C. BROCK-Deep brouze; although this was catalogued as a reflexed last season, it has proved a beautifully broad petalled incurved of the largest size. First crown, or stop early in March for second crown. Best grown four on a plant. Stock limited. 2s. 6d. each.

NEW EARLY FLOWERING JAPANESE CHRYSANTHEMUMS.

These are all splendid plunts for the garden, both from a decorative point of view and also for cut flower purposes. They are very varied in form and colour, and will be found very useful,

Plants in spring, 2s. 6d. each; 24s. per dozen,

ACHIEVEMENT-Like Masse, but larger.

AMBROSIA-Bright amber, fine habit; free and distinct,

BEACON-Rich crimson, shaded claret.

BEAUTY-Salmon, shaded red; large flowers, long pointed petals.

CAPTIVATION-Bright amaranth with silver reverse; large flowers produced in

CYRIL DAY-Crimson-red, shaded plum, golden reverse; rather tall, giving wonderful quantity of flowers.

CONSTANCY-Rich red, amber buff; fine shaped flowers; good dwarf habit.

DAINTY-Dwarf, compact habit; silvery pink.

DANDY-Bronze, sleaded crimson; small caetus shaped flowers; fine for cutting.

DWARF PERFECTION-Rich golden bronze, shaded red; compact habit, 12 to 18 ins. high.

DORA BLICK-Soft pink, tinted mauve; caetus shape.

ELENORE-Deep rose pink, tinted salmon; fine erect habit; very free.

FREEDOM-Rosy purple, caetns-like flowers produced in large clusters.

FIRELIGHT Crimson red, with golden reverse; splendid branching habit, medium sized flowers produced in large clusters.

FLAME-Bright crimson/with golden centre and buff reverse, remarkably free and good. FIREFLY-A bright shade of crimson scarlet, tinted gold; a very telling variety, cactus shape.

FIRE DRAGON-Vivid crimson with golden reverse; cactus-shaped flowers.

HYLDA BLICK-Bright rose, tinted red, primrose reverse; remarkably free; very graceful clusters, flowers set well apart, cactus shape.

HOWARD H. GRAME-Bright chestnut, shaded scarlet, golden centre and reverse; cactus-like flowers. One of the most effective varieties ever seen.

IDEAL .- A very pretty and distinct shade of amber, flamed red; good free limbit.

ILLUMINATOR-Bright yellow, flamed red; very large flowers; good habit.

JANIE BROWN-A very distinct shade of blackish purple: pretty eactus-like flowers; very frec.

MARVEL-A glorious variety; rich plum, shaded red; very distinct, Desgranges type. MADGE BLICK-Rich dark amaranth shaded; compact habit, Desgranges type.

NINA BLICK Bright scarlet-red, finishing off a rich golden-bronze. A remarkable

variety for bunching, and certainly one of the most distinct ever raised.

NINA WILLIAMS—Fine habit, in the style of Goucher's Crimson, but is much

brighter in colour and more lasting than that variety.

ONWARD—A glorious variety, bright gold at the tips, remainder of petals bright red.

Can best be described as a much improved Vice-President Hardy.

PRIDE OF HAYES-A variety of remarkably fine form and size, every flower a model

in shape; colour soft rose

PRIDE OF KESTON-Without exception one of the most perfect early Chrysanthemums ever raised. A distinct reddish rose with bright silver reverse; each petal is perfect without disbudding. Stiff cactus-like shape; good habit.

ROCKET-Greatly improved Crimson Masse, much more double; finishes well.

ROSEA—Bright rose, medium sized flowers; dwarf.
RAVENSBOURNE—Deep rose, silver reverse, fine graceful clusters, good stalks; very firm petals.

R. PEMBERTON-Clear amaranth; wouderfully upright, strong brauching habit, Best described as an amaranth coloured Mdme. Desgranges.

SUPREME—Canary yellow; a wonderfully erect growing variety, every flower produced on a good stalk; very effective.

TRIUMPH—A greatly improved Crimson Pride.

VIVIAN PRINCE - Deep yellow sport from Ivy Spark.
WHITE MASSE—This is a pure white sport from the original Mdme. Marie Masse, and of which we have secured the stock from Aberdeen. (Stock limited). 3s.

NEW EARLY FLOWERING SINGLE VARIETIES, 1904.

ECLIPSE—Very fine form; large. Colour rich amaranth. Plants in spring, 2s. 6d. VENUS—Bright lake with beautiful yellow disc; large. Plants in spring, 2s. 6d.

VULCAN—Rich crimson, fine habit, producing beautiful bunches; clear disc. Plants in spring, 2s. 6d.

COME AND SEE.

An enormous amount of evidence confirming our Special System, first adopted by us, of propagation from properly prepared stock—from pure, clean, healthy, open field-grown stools, free from fungi—has come to light and is still coming, proving more and more that ours are far the best, the key to success, and win more victories than perhaps all others put together. Please remember our forte and aim is stock of the best quality, carrying satisfaction all over the world.

THE PARENT OF THE MODERN RACE OF CHRYSANTHEMUMS.

CHRYSANTHEMUM INDICUM.—We are in possession of this most interesting species, and should any of our esteemed ensumers desire to have and grow it out of curiosity, and at the same time observe the immense difference (and also point it out to their friends) between the size of flowers and the varieties grown at the present time, we should be pleased to supply plants. 1s.

of flowers and the varieties grown at the present time, we should be pleased to supply plants. 1s.

For information we quote an extract taken from Gardening World, November 9th, 1901, p. 156:—

"The tiny C. indicum was first described in his "Species Plantarum" by Linnaus, and Sabine described it in 1821. The "Index Kewensis" states it as being a native of China and Japan, and the species, in some form or other, may be native to the more temperate parts of Eastern Asia. Seeds of the real wilding were gathered by Mr. Grant Birch, in Yangtze, China, during the year 1899. For the sake of comparison with the modern giants it is certainly interesting, as it demonstrates in no unmistakable manner the vast changes that have been effected in the wild original, first by the Chinese and Japanese, then by other workers in the Old and New World, and at the Autipodes."

NEW CHRYSANTHEMUMS OF 1902-3.

Raised, introduced, and highly recommended by H. CANNELL & SONS.

The Prices quoted are for Plants-Cuttings, Half-price.

JAPANESE.

- 1164. BLENHEIM (Brunning)—Producing enormous-sized flowers of an effective and pleasing shade of deep pink; dwarf and compact habit. Crown bud. 2s.
- 1165. DR. CHISHOLM ROSS (Kerslake)—A beautiful rich crimson-maroon shade, reverse of petals bright old gold; gives every indication of becoming a grand variety, especially for colonr. Crown bud. 2s.
- 1166. LADY MARCUS SAMUEL (Kerslake)—Quite a distinct and beautiful variety, and has every indication of becoming a grand exhibition variety, and also invaluable as a late-flowering kind; long graceful florets of a pleasing and attractive shade of flesh-pink, pretty shade of fawn in the centre; good habit. Early second crown. 3s.
- 1167. LORD HOPETOUN (Brunning)—Certainly the richest and finest bright crimson in commerce, free flowering, and constitution all that can be desired. Crown bud. 1s. 6d.
- 1168. MISS MURIEL TAIT (Cannell)—Beautiful bold flowers, broad petals, and of a good length; pure white centre of a creamy-green shade, adding much to its beauty and charm; a fine introduction. Second crown bud. 2s.
- 1169. MRS. ARTHUR TUCKETT (Brunning)—Au incurved Japanese of large dimensions; rich chestnut-erimson, reverse old gold; certainly a very fine variety. Crown had. 2s.
- 1170. MRS. GEO. FAIRBAIRN (Brunning) Dwarf and compact habit; fine handsome flowers, soft buff-yellow, reverse of petals lighter; long graceful florets, loosely arranged; a very effective and distinct variety. First crown bud. 1s. 6d.

NEW SINGLE FLOWERING CHRYSANTHEMUMS,

- 1171. AMBER QUEEN (Cannell)—Soft yellow-amber, with a slight tinge of chestnut suffused over the surface; half the length of petals are tubular, most regularly formed, and the remainder towards the tips of florets perfectly flat; a charming and most effective variety.
- 1172. MISS CISSY BRISCOE (Cannell)—Being a seedling from *Dorothy* is a sufficient guarantee in itself, and producing the same long narrow well-pointed cactus-like florets; the flowers are somewhat larger than its parent, and standing out much bolder, of a decided shade of blush, quite distinct from *Dorothy*; certainly a pretty novelty.
- 1173: MISS MOLLY BRISCOE (Cannell)—Hitherto we have not laid a really pure white cactus-shaped single Chrysanthemum, therefore this will be doubly valuable and forming a most agreeable companion to the above named in all table decorations, for which it is most admirably adapted; flowers are of the purest white and of the most æsthetic form.
- 1174. MRS. A. BRISCOE (Cannell)—One of the most artistic and refined flowers almongst the single Chrysanthemums of the Japanese form; large and well defined blossoms, double row of florets, long and narrow, of a soft lilae pink shade, lighter towards base of petals; spleudid dwarf habit, and when in perfection, presents a picture of floral beauty not readily forgotten. Owing to the long keeping qualities of the flowers this should prove an indispensable variety for the decoration of conservatory or corridors.
- 1175. PARIS DAISY (Cannell)—A seedling from Ladysmith, is equally as free flowering, and of the purest white, bright golden centre, and produced in the greatest profusion; foliage very small and fern-like; makes a most effective specimen plant, and also for the decoration of the conservatory.
- 1176. RINGDOVE (Cannell)—Very dwarf and compact in habit; medium sized, well formed flowers, narrow petals, half of which is of a bright pink, the other half towards the centre being pure white and most regular in formation; very effective and pretty.
- 1177. THANKSGIVING (Cannell)—Large graceful flowers that will be found indispensable for the decoration of vases and exhibition purposes, more especially when cut in sprays; of a very pleasing shade of flesh-pink, long narrow petals, spatulate at the tips of florets, yellow and green centre; distinct.

1s. each; the set of 7 for 6s.

NEW DECORATIVE VARIETIES.

- 1178. COVENT GARDEN WHITE (Cannell)—A scedling from Mine, Marie Masse; equally as free flowering, and when cut in sprays is most beautiful and effective.
- 1179. COVENT GARDEN YELLOW (Cannell)—Pure golden yellow, bright and distinct, free flowering; will prove a most useful variety for cutting purposes.
- 1180. PEACH (Cannell)—Much admired, and it was suggested by a lady admirer that it should be called *Peach*, owing to its beautiful combination of colouring; and reminding one of the soft yellow and rosy shade seen in the fruit of the Peach; medium size flowers, freely produced; dwarf and compact habit; quite distinct.
- 1181. RED ETTIE MITCHELL (Cannell)—A seedling from the well-known Ettie Mitchell, and resembles that variety in every respect excepting the colour, which is of a reddish chestnut shade and occasionally marked deeper; for general decorative purposes this should prove of value and usefulness.

1s. each; the set of 4 for 3s. 6d.

An enormous amount of evidence confirming our Special System, first adopted by us, of propagation from properly prepared stock—from pure, clean, healthy, open field grown stools, free from fungi—has come to light and is still coming, proving more and more that ours are far the best, the key to success, and win more victories than perhaps all others put together. Please remember our forte and aim is stock of the best quality, earrying satisfaction all over the world.

SULPHATE OF AMMONIA.

This will be found useful in the cultivation of the Chrysanthemum, more especially to swell out the buds, and give vigour to the whole plant.

6d. per lb.; 7 lbs., 2s. 6d.; 14 lbs., 3s. 6d.; 28 lbs., 6s. Special prices for larger quantities.

3s. Od. "

Extraot from the "British Gardening."

"It is not generally known that Mr. H. Cannell, of Swanley, proposed that the 'National Chrysanthemum Society' should assume that title. The Society, as reported a week or two ago in this journal, was originally a local organization, but Mr. Cannell, with his characteristic farsightedness, saw a future before it if it would but adopt the title of the National Chrysanthemum Society. The then president sconted the idea and vigoronsly opposed it. Eventnally, however, it was adopted, with the results already known—namely, that it has grown into a powerful institution with a very wide reputation."

H. Cannell, Senr., would be glad to propose those sending 5s. as Members of the above Society.

H. Cannell & Sons have the largest collection of the oldest and newest varieties in strong plants or cuttings always ready, and warranted true to name. Also every appliance for exhibiting them.

THE SPRINGTHORPE CUP AND TUBE.

Awarded Highest Recommendations by the R.H.S. and N.C.S. of any Tubes yet exhibited.

PROVISIONALLY PROTECTED No. 7141, 1894.

For Exhibiting Chrysanthemums and other Flowers.

The Cup has one Brass Side Spring which enables the exhibitor to adjust his flower with speed and accuracy in the tube or Water Container. It also has a very simple arrangement to prevent the necessity of plugging. X The Tube or Water Container has also one Brass Side Spring which passes through a Flange fixed to the Showboard from the under side.

"By using these Tubes the exhibitor can raise his flowers seven inches from the hoard, with instant

All lovers and growers of Dahlias should become members of The National Dahlia Society, and thus help to extend its influence and usefulness. For tull particulars and Schedules, apply to Mr. P. W. Tulloch, Sterndale, New Church Road, Hove, Sussex.

E have been awarded more Gold Medals than any other firm for 30 years. Although we do not grow for competition, we have exhibited the largest and most complete collections, many of the finest flowers, and made the greatest display.

It should be distinctly understood that we grow above 1,000 plants of the Show and Fancy class alone to the greatest perfection; in fact, they form quite a grand feature in our Nursery,

and the following list is unquestionably most complete.

When these are well grown they are one of the nohicst and most beautifully made flowers in cultivation, but to grow them well they must have an anxious and industrious master, for their wants are continual from June to September. They require a good deep soil, well trenched, and full of manure. Obtain, about the end of April, wiry small-stemmed plants, shift them at once into 6-inch pots, keep them in a frame with the lights only kept on at night; plant them out when the first warm nights in June arrive, well stake them as they grow, and point them out when the first warm nights in Julie arrive, wen stake ment as they grow, and cover the ground with four inches of stable manure, watering them overhead every day, or oftener if the weather he very dry, and thinning the lateral shoots ont in the case of medium growers, but those with large flowers less, supplying the plants when making their flower hads with a soaking of liquid manure, besides washing them overhead every night to keep thrip from the flowers. The above directions are for show purposes, and the following varieties are most constant, finest for exhibition, and also make a grand display in shruhbery borders where allowed to grow as they like.

For ten successive years we were awarded by the Royal Horticultural Society, South Kensington

Gold and Silver Gilt Medals for the best and most complete collections.

BEST SHOW VARIETIES.

Spring Prices, 5s. per dozen, except those priced; our Selection, 4s. per dozen, Pot Roots in Autumn to Spring will be charged at one-third higher prices.

ILL Flowers with ground colours lighter than that of the tips are show kinds, and are included with the self-colours in this class.

Spring prices, 5s. per dozen, except those priced; H. C. & Sons' selection, 4s. per dozen.

Pot roots, 5s. to 18s. per dozen.

We are the Headquarters for the finest Roots.

DAHLIAS (SPECIES).

380. DAHLIA IMPERIALIS—It requires to be grown in a large pot or tub all the summer, and treated like the others until about October, when it ought to be removed into a large conservatory, and when in perfection it will attain the height of 10 to 14 ft., and produce an abundance of single papery-looking kind of flowers of a rosy white, and when in full bloom it has an unusually grand appearance. 2s.

381. ARGENTEIS FOL. MARGINATA - Silver-margined foliage, with rosy-purple

flowers; ornamental. 9d.

SINGLE DAHLIAS.

OR show purposes the flowers must be medium size, with broad rounded petals, so that they form a perfectly circular flower, with small disc; and these, when individually wired and made to stand out in a symmetrical bunch, present a grand sensational appearance when ranged in a Rose Box with moss.

SINGLE CACTUS-SHAPED DAHLIAS.

Special favourites with ladies, because of their remarkably graceful appearance. They have none of the formality and stiffness so characteristic of all the other sections.

- 382. ALICE LEE-Pink, shading to white.
 383. ALTHEA-Glowing crimson.
 384. ARGYLE-Rich deep crimson.
 385. BRUCE-Pale yellow.
- 387. EARL OF RAVENSWOOD—Old gold.
- 388. GUY MANNERING—Creamy white and sulphur.

389. ISABELLA WARDOUR—Bright red.

- 890. IVANHOE Bright rose, crimson centre.
 - 392. MARGUERITE—White; good. MARMION—Crimson scarlet.
 - 393. MEG MERRILEES—Clear yellow.
 394. NOVAR Crimson, purple, and
- magenta.
 395. QUEEN MARY—Pure white.
 - 396. ROB ROY—Purple and violet.

6d. each.

Other varieties supplied.

TOM THUMB DAHLIAS.

405. LILLIPUT-Light scarlet and orange. 397. BANTAM-Scarlet. LITTLE NELL-Orange. 398. BOOTLES-Rich velvety rcd. 406. CANARY-Deep yellow. MIDNIGHT-Velvety marcon. 400. 407. FAIRY-White and pale mauve. MISS GRACE-Light orange. 401. 408. PEARL-Deep mauve self.
TOM TIT-Clear orange scarlet. GEM-Bright yellow. 402. 409. 403. GOLDEN FAIRY - Rich golden 410. 411. VENUS-Rich crimson and maroon. vellow.

404. HOOP-LA—Rich velvety maroon.

All those not priced 6d. each.

SINGLE DAHLIAS.

If these are well selected and each reflexed, neatly wired and arranged in nice well-faced bnnches, and placed in zinc tubes, eight in a Rose box, a few stands produce a gorgeous effect at an exhibition, but great care is necessary in transit. Seed from all the best kinds, 3d. per pkt.

All the best oldest and newest varieties kept in stock, 6d. to 1s. each. Our selection, 3s. per doz.

NEW CACTUS DAHLIAS OF 1903.

INTRODUCED AND HIGHLY RECOMMENDED BY H. CANNELL & Sons.

436. MRS. H. WISE—A beautiful narrow petalled and pointed flower of refined true Cactus shape; rosy crimson; large fine flowers on good stiff stems; beautiful dwarf habit; free flowering. 437. MRS. J. MACE—The best and finest shaped blush-pink Cactus Dahlia; beautiful pleasing tint; dwarf habit. 1s. 6d. each.

NEW DECORATIVE DAHLIA.

438. BEAUTY OF KENT—The tips are of the purest white, and the crimson-red of quite a distinct colour; habit dwarf and an abundant bloomer. We are of the opinion that all cultivators of this novelty will pronounce it as a gem of the garden. A splendid autnmn-flowering variety. 1s. each.

THE COLLARET DAHLIA, A NEW FORM.

DAHLIA, THE COLLARET—We have much pleasure in offering seeds of the forerunner of quite a new race of Dahlias, and absolntely distinct from any hitherto in enltivation. This class possesses round the ordinary yellow disc a series of stalked appendices of a collaret form, and producing a great ornamental effect, and the engraving gives a good idea of its nature. The colours are somewhat limited at present, but in the course of another season or so the variation of tints will be very much increased, and the formation of the remarkable collaret growth more accentuated.

439. DAHLIA, THE COL-LARET, PRESIDENT VIGER— Large circular flowers on stiff footstalks of a reddish carmine colour, with a smaller collar of purc white florets; very distinct and effective. 9d.

440. DAHLIA, THE COL-LARET, JOSEPH GOUJON— Producing flowers a trifle larger than the above of a bright reddish scarlet, the collar florets being yellow, slightly marked red. Ed.

DAHLIA, THE COLLARET, PRESIDENT VIGER.

NEW COLLARET DAHLIAS, 1903.

- 441. ETENDARD DE LYON—Bright velvety scarlet, collarct in bold relief, yellow at the base, white at the points, sometimes striped with red; vigorous habit, of medium height, flowers well above the folisge; free flowering. 2s. 6d.
- 442. GALLIA—Very round flower; bright rose suffused and striped scarlet, passing to sulphur yellow, creamy white collaret; well developed. The combination is very pretty, and the prominence of the collar gives to the flower a very novel and attractive appearance; vigorons habit; a decided novelty. 2s. 6d.

THE CLIMBING DAHLIA.

443. HIDALGOA WERCKLEI-The Gardener says: "It is an evergreen perennial, and its branches, which are soft and succellent, will attain a height of 20 ft., climbing by means of twisted petioles. The ray florets are bright scarlet, and much more in evidence than the disc florets, which are yellow, and arranged in a bush-like tuft. Will be found nseful as a elimber for a cool greenhouse and also on walls outdoors." Plants, 1s. 6d.

ANOTHER NEW TYPE OF DAHLIA,

DAHLIA, DOUBLE GLORIA, ANEMONE-FORMED—The flowers of these offer such a variety of shapes that every true Dahlia friend is agreeably surprised and delighted; the thoroughly fine double flowers are indeed on every plant different in shape as well as in size and colour; in fact it is a difficult matter to describe all the different forms of this beautiful Dahlia. From seed, as has been noticed for six years, about 80 per cent, are true, and the culture is as with the other classes a very easy one. If sown in March-April they will flower in September. 1s. per

We have a collection of 24 of the hest and most distinct named varieties, selected from a great number of seedlings. These will undoubtedly become of considerable value and use for cut flowers. and other similar purposes, formation and colouring of flowers being all that one can desire, the foliage of many of them being highly ornamental, and they produce an enormous quantity of flowers. 9d. each.

We have been Awarded a Gold, and many Silver-Gilt and Silver Medals for our Cactus Dahlias. Seed saved from finest varieties only, is. per pkt.

NEW CACTUS DAHLIAS OF 1903.

* Have been awarded Certificates of Merit,

DELPHI'NIUMS.

DOUBLE AND SINGLE-FLOWERED.

HIS family is perhaps the noblest of all the hardy plants. Few have seen the named kinds, those who have not cannot form the slightest conception of their splendonr. We have often been amazed at the intensity of their colours, and spikes of flowers averaging from one to two feet long. They should he in every garden, for if once planted heantiful flowers of all shades of blne may be cut four months in the year.

NEW CHOICE HARDY HYBRID DELPHINIUMS.

FUCH'SIAS.

BEST SINGLE VARIETIES. THE

T is surprising what beautiful kinds, when well grown, there are in this list, which embraces all the best in cultivation.

For other New Varieties, see front of "Guide."

NEW FUCHSIAS.

["ARTUS-Very short and broad rosy scarlet sepals, well reflexed; immense spreading double white corolla of good shape, veined scarlet at the base.

CADMUS—Crimson-scarlet sepals, beautifully recurved; pure white single corolla, veined scarlet at base; flower of fine shape, the petals regularly three lobed.

DELVINO-Broad and well reflexed carmine crimson sepals, irregular double rose corolla,

suffused and veined with carmine; vory free flowering.

ELYSIAN—Broad crimson sepals, well reflexed; long single rose-coloured corolla of good shape, suffused and feathered with deep earmine.

ENID-Dark crimson tube and shell-shaped sepals covering a very double extended plum-purple corolla. with scarlet flakings and markings.

FABIAN-Coral-red tube and very broad reflexed sepals; immense double corolla, soft manve

pink, faintly freekled with white, suffused magenta at base.

GLENROY—Very broad rosy carmine sepals well recurved over short tube; immense irregular double corolla of great length, slaty blue heavily suffused rose.

HAMLET-Short coral-red tube and sepals, the latter fully recurved; very double violet-blue

corolla, freely striped with rosy red; very distinct. IXION—An immense flower with massive well reflexed sepals, and an irregular semi-double wide spreading corolla of a bright rosy purple, the base of petals lighter.

JULIUS—Long well-reflexed bright red sepals; large single corolla of a distinct and pleasing

shade of rosy lavender.

MURIEL—Long bright crimson-red tube and sepals, the latter nicely recurved; single corolla with flattish carmine-rose petals, darkly veined at base, the margins suffused with bright rosy purple.

NAUTILUS-A splendid double Fuchsia of perfect form, the sepals soft carmine-rose, broad and beautifully recurved; corolla very donble and of good shape, French white suffused and veined at base with rose.

1s. each.

Fuchsias with red tubes and sepals and dark coloured corollas.

106. DELIGHT.

The twelve best varieties for exhibition for 9s.

GIGANTEA FUCHSIAS. (WESTLEY.)

All lovers of these speak of *Phenomenal* as the King of the Donbles, by its strong growth, fine-habit, and the gigantic flowers it produces, claiming everyone's admiration on account of the rich colouring of the corolla. It has heen onr good fortune to come into possession of two sports from this wonderful variety, viz., *Rose Phenomenal* and *White Phenomenal*, the corolla of the former, instead of as in the original, heing of a hright bluish-manve, comes a light rose colour-of quite a new tint; the second and last sport has pure white corollas, and in hoth cases they retain the same growth, habit, foliage, and also same freeness in flowering as the parent.

WHITE PHENOMENAL.

ROSE PHENOMENAL.

THE BEST DOUBLE VARIETIES.

Double white corollas and scarlet tubes and sepals.

MUMDI ULI.

HE Gladiolus constitutes one of the finest features of the Flower Garden during the summer and autumn months for diversity of colour and general effect, either in masses or planted in clumps for border decoration, backed by evergreens. It is also of easy culture and will and autumn months for diversity of colour and general effect, either in masses or planted in clumps for border decoration, backed by evergreens. It is also of easy culture, and will thrive in any ordinary deeply dug garden soil, with a liberal supply of manure. Early and deep planting is the sccret of success.

FOR EXHIBITION PURPOSES.—Select an open situation. In Ootober, trench the soil 2 feet deep; use a itheral supply of old hot hed or cow.manure, well mixed with the soil. Commence planting the first week in March, and at intervals. Plant in hede of three rows, placing the buils one foot apart and 4 inchee deep. Stake as soou as the plants are sufficiently high, and mulch over the ground with half-rotted manure. As soon as the plants show bloom, etimulante are beneficial for the full development of the flowers; for this purpose, use our Real Manuro once a week

FOR FLOWER GARDEN DECORATION.—Plant during March and April in bordere, in clumps of three or five, at intervale of 4 or 6 feet, between Standard Rosee, Dahline, &o., or in missee in the centre of large beds, or between Rhoddendrone, Azaleas, &c.

The hulbs should be taken up as soon as the leaves begin to fade; gradually dry them, clean them, put them into a paper bag, and place out of the reach of the frost.

d

WE CAN SUPPLY CHOICE NAMED COLLECTIONS OF GANDAVENSIS. per doz. 12 3 Collection No. 6 per doz. 0 Collection No. 4 21 ,, 7 ,, 27 2.2 Collection No. 7 is equal to those shown 0 6 ,, at Exhibitions. 0 9 22 UNBLOOMED SEEDLINGS, saved from our choicest named sorts 3 0 per doz.; 22 6 per 100 0 BLOOMED SEEDLINGS, 1st choice 4 30 3 3 MIXED FOR BORDERS4 0

Seeds, 1s. per packet.

GLOXI'NIAS.

Ours is the finest and choicest collection in England.

Nour opinion these rank second to no other flowers for noble form and heauty. Our three 100-feet houses in June, July, and August are really a magnificent sight, and many have said "Well, this is alone worth our journey." Pot them into any ordinary good soil, and if kept close in a temperature of 55° to 70°, well shaded from all suulight, and treated in the same way as warm greenhouse plants—free from cold draughts, and give liquid manure once a week—the

result will be a grand sight. A 2s. 6d. packet of our seed sown in January to May will give a splendid display.

Selections left to H. C. & Sons will be supplied at 12s., 15s., 18s., 24s., and 30s. per doz.; choice new varieties, 42s. doz.; unbloomed Seedlings, 5s. and 9s. per doz.

Our Exhibit at the great Temple Show was acknowledged to be the finest ever seen in London.

21. SOFFIE BUSSLER-A rich heantiful variety; dwarf and frec. 9d.

6d. each; 5s. per dozen.

HELIA'NTHEMUMS (SUN ROSES)

No Plants are better adapted for dry rockeries or sunny banks than these; they are Evergreens, and always have a charming and attractive appearance; quite hardy, and like shrubs. when established, live for many years without trouble. In 12 varieties and colours. 6d. each; 4s. per dozen.

Splendid seedlings of various colonrs, that will bloom during the season, 6s. and 9s. per dozen. Named varieties, our selection, 24s. to 36s. per dozen.

HE value of this large and important group of hardy plants is now more generally recognised, and if their accommodating disposition with regard to soil and situation, the rich and varied colours of their flowers, rivalling in this respect the choicest of Orchids, their value as cutflowers for decoration and the extended season of their blooming, viz., from Christmas to August, &c., be taken into consideration, it must be admitted that no collection of hardy plants can have any claim to he considered a representative one which does not include a judicious selection of these plants. 4s, to 10s, per dozen.

For full description of all sections of this family, see our Autumn

and Bulb Catalogue.

HIS family is exceedingly pretty and of easy cultivation, only requiring the ordinary care of a Pelargonium; they bloom most abundantly eight months in the year; a fine substitute for the Verhena.

CHELSEA GEM -- Producing the richest and brightest coloured flowers yet seen in this family, rich crimson and amber; very fine.

1. DIADEME-Rose, centre yellow,

HARRISON'S MUSK-A grand variety; a great improvement on the old variety; delightfully fragrant. 6d. each; 5s. per doz.

MUSK—The old variety. 3d. each; 2s. 6d. per doz.

HO does not like a Pansy? No one! It comes so quickly after the dull, dreary winter, and its colour and markings are so beautiful that everyone avaloine (t. I. de like) and its colour and markings are so beautiful, that everyone exclaims, "I do like a Heartsease!" As to their culture, give them a good deep rich soil and open situation, and they will grow and thrive anywhere, and beyond replanting, will bloom eight months without attention. If the splendid colours and roundness of these could be seen, they would be grown in every garden.

6d. each; 4s. per doz. (in 60's).

SELECT LIST OF DOUBLE-FLOWERING PELARGONIUMS

(Commonly known as Geraniums).

When ordering Pelargoniums kindly state definitely which class or classes are required.

The Prices attached are for Plants in 60's, our selection, from all Classes of Doubles, 7s. doz.; do. in 5-inch pots, blooming plants, 12s. and 15s. per doz.

Cuttings, half the price of Plants.

ME various raisers have improved this class wonderfully the last few years—in fact, the strong growth is now superseded by splendid dwarf varieties, and freeness of flower equal to the single; these, with liheral cultivation, are sure to take a far more prominent place for decorations than hitherto, and for cut flowers we have nothing to equal them. The following in their respective colours are the best in cultivation.

SEMI-DOUBLE GIGANTEA SECTION.

SEVERAL splendid new and distinct varieties have been added this season to this attractive section; we have placed them together for hetter reference. They all produce enormous semi-double flowers, in the way of the well-known Single Gigantea, Aurore Boreale.

AMI J. EXBRAYAT—Very bright scarlet; large trusses and enormous individual flowers;

robust and spreading habit. 2s.

74. COMTE HENRI DE BRETTES-Gigantic trusses; soft rose-pink; splendid habit, large semi-double flowers; an acquisition. 2s.

75. FLAMME POITEVINE—Short and robust growth; very free and effective; bright reddish

scarlet; a superb novelty. 2s.

- 76. MME. MEYRIER -A distinct and pleasing variety; white, with a beautiful shading of piuk in centre; free flowering, good habit. 2s.
- 77. MME. A. MÉNARD-Good hardy habit, dwarf; trusses large and fine; deep rose-pink, white in upper petals. 2s.
- 78. GLOIRE DE MONTCHAT-Bright scarlet; flowers and trusses large; good robust habit. 28.
- 79. COMTESSE YVONNE DE CHABANS-Soft ruby-red; large flowers and fine trusses. 2s.
- 80. MME. FOURNIER SARLOVEZE-Blush pink, of a most lovely shade; enormous sized trusses; robust but branching habit. Quite a new shade in this section. 1s. 6d. 81. GRENADE POITEVINE—Of a light scarlet colour pips of large dimensions; dwarf
- habit. 1s. 6d.
 - M. RABERE—Soft rose pink; gigantic trusses; good habit. 1s. 6d.
 M. BEYERLE—Of a soft rosy lake; very large trusses; free. 1s. 82.
- 84. FLAMBOYANT—Very rich crimson scarlet; occasional petals have decidedly notched edges somewhat resembling Fire Dragon, only of much larger dimensions. 9d.
- 85. GUITARE-Rich salmon, shading off to a white margin; fine robust growth; flowers and trusses immense. 1s.
- 86. CAPT. FLAYELLE-Reddish crimson; flowers of enormous size; a distinct acquisition to
- 87. DR. CABANES-Purple-pink of a pleasing shade; vigorous grower, but free flowering. 9d. LE COLOSSE-Clear red, gigantic flowers and trusses, fine; an acquisition to this
- section. 1s. JEAN VIAND-Enormous semi-donble flowers, soft rose-pink; dwarf, bushy habit. 1s.
- 90. COL. BARRÉ-Magenta, a new colour in this section; very large semi-double flowers; dwarf habit. 1s.
 - 91. MME. LANDRY-Deep salmon; enormous trusses; vigorous habit; very bold. 9d.

92. THOS. MEEHAN-Of a light rosy lake shade; enormous sized semi-double flowers; trusses very large. 9d.,
93. COUSIN BÉLÉ—Pips very fine, colour deep salmon, shading off to a pure white margin;

effective. 9d.

94. KING OF DENMARK-Producing its trusses just above the foliage on very strong foot-

stalks; large semi-double pips of clear salmon. 9d.

95. ETERANTHE—Semi-double enormons flowers and trusses; fine bold variety.

96. GUSTAV EMICH—Producing gigantic semi-double flowers; rich clear scarlet; a gem for winter flowering; dwarf habit. 9d.

97. M. ALPHONSE RICARD—Rosy scarlet; immense sized flowers; free blooming; good habit. 98. M. BRUANT—Clear scarlet, semi-double, enormous sized trusses; for pot-work or ent

flowers one of the most useful.

99. M. D. REYDELLET-Distinct shade of soft cerise-scarlet; semi-double.

100. MME. CHAROTTE -A splendid acquisition; good dwarf spreading habit, producing enormous sized trasses, 6 to 8 inches across, of a mottled salmon shade; one of the most attractive in this class. 9d.

101. VILLE DE POITIERS -Light clear scarlet, scmi-double, enormous pips and trusses; a

splendid pot plant.

SCARLET AND ORANGE-SCARLET.

102. M. ALF. ERCKEMER- Beautiful soft orange slade, flowers large and fine; good habit. 2s.

LAVE-The finest variety producing brilliant orange-scarlet flowers; free bloomer;

a good constitution. 1s. 6d. 104. MAURICE MONTÉGUT — Deep scarlet; large flowers and trusses; free and distinct. 1s.

105. CRESCENDO - Of a light orange-

scarlet shade. 1s.

106. GOLDEN GLORY-Flowers are very large and of beautiful form; the nearest approach to an orange shade; an advance.

107. GOLDEN GATE-Another addition to the much admired and sought after section of orange-scarlet shaded varieties; extra

quality. 1s.
108. RASPAIL IMPROVED — The most valuable Double Zonal in existence. Raspail has been for many years almost the only one grown for the market. This is a sport from it, and it is remarkable it should retain its characteristics exactly in every respect, excepting size of pips and trusses; these are huge and monstrous. Colour deep scarlet; for house and general decoration it is a beauty, and will certainly replace its parent. 9d. each, 6s. doz. 109. TURTLE'S SURPRISE (Sport from

F. V. Raapail).—Resembling West Brighton Gem in the variegation of its stems; scarlet, like its parent; habit dwarf and spreading; exceedingly frec. 9d. each.

110. GOLDEN RAIN-An advance in this section, beautiful well-formed flowers of very large size; clear orange-scarlet. 9d.

111. CALIFORNIE - Large semi-double

flowers of bright orange; very striking. 9d.
113. LUDWIG FERCHL—Rich scarlet,

large; a fine variety.

114. F. V. RASPAIL—Deep scarlet, large pips, good form; compact habit; one of the best.

DOUBLE NEW LIFE-The flowers. are doublo with the centre florets white; for cut flowers all the winter will be found very

useful. 6d.

116. . FIRE DRAGON (The Cactus-flowcred Zonal) - Colours of flowers and habit of growth almost identical with the well-known F. P. Raspail, from which it is a sport; of great use for sprays, button holes, and cut flower purposes. 1s.

All those not priced 6d. each (in 60's).

CERISE-SCARLET.

117. MME. HALIMBOURG - Soft rosecerise suffused occasionally with clear salmon; beautifully shaped flowers; very effective and distinct; good robust habit. 1s. 6d.

118. TRANSVAAL—A beautifully soft and

pleasing tiut of this lovely colour; fine semidouble flowers and enormous trusses. 1s.

119. ANTOINE CROZY - Of a soft reddish cerise; very attractive, and a fine addition to this section. 1s.

219. FRAICHEUR — Identical with the preceding variety except margin, which is a deep pink; vigorous habit; very fine. 1s.

CANNELLS' STANDARD-TRAINED SINGLE ZONAL PELARGONIUMS

OR several years past these have been a special feature in our nursery, and have now a fine and varied selection of colours. We know of no other plant to equal them for producing such a brilliant effect throughout the winter months, their value for decorative purposes being unsurpassed. They seem peculiarly well adapted for this form of growth, and it is surprising the quantity of flowers they produce, and the length of time they continue in good conditiou. Amongst the many advantages they possess may be mentioned that, owing to their height, and being nearer to the glass and light, which materially aids to their perfect development and well heing, they allow of other plants being cultivated underneuth and around them, thus utilising the space which would otherwise be wasted. For the decoration of the conservatory, corridors, and other similar positions, Standard-trained Zonal Pelargoninus particularly commend themselves. It will be found advantageous about the latter part of May, or beginning of June, to plant them outdoors. They should be provided with a strong bamboo caue, and seenrely tied, knocking them out of the pots and placing them in the borders and centre of beds, and treating and using them in the same way as Standard Roses—in fact, for a continuity of flowers during the whole season they are far preferable to Standard Roses. Needless to say an occasional watering of liquid manure would materially add to their vigour and floral effects. On the approach of the late antumn they should be dug up, re-potted in suitable slze pots, if necessary trim the heads into good shape, then remove them to greenhouse for the winter season, where they will again do good service and delight all beholders. Our collection is always much admired during the season.

In various colours, 2\frac{1}{2} ft. to 3\frac{1}{2} ft., clear stems, 3s. 6d. to 7s. 6d. each.

NOTICE.

The prices attached are for Plants in 60's, our selection, for all classes of Singles 8s. doz.; ditto, large Plants in 5-inch pots, 15s. and 18s. per doz. Many of them can be supplied in 6 and 8-inch pots, 2s. 6d. to 5s. each. Cuttings half the price of Plants.

For Novelties in Singles, see front of Guide.

When ordering Pelargoniums please state definitely which class or classes are required.

We should be pleased to hear from any Amateurs or Gardeners having raised new and improved varieties of Zonal and other Pelargoniums, with a view to acquiring the entire stock; and should also esteem it a favour, and would accept with much pleasure from our esteemed Patrons Photographs of Flowers, Views in Gardens or Conservatories, for the purposes of reproduction in our Catalogues.

THE BEST

ROUND-FLOWERING SINGLE ZONAL PELARGONIUMS (Commonly known as Geraniums).

SPECIALLY ADAPTED FOR POT CULTURE.

PHE Zonal Pelargonium is becoming more and more popular every day, vide reports in and around London of the stands of magnificent blooms that we have shown throughout the year, the autumn and winter in particular. Several 100-feet houses are filled with Pelargoniums always in dower, and many are so grand in the winter that they are unrecognisable even by the raiser; in fact, no other dower-not even the Rose-can for a moment he compared with our stand of trusses, many of the pips measuring 2 to 3 inches over, and as round as the engraving, and in some instances better. This may appear incredible, but whoever questions this are respectfully invited to Swanley, no matter the season. To keep plants in good blooming condition throughout the year, all that is necessary is to keep two or three sets potted, say in March, July, and September, in good rich soil, with a plentiful supply of water, taking out the points of all strong-growing shoots, thus throwing the whole strength into the truss.

We are glad to say that immense strides continue to be made in this elass.

ZONAL PELAROONIUM.

SINGLE CRIMSON AND SCARLET, &c.

220. DUKE OF BEDFORD-Rich red, small white eye; always good well-formed flowers of large dimensions. 2s. 6d.

WALES - Rosy 221. PRINCESS OF eerise; bold flowers; a giand variety. 1s. 6d.

scarlet, large white blotch suffused with lake: neat dwarf habit; free flowering; enormous trusses, and graud during the winter. 1s.

WINSTON CHURCHILL - Clear magenta-pink; large well-defined white centre, covering quite one quarter of the flower; large trusses well above the foliage 9d.

345. OLIVER-Glowing scarlet round the margin, centre white, suffused a rich magenta shade; habit dwarf and free. 9d.

348. PAUL BOUDET-Vcry large flowers and trusses; reddi-h pink, deeper towards margin, reticulated white centre. 9d.

349. MARK TWAIN-Tinted white ground, freckled and flaked carmine, margin of petals rich lake; good lasting qualities. 1s.

350. ANDREW LANG-Scarlet, with large white blotch on the two upper petals, centre of flower suffused with a rich tint of carmine. 9d.

351. MME. CORALIE BAZAC - Grand trusses; centre of each flower white, gradually attaining to a soft violet, deepening to a bright carmine at edges of petals. 9d.

EXPOSITION DE LYON-A very pretty variety, edges of petals rosy carmine, shading off to white, with distinct ring in centre; very attractive. 9d.

SPOTTED VARIETIES, VARIOUS COLOURS.

354. BELLE ALLIANCE - White, distinctly spotted with deep pink, more thickly towards the centre of flowers; habit dwarf; free flowering. 1s.

355. MME. BEUVRON-Rosy pink, white

blotch on base of upper petals, and as distinctly spotted like the above variety. Is.

356. SPOTTED GEM-Colour purple pink, with distinct spots on the three lower petals towards the centre.

PINK, SHADED PURPLE 358. LILACINA IMPROVED—In several 360. MAUD OF

respects a decided advance in this class; fine bold trusses; well above the foliage. 1s.

359. LILACINA-Dwarf habit; of a pleasing shade of soft lilac-pink; immense flowers. 18.

360. MAUD OF WALES-Flowers of the most perfect form and immense size, equal to any of the scarlet section. 9d.

361. MRS. DAVID SAUNDERS -Habit dwarf and very free, grand trusses standing well up above the foliage. 9d.

All varieties not priced 6d. each (in 60's).

ROSE-COLOURED. DEEP PINK AND

BROWN-POTTER-Decided 363. MRS. advance for size of flowers and trusses; clear bright pink; very effective; good habit; free.

MRS. WILLIAMS-Clear rose-pink, 364. small white blotch at base of upper petals; a grand flower in size and substance. 1s. 6d.

365. COUNTESS OF BUCKINGHAM-Producing flowers of a deep rose pink; of extra size and bold trusses; beautiful and refined shape; vigorous but spreading habit. 1s.

366. LADY CARLISLE — Vivid pink;

dwarf spreading habit, wonderfully free flower-

ing. 9d. 367. PINK DOMINO — Splendid dwarf hushy habit; broad circular flowers, bold trusses; attractive. 9d.

368. GERTRUDE PEARSON - Of vigorous habit and very free; large trusses of a pretty shade. 9d.

369. MRS. FRENCH - A beautiful and pleasing shade of deep pink; very attractive. 9d.

370. MRS. WILDSMITH - Soft rosecolonred pink; large trnss and immense pips. 9d.

ETHEL LEWIS—Rose-pink, distinct white blotch on upper petals; habit dwarf. 9d.

372. DUCHESS OF PORTLAND-Bright rosy-pink, colour clear and distinct; of good form, immense trusses. 1s.

373. LADY FRANCES RUSSELL - Of a soft rose shade, large white blotch in upper petals; fine formed flowers. 9d.

WHI

374. THE GHOST-Of pearly whiteness; good habit and constitution; fine substance and

form. 2s. 6d. 375. SNOWSTORM - Splendid habit; dwarf and branching; free flowering, and of the purest possible white; whilst for pot culture or bedding takes a foremost position. 1s. each.

376. MARY BETON-A fine flower of the purcet white; bold, well-formed pips and large

trusses. 1s

377. MARY E. WILKINS-Blush white, a delicate and pretty shade; large and well formed. 1s.

378. NIAGARA-Of the finest form and

size; of the purest white. 1s.

379. VIRGINIA-Pure snow white; large and perfectly regular; dwarf spreading habit. 1s. 380. DUCHESS OF YORK—Large pure white; good vigorous hahit, large trusses. 9d.

381. SNOWDROP-Snow white; of perfect form and size; very pure; dwarf and free. 383. ALBION-A decided improvement on

Swanley Single White; very dwarf habit. 384. WHITE LADY—Large well-shaped

flowers of the purest white; very dwarf and branching. 9d.

385. EUCHARIS-Five flowers and trusses;

of a pure white. 9d.

386. SWANLEY SINGLE WHITE -Dwarf branching habit; well-known.

387. AGNES-Pure white; large flowers and trusses; dwarf habit.

AMY AMPHLETT-Flowers of good size and substance.

389. DR. NANSEN-Pure white, even in the hottest of weather; fine flowers; dwarf hahit.

GIGANTEA SECTION. HYBRID NOSEGAY,

HERE we have a great move onward in the size of pips and trusses, for they produce immense flowers, measuring 23 in. over, and although they are of the Nosegay section their petals are very broad, strong growers, individual pips far beyond any hitherto seen in England, and are evidently the beginning of again enlarging the size of our Zonal Pelargoniums.

392. PHONOGRAPH-Bright rose pink; size of trusses equal to any other in this section;

dwarf sturdy habit. 1s.

393. BELLEROPHON-Dwarf and free flowering; large flowers of a bright scarlet shade; enormous trusses. 1s.

394. GENERAL DODDS-Equal in size of flowers to any in this class, and of a bright scarlet colour, is therefore an aequisition. 9d.

395. MRS. MAYES—Flower nearly three inches across; light salmon, shaded with cream. 9d. 396. MRS. E. G. HILL—Soft salmon, deeper centre; in every other respect resembling the undermentioned. 9d.

397. AURORE BOREALE - Light scarlet, tinged with salmon; strong grower, splendid round leathery foliage; size of flowers immense.

(64)

SEMI, OR HYBRID NOSEGAYS.

LL these carry immense heads of bloom, like the Hydrangea, measuring, with good cultivation. 8 to 10 inches over, and are grand for decoration, either in the conservatory, for bedding, or for large pots in the open air.

398. THE MAINE-Quite a new shade of colour, soft rosy lake, deeper towards the centre of flowers; wonderfully free. 1s.

399. SUVARNA—Enormous trusses, good babit; intense bright scarlet. 9d.

400. DR. MACDONALD - Rich glowing

crimson scarlet; very large trusses. 9d.
401. DR. E. RAWSON—Dwarf spreading habit, large bold trusses, deep crimson-tinted flowers. 9d.

402. JOHN FORBES-An improvement on John Gibbons, flowers much broader and trusses. more massive; fine. 9d. 403. CANDACE—A beautiful colour, red-

dish crimson; effective.

404. DR. ROTHERA—Rich dark glowing scarlet; flowers of immense size, both in pips

405. DR. S. GREY-Deep rich crimson; a fine advance in this favourite colour.

All those not priced 6d. each (in 60's).

BEDDING ZONAL PELARGONIUMS.

407. BEAUTY-Scarlet cerise, dwarf and eompact; an excellent bedder, and also a free winter bloomer. 6d. each, 5s. per doz.

408. KING EDWARD VII.—A sport from the original Henry Jacoby, with whitish wood and white or light coloured flower stalks, similar in this respect to West Brighton Gem which sported from Vesuvius. Lovely dark velvety crimson that has been so much appreciated in its parent and forms a striking contrast. It bas an excellent habit, and as a bedder we anticipate it will soon supersede its parent. 6d. each; 5s. doz.

409. PAUL CRAMPEL - A splendid brilliant scarlet variety, and promises to supersede all other scarlets, owing to its dwarf and robust constitution; large trusses and very flori-ferous. 6d. each; 5s. per doz.

410. GEO. POTTER-This is the variety that was admired so much at Kew Gardens. Bright crimson-scarlet, large bold trasses, foliage almost a plain green; good constitution; fine branching habit. 5s. doz.

- 411. KING OF THE BEDDERS-Resembles John Gibbons, but in every way far better. 4s. per doz.
- 412. M. MYRIEL-Crimson; is one of our finest bedders.
- 413. HENRY JACOBY Crimson; bas stood pre-eminent amongst other bedding varieties. 6d. each; 3s. 6d. per doz.; 24s. per 100; in May, 3s. doz.
- 414. WEST BRIGHTON GEM-An exceedingly free variety of a bright scarlet colonr. For bedding purposes one of the finest, 4s. per doz.
- 415. JOHN GIBBONS-Pips and trassesgigantic, colour bright orange-scarlet; a grand bedding variety. 3s. per doz.
- 416. VESUVIUS-One of the finest bedders. 3s. per doz.

All those not priced 6d. each; 4s. to 6s. per doz. (in 60's).

SALMON-COLOURED BEDDING VARIETIES.

MRS. ROBT. CANNELL-Habit very dwarf, flowers are large, well formed, and of great substance; large trusses and extremely free flowering, and one of the finest varieties for bedding in commerce. 4s. per doz.; larger plants in May and June, 6s. per doz,

420. OMPHALE-Soft satiny salmon, whitecye. 5s. doz.

422. SURPRISE (Salmon Vesuvius)-Salmon-coloured flowers, and in every other way

identical with its parent.
423. MRS. HOLFORD—Deep salmon, rosy margin, white eye; very dwarf.

4s. doz.(in 60's).

PINK BEDDING VARIETIES.

425. OLIVE CARR-Fine branching habit, free bloomer, carrying enormous trusses of a deep rose-pink. Large plants in May and June, 6s.

426. MRS. W. BROWNE-The most intense in the pink and purple section; most distinct.

427. BECKWITH'S PINK - Bright rosy pink; large trasses and brauching babit,

428. LADY BAILEY-Very deep pink; very effective.

429. MRS. TURNER - Bright rays of purple predominating; a first-class variety.

6d. each; 4s. per doz. (in 60's).

6s. to 9s. per doz.

DOUBLE-FLOWERED IVY-LEAF PELARGONIUMS.

T seems but the other day that there were no double-flowering Ivy-leaf Geraniums, yet now we have many and more double than a rose, all distinct, and many of them most valuable for cut flowers. Few people have an idea, and very few can form the slightest conception, what grand kinds we have in this family, and what splendid specimen plants they make trained on trellises; and what is more surprising, all have been introduced within the last few years; and, in fact, no class of plants has made such rapid progress in so short a time. The stands of cut blooms exhibited by us at numerous shows were a marvel for the acquisitions they contained, including many of the following varieties. Our selection in 60-sized pots, 4s. per doz.

430. CUT BLOOM.) See Novelties in 431. PRINCESS front of Catalogue. VICTORIA.)

QUEEN ALEXANDRA-Beautiful shade of blush pink, feathered in upper petals; large, full, well-formed flowers; a grand ad-

dition. 1s. 433, COL. BADEN-POWELL -- Delicate shade of soft blush-lilac, produces most freely in large trusses of semi-double flowers; a great

advance in this colour; grand. 9d. 434. HIS MAJESTY THE KING -- A pleasing shade of dark cerise; the trusses are large and produced in profusion; habit all that

can be desired; fine foliage. 9d.
435. HER MAJESTY THE QUEEN-The finest salmou coloured variety; enormous pips and trusses of a lovely shade of soft salmon; habit and foliage good. 9d.

436. BEAUTÉ SUPREME -- Robust grower and a splendid habit. 9d.

431. ANTOIN CROZY-The result of a cross with a Zonal, and partakes very much of both parents; dwarf erect habit; semi-double scarlet flowers. 1s. 6d.

438. MRS. BANKS-White slightly tinted large flowers, black blotch in upper petals. 9d. 430. JOSEPH WARREN -- Flowers of enormous size in the way of Souv. de Chas.

Turner, but the colour much richer. 9d.

9d. each. Our selection, 6s. doz. (in 60's).

HYBRID DOUBLES (REGAL) OF THE SHOW PELARGONIUMS.

HESE are comparatively a new, wonderfully rich, and effective type, and, baving more scalloped petals, nearly approaching a double, retain their petals instead of shedding them as the singles do—this, together with their most brilliant colours, make them quite an acquisition for eut flowers.

The prices affixed are for plants in 60's; our selection, in 60-size pots, 9s. per doz.; our selection in flowering plants of most of these varieties, 15s. and 18s. per doz.

VAN HOUTTEI—Deep purple.

VILLE DE ST. DENIS - White, tinted violet.

WEISSE-White, rose centre.

PETU'NIAS.

T is surprising this family is not more largely grown, considering how easy they are to cultivate; and if well grown what grand things they are, both for decoration and exhibition! Treat them similarly to a Verbena. Choose nice young plants about March, or any time up to July, give them good shifts and rich soil, well stake out, and you will be highly gratified, for some are certainly surprisingly large, and their colours not equalled by any other flower. The finest varieties ever offered. Seed saved from this collection, 1s. 6d. and 2s. 6d. per packet.

DOUBLE VARIETIES.

1. ADONIS-White and purple.

TERETZ-Milky white.

66. TOM TIT-Crimson, edged white.

WM. BROWN-White and rosy pink. 67.

All those not priced 1s. each; 9s. per doz.

PHLOXES.

HESE are a splendid hardy class of plants. Some of them are lovely colours and perfectly distinct to any other flower, and for mixed borders or in shrubberies they are not equalled by any other plant. Some of their blooms are almost a perfect circle. Their roots can be divided in February, and are quite hardy. Plant them in good, deep, rich soil in an open situation. To get fine exhibition blooms, strong cuttings must be taken and struck early in March. blooms they are valuable, also very ornamental, and continue in bloom for a long time.

NEW EARLY-FLOWERING PHLOXES,

ATTRACTION - Snow-white, with rosycrimson eye; very fine. 1s. 6d.

CAMELEON-Soft piuk, with faint crimson eye; very pleasing. 1s. 6d.

PICOTEES.

NEW YELLOW GROUND PICOTEES,

EFFIE DEANS—A desirable acquisition, edged and slightly barred rose; beautiful quality; very distinct. 1s.

HIS EXCELLENCY—A fine variety

HIS EXCELLENCY—A fine variety, large and full, perfect form, narrow margin of light red. F.C.C. 1s.

MRS. TREMAYNE—Distinct and beautiful, the ground deep yellow, heavily edged scarlet.

S.

MISS VIOLET—One of the most distinct. Flowers are very large, beautifully formed; clear yellow, heavily edged bright rose. Award of Merit. 1s.

MOHICAN—Deep yellow ground, light rosy red margin, flowers large and full; desirable. 1s.

NEW WHITE GROUND PICOTEES.

ATHENE—Light purple edge, good clear white flowers, full and well formed, the edge very light and well defined, pctals beautifully formed. 1s.

ETNA—Handsome; well-formed pure white petals, margin well-defined light red. 1s.

EUROPA—Medium rose edge, flowers large and full; a good back row bloom for an exhibition stand. 1s.

FORTROSE—Light rose edge, finely rounded petals, delicately and evenly margined clear rose. ls.

GRACE DARLING—Lovely, light red-edged variety, pure white; well-formed petals; margin well defined. 1s.

LAVINIA—Full-sized; pure white petals, and a correct margin of light purple. 1s.

MARTIAL—A full well-formed flower; good white, with a broad margin of bright red. 1s.

MINOS — Very distinct; a seedling from Brunette; well-defined broad margin of deep red. 1s.

PORTIA—Light purple edge; excellent form, large size and full, correct margin. 1s.

Picotees from the General Collection, our scleetion, 9d. each, 8s. per doz.

For History, Properties, and Management of Carnation and Picotee, see Dodwell's Book, 1s. 7d., post free.

PINKS.

NEW VARIETIES.

BUEN RETIRO—Large handsome flower, of the purest white, bright rose centre. 1s.

CAPO DI MONTE—Very distinct; of the purest white, rose margin and centre; well formed, ls.

CHANTILLY—Large, full, and well formed; maroon-red centre, medium red lacing on white ground. 1s.

FLORENCE—Quite a phenomenal break; flowers are of the purest white, very bright eye, of large size, and smooth petals; very fragrant, robust, and floriferous. 1s. 6d.

MARION—Foliage more resembling a Carnation than a Pink; flowers deep rose-pink self, without any markings, and often measure 2½

inches across; deliciously fragrant; very robust and free blooming. 1s.

MRS. MOULAND—Flowers nicely formed, smooth edged, do not hurst, and strongly clove-scented, and of a beautiful warm pink shade, heavily marked in the centre deep chocolate; a great acquisition; a colour much wanted in this family. Keeps in flower the whole summer and antumn. 91d.

OLD CHELSEA—A splendid variety; deep rose-red centre, heavy lacing of rose-red. 1s.

ROYAL WORCESTER—Large and full; white ground, rose centre, margin of lacing clear rose, 1s.

ZURICH—Pure white well-formed flowers, crimson-maroon centre. 1s.

GENERAL COLLECTION.

WE have often thought, when we have stopped to admire their beauty, that if all were as fond of flowers as we are, these most beautiful plants would be grown everywhere. It must be femembered that their lovely little flowers are very different to the common rough-edged Pink; in ract, they are about the nicest hardy flowers of the whole garden.

ADA LOUISE—Rosy-purple lace.
ALBA MAXIMA—Large.
ALBINO—White.

ANNE BOLEYN—A useful variety. 9d.

BERTRAM—Red lace. 1s, 6d. BERTHA—Dark red lace. DIAMOND—Blush. 1s, 6d. EMERALD—Red; large and full.

ERNEST—Rich ruby, large.
ERNEST LADHAMS—Blush-white.
EURYDICE—Rosy red. 1s. 6d.
GEO. WHITE—Purple; large and fine.
GODFREY—Bright reddish colonr.
HEBE—Very dark red. 1s. 6d.
HER MAJESTY—Pure white.
HOMER—Deep rose, dark crimson centre.
HYBRIDUS FLORIBUNDUS—Rose self.

JESSICA—Red lace. 1s. 6d.

JOHN BALL—Dark plum-purple.

LANCER—Frec, dark.

MASTER HARRY—Plum lacing; distinct.

MRS. PETTIFER—Dark laced.

MRS. SINKINS—Pure white.

MRS. WAITE—Rosy red.

TOTTIE—Bright red lace.

All those not priced 6d. each; our selection, 5s. per dozen. Seeds saved from the above, 1s. 6d. and 2s. 6d. per pkt.

PERPETUAL FLOWERING DWARF DOUBLE MARGARET CARNATIONS.

TOM THUMB—These are most valuable for pot culture, bedding, groups, borders, &c., and will be highly appreciated by all lovers of the Carnation. The cultivation is quite simple, as they can he sown at almost any time of the year, but must be transplanted at once to the spot where intended to flower. If sown in March they require but very little more attention than many of the common summer flowers. Per pkt., 1s. and 1s. 6d.

PICOTEES AND CARNATIONS, mixed. 1s. and 2s. 6d. per pkt. PICOTEES, mixed. $1\frac{1}{2}$ ft. 1s. and 2s. 6d. per pkt.

TREE, OR WINTER FLOWERING CARNATIONS, saved from the best varieties. 2 ft. 2s. per pkt.

Polyan'thus.

Really first-class scedling gold-laced Polyanthus for garden decoration, nearly as good as named varieties. 6d. cach; 5s. per doz. Ordinary bedding kinds, 2s. 6d. per doz.

The difference between Oxlips and Cowslips is, the former hold their bloom more erect, the latter drooping.

POTENTILLAS.

DOUBLE-HYBRID VARIETIES.

N exceedingly free-flowering and ornamental group of Hardy Perennials, producing in great profusion for many weeks full double flowers, with petals of a rich velvety texture, varying from crimson and maroon to rich orange and yellow, many heing striped, spotted, or margined. They will thrive in almost any soil or situation.

PRIMROSES.

OUR HYBRID PRIMROSES, OR FANCY POLYANTHUS.

LORD BEACONSFIELD VARIETIES.

HERE is no greater charm to the eye all through the spring than these. Although they are Primroses, they are totally different to what we are accustomed to see, being stronger growers, and their blossoms of an immense size and of great variety of colours. Many are of a lovely deep purple-coloured violet, and others approach a distinct shade of red, whilst the yellows and whites are most striking. Equally as good in their various colours as Harbinger, introduced by the Marquis of Exeter, and which has given such great satisfaction. Large flowering plants, 3s. to 4s. doz.; seed, 1s. per pkt.

THREE REALLY GRAND PRIMROSES.

Should be in every garden, field, and woodland. Of all Primroses none can compare with these. Sure to give much satisfaction to everyone as they are strong growers, seed freely, and perpetuate themselves quite as well or more so than the old favourite that everybody is delighted to see, and for bedding they make a great feature.

HARBINGER—Nearly white, with yellow eye; fine flowers, making one huge mass of colour in early spring. Plants, 9d. each; 7s. per doz. Seed, 6d. and 1s. per pkt.

MISS MASSEY-A lovely scarlet, much the highest colour, shaded rose. Plants, 9d. each; 6s. per doz.

WILSON'S BLUE—Colour deep blue, yellow eye, seedlings of course varying, some come a lovely bright plum-purple; all gems. Plants, 1s. each; smaller, 9d. each; 6s. per doz. Seed, 1s. 6d. and 2s. 6d. per pkt.

They even stood the dry hot scason of 1898 with us, and therefore can be safely planted

anywhere. Sure to be highly appreciated.

DOUBLE PRIMROSES.

(PRIMULA ACAULIS.)

OLOTH OF GOLD—A splendid variety with flowers rich lemon, large and full; perfectly distinct. 1s. 6d. each.

feetly distinct. 1s. 6d. each.

ORIMSON VELVET—Very scarce; splendid variety. 2s. 6d.

CROUSSEI FLORE PLENA-9d.

LILAC—Pale lilac; large, fine; early. 6d. each; 5s. per doz.

PLATYPETALAPLENA (Arthur Dumollin)
—Deep violet; distinct and very fine. 9d.

PURPLE - A fine variety; very rich and fine. 1s. each; 10s. per doz.

ROSE—Rosy salmon; distinct and very fine; scarce. 1s.

SULPHUR—Pale snlphur; very early and free. 6d. each; 4s. per doz.

WHITE—Prie white; early, large, very fine. 6d. each; 3s. per doz.

PRIM'ULA SIEBOLDI.

(CORTUSOIDES AMŒNA.)

HIS class of Primula are hardy, and in winter they die down to their fleshy roots, and beyond keeping them moderately dry they are no trouble until they are required to be pushed on for flowering, when they merely want the protection of a cold greenhouse, and potting in ordinary soil. Afterwards they can be kept out of doors.

Good plants in various varieties, 6d., 1s., 2s. 6d., and 3s. 6d. each.

List on application.

PRIM'ULA, ALPINE SPECIES.

12 distinct varieties for Border, 8s., 12s., 18s., and 24s. per doz.

(CHINESE PRIMROSE.)

HE double-flowered varieties of this family rank amongst the most desirable of plants for the decoration of the conservatory or greenhouse during the autumu, winter, and spring mouths; and where cut flowers are in general request are specially valuable, as they retain their beauty for a long time when in a cut state, the flowers never dropping off as with the single-flowering varieties. The white kinds are very fine, and much used for bouquets.

ALBA PLENA-White, much used for cut

wers. 1s. and 1s. 6d.

ALBA PLENA FIMBRIATA — Fringed white; a beautiful variety. 1s. 6d. and 2s. 6d.

KING OF THE PURPLES. 2s. 6d. MARCHIONESS OF EXETER—The best of all Gilbert's seedlings; a great acquisition. 55.

Special prices for small plants during the autumu; for specimen plants, price on application. See our Seed Guide for list of the finest Single varieties, post free.

Purchaser's selection, 9s. per doz.; our selection, 6s. per doz.

ERHAPS for cut flowers no outdoor plants are more useful, for at the commencement of the summer they begin to bloom, and continue as long as the weather keeps open; like all other flowers, they delight in having pleuty of room, deep rich soil, pleuty of manure, and a good soaking in dry weather; treat them thus, and the quantities of aster-shaped blooms will be immeuse all the summer and autumn.

ROSES.

ACRES-THOUSANDS IN POTS. TEN

PRICES OF ROSES

WHEN THE SELECTION IS LEFT TO US :-

Standards and Half Standards, best sorts, and well varied, 18s. to 24s. per dozen.

Dwarfs on the Brier, extra strong good varieties, 9s. per dozen, 70s. per 100.

Dwarf Teas, varieties from open ground, 12s. and 15s. per dozen; extra fine Plants in pots, 18s., 24s., and 30s. per dozen.

Hybrid Perpetuals, in pots, good strong plants, 18s. per dozen.

Customers selecting their own are respectfully requested to add to their orders a few supplementary sorts, lest by previous orders the stock of any particular variety should be exhausted, this being especially necessary late in the season.

Another secret in getting Roses to grow after removal, particularly Standards, is to prune well back and plant early in October, or as soon in November as possible. February and March are the best Spring months. By so doing, young fibres are made at once before the cold or hot weather sets in, whereas, if planted later in the usual way, they must stand without nonrishment until the return of the season.

ROSES FOR FORCING.

A large quantity of all the best kinds kept in pots, our selection, 12s., 18s., 24s., and 32s. per doz.

Also a quantity of Standards in pots for removing at any season. A list of kinds sent on application. A great quantity of well-rooted Dwarf Roses on their own Roots, in pots. A list of sorts on application. Seedling Briers and Cuttings, 6s. per 100.

ROSES.

All other New Roses can be supplied at Advertised Prices.

HYBRID PERPETUALS.

BEN CANT (1902) - Vigorous, deep clear crimson. Dwarfs, 3s. 6d.

BOB DAVISON (1902)—Dazzling searlet, shaded crimson; good in every respect. Dwarfs, 3s FRAU KARL DRUSCHKI (1901)—Vigorous, large, perfectly formed; snowy white. Dwarfs, 28.

MILTON (1901) - Bright carmine, shaded velvety crimson reflexed silver; large, full, and early; vigorous.

gorous, Dwarfs, 2s.
MURIEL (1902)—Vigorous, deep salmon-piuk; large, full, and well-formed; best in cool seasons. Dwarfs, 3s, 6d.

ROSSLYN (1899)-Rosy flesh, in the way of S. M. Rodocanachi, from which it is a sport. Dwarfs, 1s. 6d.

NEW BEDDING AND DECORATIVE ROSES.

(RIVIERA ROSES.)

These are recommended and sent out as Bedding and Decorative Roses. They are seedlings from Tea-scented and China Roses.

ALEXANDRA (1900)-Pale baff, orange-yellow centres, shaded apricot and bronze; very beantifully shaped, and exceedingly attractive both on the plant and when cat. Dwarfs, 2s. to 3s. 6d. ARETHUSA (1903)—Clear deep yellow, tinted with apricot; a valuable addition. Dwarfs, 5s. CHAMELEON (1903)-Rosy flesh, distinct blotch of deep crimson on outside of petals; pretty in the buds. Dwarfs, 3s. 6d.

CORALLINA (1900)-Vigorous, deep rosy crimson, large petals; beautiful in the bud state. Dwarfs, 2s. to 3s. 6d.

DAINTY (1903)-Primrose-yellow, yolk-of-egg centres, petals edged and tipped carmine. Dwarfs, 3s. 6d.

ELIZABETH KITTO (1903) - Hybrid-Tea, salmou-pink; free and coustant. Dwarfs, 5s. FAIRY QUEEN (1903)-Pale fawn, merging into creamy white, richly suffused rosy cerise. Dwarfs, 3s. 6d.

FORTUNA (1903)-Apricot, shaded buff, onter petals slightly tinged red; of large size, Dwarfs, 3s. 6d.

MORNING GLOW (1903)-Bright rosy erimsou, richly suffused orange and fawn. Dwarfs,

SALMONEA (1903)-Deep bright crimson, light salmon centres; attractive. Dwarfs, 3s. 6d. SULPHUREA (1900)-Bright sulphur-yellow when opening, changing paler. Dwarfs, 2s. to 3s. 6d.

TEA-SCENTED.

BOADICEA (1901)—Vigorous, pale peach, tinted pink and violet, centre shaded rose. Dwarfs, 2s. GEORGES SCHWARTZ (1899)-Deep canary yellow, loug pointed buds; good for buttonholes. Dwarfs, 1s. 6d.

LADY MARY CORRY (1900)-Deep golden yellow, vigorous, free-flowering. Dwarfs, 1s. 6d. : Standards, 2s. 6d.

LADY ROBERTS-A rich reddish apricot, base of petals a metallic coppery red, a wonderful colour. Dwarfs, 5s.

MME. ANTOINE MARI (1901) - Handsome buds, rose, washed and shaded white; beautiful. Dwarfs, 2s.

MME. VERMOREL (1901)-Rose and coppery-yellow centre, shaded and lined red; large bnds. Dwarfs, 2s.

MRS B. R. CANT (1901)-Deep rose on the onter petals, and in the autumn frequently a rich red, inner petals soft silvery rose, suffused buff at the base; of good substance and form. Dwarfs, 2s. NOELLA NABONNAND (1901)-Velvety crimson; handsome bud, very sweet, more vigorous

than Reine Marie Henriette. Dwarfs, 2s. PEACE (1903)—Pale lemon-yellow; long pointed bnds, stout erect stems. Dwarfs, 2s. 6d.
QUEEN OF SWEDEN AND NORWAY (1903)—Delicate salmon-pink, variable in colour. Dwarfs, 5s.

OLGA OF GREECE (1899)-Soft rosy-piuk ceutre, shaded yellow; distinct, QUEEN Dwarfs, 1s. 6d.

(83)

SOUV. DE M. WM. ROBINSON (1900) - Fawn, shaded pale pink and yellow. Dwarfs, 1s. 6d.

SUNRISE (1899)—The outer petals reddisb carmine shading to delicate fawn and pale salmon.

Dwarfs, 1s. 6d. VICOMTESSE R. DE SAVIGNY (1900)-Deep China rose, shaded soft golden pink. Dwarfs, 1s. 6d.

HYBRID TEA-SCENTED.

ALICE GRAHAME (1903)-Ivory-white, tinted salmou; for exhibition, garden decoration, or pot cuiture. Dwarfs, 5s.

ALICE LINDSELL (1902)-Creamy white, pink centre; very large, full and perfectly formed.

Dwarfs, 3s.

AMATEUR TEYSSIER (1900)-Dark saffron-yellow; large and full. Dwarfs, 1s. 6d. APOTHEKER G. HOFER (1901)—Large and full, bright red; buds long and well formed. Dwarfs, 2s.

ARDS PILLAR (1902)-The perfection of a pillar rose; rich velvety crimson; distinct.

Dwarfs, 3s.

CLIMBING BELLE SIEBRECHT (1899)-A valuable addition to the red perpetualflowering climbing varieties. Dwarfs, 1s. 6d.

CONRAD STRASSHEIM (1901)-Buds large and long, white edged rose, reverse of petals Dwarfs, 2s.

rosy carmine.

DUCHESS OF PORTLAND (1901)-Pale sulpbury yellow; for pot culture, garden decoration, and exhibition purposes. Dwarfs, 3s. 6d. EDITH D'OMBRAIN (1902)-Large, full, and of perfect form; white, with pink tinge.

Dwarfs, 3s. ENGLAND'S GLORY (1902)-Large, full, and well formed; flesh, satiny pink centre.

Dwarfs, 2s. 6d. EXQUISITE (1899)-Bright crimson, shaded magenta; large, full and globular, buds large.

1) warfs, 1s. 6d. FLORENCE PEMBERTON (1903)-A superb variety, flowers of large size, very full, perfect

in form, high pointed centre; colour creamy white with a suspicion of pink. Dwarfs, 5s. GERTRUDE (1903)—A beautiful blush sport from Countess of Caledon, which it resembles excepting colour, and possessing all the good qualities of that grand Rosc; quite distinct.

Dwarfs, 5s.

GLADYS HARKNESS (1900)—Salmon-pink, reflex of petals silvery pink. Dwarfs, 1s. 6d.

JOHANNA SEBUS (1900)—Very large, full and well formed, rich rosy cerise, tiuted yellow;

good. Dwarfs, 1s. 6d.

JOHN RUSKIN (1902)—A magnificent variety, most distinct, bright rosy carmine, of an exceedingly rich tint, deliciously perfumed; blooms are large, well formed, and produced in abundance. Dwarfs, 3s.

LADY BATTERSEA-Beautiful cherry-crimson, shaded orange; attractive and distinct.

LADY CLANMORRIS (1900)—Creamy white, pink centre, edge of petals margined pink. Dwarfs, 1s. 6d.

LADY MOYRA BEAUCLERK (1901)-Bright madder-rose, silvery reflex; attractive. Dwarfs, 2s. 6d.

LA TOSCA (1901)-Good habit, large, full, beautiful form; delicate rose, shading to rosy white. Dwarfs, 2s.

MA TULIPE (1900)-Large and moderately full, bud long; colour dcep crimson; fine for entting. Dwarfs, 1s. 6d.

MAMIE (1901)-Rosy carmine, distinct yellow zone at base of petals; full and perfectly formed.

MILDRED GRANT (1901)—Blush-white, tinted pink; of great size and substance. Dwarfs, 3s. MME. RAVARY (1900)-Hardy and floriferous; beautiful orange yellow; large, globular.

Dwarfs, 1s. 6d. MME. VIGER (1901)-Large, buds long; pale rose, edges and reverse of petals silvery white.

Dwarfs, 2s. VON GODESBERG (1902)-A golden yellow sport of Kaiserin A. Victoria. PERLE Dwarfs, 2s.

PRINCE DE BULGARIE (1902)—Vigorous; colour deep rosy flesh, shaded salmon. Dwarfs, 2s. ROBERT SCOTT (1901)—Clear rosy pink, shading to flesh colour on the outer petals; very good, excellent alike for outdoor flowering in summer and for winter blooming under glass. Dwarfs, 2s. 6d.

SOLEIL D'OR (Hybrid Rose) (Austrian Briar) (1900)-Varying from orange-yellow to reddish

gold, shaded nasturtium-red. Dwarfs, 1s. 6d. to 2s. 6d.

SOUVENIR DE JEAN KETTEN (1901) - Buds long, large, and well formed; rosy carmine. shaded salmon. Dwarfs, 2s

SOUVENIR DE PIERRE NOTTING (1902)—Very large, deep apricot-yellow, shaded orange;

vigorous. Dwarfs, 2s. 6d.

TENNYSON (1899)-Large, handsome, and full; pearly white, shaded with flesh colour and pale pink; a most distinct and excellent exhibition Rose of good lasting qualities; robust growth. Dwarfs, 2s. to 3s. 6d.

TEA-SCENTED-SINGLE FLOWERED.

IRISH PRIDE (1903)-Of great beauty and distinctness; eeru suffused old rose, while the zone is old gold, a most charming combination; sweet perfinne; useful for cutting; free and erect branching habit. Dwarfs, 5s.

IRISH STAR (1903)—In habit and growth identical with Irish Pride; distinct; flowers are large,

cup-shaped; colour Rose du Barii; rich golden stamens; star-like centre of a beautiful lemon

colour. Dwarfs, 5s.

HYBRID TEA-SCENTED-SINGLE FLOWERED.

IRISH BEAUTY (1900)-Pure white, with golden authers; very free and fragrant. Dwarfs, 2s-IRISH BRIGHTNESS (1903)—Vivid crimson, pink at base of petals, its peculiarly hematite-ore-like glaucus-covered wood contrasting with its bright glossy and handsome foliage; superb; free growing. Dwarfs, 5s.

IRISH GLORY (1900)-Produced in large clusters, the excessive venation rendering the colour iuto a lovely marbled pink, flamed in the back with crimson; strongly perfumed, and a good flower.

Dwarfs, 2s.

IRISH MODESTY (1900)-An exquisitely delicate coral-pink, suffused with ecru; vigorous. Dwarfs, 2s.

HYBRID TEA-SCENTED NEW FORCING AND BEDDING ROSE.

LIBERTY (1900)—Described by the raisers: "Brilliant velvety crimson, of even shade throughout, a truly unique and typical Rose, having every merit, with the exception of being a little undersized to make a perfect exhibition bloom, though occasionally large enough to exhibit. It has no compeer in its section, being perfect in symmetry and colour. As it is very floriferous, we claim it has no equal for cut flowers or decorative work. It is an ideal Rose, and has for years been a great attraction." This Rose has been thoroughly tested in America, the verdict being-the finest forcing Rose of its colour; assuredly a fit Rose for every garden. Dwarfs, 1s. 6d. to 2s. 6d.

NEW CLIMBING OR RAMBLER ROSES.

BLUSH RAMBLER (1903)-In growth similar to Crimson Rambler and as vigorous; flowers in large clusters are almost single and quite round in shape; rich blush, lighter in the centre; when fully developed the whole colour is a beautiful soft blush resembling Apple-blossom; pleasing and attractive; sweetly scented; hardy. Dwarfs, 5s.

ELECTRA (1900)—Lemon shaded orange and white, in the way of Aglaia, but better.

FIELD MARSHAL (1903)—Deep blood-crimson, shaded velvety amarauth, larger in size than Cramoisie Superieure; handsome and effective; a splendid companion for Marechal Niel.

GOLDEN QUEEN (1903)—A climbing Noisette Rose, resembles Reve d'Or in foliage and rapid habit of growth, but of a deeper and more uniform shade of rich golden yellow, shaded with copper; a fine addition to climbing Roses. Dwarfs, 7s. 6d.

LEUCHTSTERN (1899)—Of pillar habit, densely covered with bunches of single flowers, rosy red and pink with white eye, Cineraria-like, pretty. Dwarfs, ls. 6d. and 2s. 6d.

PHILADELPHIA RAMBLER (1903)—Said to be an improvement on Crimson Rambler; the colour is deeper, flowers perfectly double, very durable and of good substance. Dwarfs, 2s. 6d.

PSYCHE (Rambler Rose) (1899) - A real companion to Crimson Rambler; quite hardy and very free flowering; the flowers are produced in clusters, when in the bud stage are very pretty and well formed; the colonr is white, suffused with salmon-rose and pink with a yellow base to the petals. Distinct and beautiful. Award of Merit. Dwarfs, 1s. 6d.

PURPLE EAST (1900)—Rosy carmine and vivid purple, semi-double of good size, very vigorous

habit, trusses of great size and extent. Dwarfs, 2s.

QUEEN ALEXANDRA (1901)—Large corymbs of blossoms in the way of Crimson Rambler, but lighter in colour. Dwarfs, 2s. 6d.

THE FARQUHAR (1903)—The result of a cross between R. Wichuriana and Crimson Rambler,

of same habit and as hardy as the latter; flowers piuk passing to white. Dwarfs, 5s.

THE LION (1900)—A single-flowered form, rambling habit, and free bloomer, rich crimson, beautiful and bright; a fine pillar variety. Dwarfs, 2s.

THE TEA RAMBLER (1902)—A seedling from Crimson Rambler and a Tea; growth vigorous, and producing very freely bunches of from twelve to thirty small well-formed flowers; colour coppery piuk with a salmon flush; very distinct; a charming creeper. Dwarfs, 3s. 6d.

THE WALLFLOWER (1900)—The perfection of a hedge or wall Rose, dense sprays of crimson-

lake flowers; much larger, somewhat lighter and softer than Crimson Rambler. Dwarfs, 2s. to

3s. 6d.

WALTHAM RAMBLER (1902)-Large bunches of single flowers, pale rosy pink passing to white, somewhat like a pale Leuchistern; a distinct and valuable addition to the hardy Climbing Roses. Dwarfs, 3s. 6d. to 7s. 6d.

RUGOSA VARIETIES.

ATROPURPUREA (1899)—Distinct and novel; flowers in the bud state almost blackish crimson, and pass as they open to maroon-crimson, shaded with vivid colouring, and thence to vivid purple. Dwarfs, 1s. 6d.

RUGOSA REPENS ALBA-Of great vigour, pendant and even prostrate in growth. The blooms are stellate, single, and pure white, and produced in great profusion. It forms a most unique weeping standard, but is perhaps prettiest as a half-standard on a 3-ft. stem. Gold Medal, Holland House Show. Dwarfs, 5s.

NEW HYBRID BOURBON.

J. B. M. CAMM (1900)—Pale salmon-piuk, of vigorous growth and bold massive foliage; of great value for forcing purposes. Award of Merit, R.H.S. Dwarfs, 2s.

MRS. ALLEN CHANDLER (1903)—A pure white sport from Mrs. Paul, of great beauty and purity of colour; a fine addition to the new class of large shrub Roses for border planting. Dwarfs, 5s.

NEW HYBRID BRIAR.

UNA (1900)-Award of Merit, R.H.S. Buds pale buff, opening to large single white flowers-Dwarfs, 1s. 6d.

NEW EVERGREEN ROSES.

HYBRIDS OF ROSA WICHURIANA (TRAILING ROSES).

A distinct type of hardy Roses, bright glossy foliago and showy fragrant flowers, produced most profusely; are all of large size, and can be used for cut-flower purposes, especially when in The use of these Roses will be unlimited for covering graves, to cover roots, stumps and stems of trees, walls and trellises, and also for forcing as pot plants during the spring, and as weeping standards they will make beautiful looking specimens.

ALBERIC BARBIER-Creamy white, shaded with yellow, buds darker yellow, semi-double or double; a beautiful variety, tea scented, strong grower. Dwarfs, 1s. 6d.

AUGUSTE BARBIER-Piuk, brighter centre. Dwarfs 2s.

DOROTHY PERKINS-Vigorous habit, colour soft light pink, flowering in large clusters;

fragrant and lasting. Dwarfs, 2s.

EVERGREEN GEM-Foliage fine rich bronze colour, closely matted; flowers yellow, buff in bud, opening to almost white; perfectly double, and of a delightfully Sweetbriar fragrance. Young plants, 1s. 6d. to 3s. 6d.

GARDENIA—Grand for any purpose, strong grower, large green foliage; bright yellow, and when open, cream colour, incurving towards evening to perfect imitation of Gardenia or Cape Jessamine, hence its name; delightfully fragrant and freely produced. Young plauts, 1s. 6d. to 3s. 6d.

JERSEY BEAUTY-Flowers opening pale yellow, with clusters of bright yellow stamens; fragrant and produced in greatest profusion, covering the plant ontirely; a most striking variety. Young plants, 1s. 6d. to 3s. 6d.

MANDA'S TRIUMPH-Large clusters of double pure white flowers; sweet scented. Dwarf, 1s. PAUL TRANSON-Large double rosy pink flowers, vigorous and free flowering; good. Dwarfs, Is. 6d.

PINK ROAMER-A hybrid with the Sweetbriar; single flowers, rich bright pink; orange-red

amens. Dwarfs, 1s.

RENÉ ANDRE—Buds saffron-yellow, tinted orange-red, changing to pinkish white, varied with carmine, semi-double; early flowering. Dwarfs, 1s. 6d.

SOUTH ORANGE PERFECTION-A free grower, close to the ground, producing numbers

of flowers; white, tipped with pink, and lasting a long while. Dwarfs, 1s.

UNIVERSAL FAVOURITE—Large branching shoots, covered with dense bright foliage; large, double, pink flowers; very fragrant. Dwarfs, 1s.

WICHURIANA RUBRA—Bright red petals, tinted with orange-red, white at the base; numerous orange-red stamens; single. Dwarfs, 1s. 6d.

10 ACRES, 5,000 IN POTS.

CLIMBING ROSES, as under, specially grown in pots for training on walls or rafters, where an effect is desired quickly, either for Conservatory or Outdoor Planting; 8 ft. to 12 ft. high. 3s. 6d., 5s., and 7s. 6d. each.

SAL'VIAS

ERHAPS at no time of the year do gardeners find it more difficult to keep up a display of flowers than about the commencement of October, but if the following Salvias were once seen, and persons were determined to grow them, there would be no more scarcity of either the most intense blue, scarlet, purple, rose, striped, and several other intermediate colours, than there is of having in November the conservatory full of Chrysanthemums, and with not nearly so much trouble, for Salvias are much more easily propagated and grown.

GREENHOUSE VARIETIES.

GLORY OF STUTTGART) See Novelties. SILVERSPOT

- 1. SPLENDENS BRUANTI—Scarlet
- 2. PITCHERI, syn. AZUREA GRANDI-FLORA-Azure blue.

Messrs. H. C. & Sons carried off the only Medal for Verbenas ever given by the Royal Horticultural Society.

SHRUBBY VARIETIES.—GENERAL COLLECTION.

VERY nscfnl and ornamental group of small half-hardy evergreen shrubs, but in many places perfectly hardy, especially in the south of England and near the coast, forming into inxuriant bushes, and ornamental both in foliage and flower. As pot plants they are useful the whole year, and in the autumn are amongst the prettiest of flowering shrubs; planted out during the summer and lifted in the approach of frost they will produce flowers for a long time.

- 1. ANDERSONI—Blue and white. 1s. 7. ANDERSONI VARIEGATA—For 27. bedding.
 - 2. ADOLAR HERLL.
 - 3. BLUE GEM-Light blue
 - OELESTIAL-Sky-blue.

- SALICIFOLIA-Light blue. 1s.
- TRAVERSI-White. 9d. and 1s. 26. VULCAN.

All those not priced 6d. each; our selection, 5s. per doz.

OLAS (TUFTED PANSIES).

ANY of these continue in bloom (even beneath the snow) all the winter; and at the first few days of snnshine they are a brilliant mass, and if planted in bands of colonrs like other ordinary bedding plants, in well-manned, deeply-dug soil, they give a glare of colour from February to July. We grow acres; in the spring they are a grand sight.

For full descriptions, see Floral Guide of 1902.

ABBESS-Like Countess of Kintore. 4d. ACCUSHLA-White and rich purple. A. J. ROWBERRY-Yellow self. 4d. ALEX RENTON-Rose, flaked crimson. 4d. ANNE-Purc white, rayless.

Many other varieties can be supplied.

VIOLETS.

F there is one flower more than another that can lay claim to the hononr of being everybody's favourite, it is the Violet; it cheers the most saddened spirits, and gladdens the most robust. We are pleased to say the hybridisers and the most anxious and hopeful seedling raisers are at work, and to those who present flowers double the size of our present kinds with a perfume, the whole universe owe at least their thanks. Violets, like all other flowers, have their wants, and if these wants are not supplied at the right time they become weak and unsatisfactory. Old plants must be divided early in April, and replanted in good, deeply-dug, and well-manured soil, sixteen inches from plant to plant for large growers; the double and smaller leaf kinds, twelve inches, with their roots well down so as not to snifer in dry weather, and at all seasons their runners must be kept ent off; they will then produce flowers such as are seldom seen.

DOUBLE WHITE VIOLETS.

BELLE DE CHATENAY — Price white; large and fragrant. 6d. each; 5s. doz.

For others, see Pansies.

SWANLEY WHITE, syn. COMTE BRAZZA—A beautiful and useful white form of Neapolitan, fragrant, hardy, and free, much grown in America, to where we have exported it largely. 9d. each, 6s. doz.

DOUBLE VARIETIES,

DE PARME—Pale lavender-purple, which is produced in great abundance; earlier than Neapolitan. The finest variety for growing in frames; very free.

DUCHESS OF EDINBURGH—Very light ground, shaded; each petal tinted mauve, bor-

dered with aznre-blue.

D'UNDINE—Producing fine double flowers of a more decided blue shade than *Marie Louise*. 9d.

KING OF VIOLETS—Dark indigo-blne; very large double flowers; best ontdoors.

LADY H. CAMPBELL—Only wants to be once seen and it will be universally grown as a late kind.

MARIE LOUISE — Fine variety; rich mauve-lavender blue, with a white eye; flowers large, and one of the best; a universal favourite.

MDLLE. BERTHA BARRON, syn. VICTORIA—A fine, vigorous, compact grower; flowers freely produced, strongly scented, and of a beautiful indigo blue. 9d.

MRS. J. J. ASTOR—Of a pretty shade of pink; very free; distinct. 9d. each.

NEAPOLITAN — Lavender, with a white eye; flowers produced in great abundance; very tragrant; in a cold frame a gem all the winter.

NEW YORK—Manve-coloured; for size and length of foot-stalks similar to Marie Louise; very fragrant and free.

ODORATA RUBRA—Red coloured, short habit, very hardy; a great improvement on Blandyana.

PARME DE TOULOUSE—We find this an advance on the well-known old variety De Parme; free. 1s.

PARMŒNSIS FLORE PLENO — White, striped with rose; large and double; a distinct and pleasing kind.

PATRIE—Fine for winter; very deep pnrple-violet, slightly streaked red in centre.

All those not priced 6d. cach; 4s. per dozen. Special prices for large quantities. Rooted little plants, 2s. 6d. per doz.; 15s. per 100. Cuttings, 9d. per doz.; 5s. per 100.

NEW VIOLETS.

BARONNE A. DE ROTHSCHILD-Producing splendid large single flowers of a rich purple shade; very fine. 1s.

ROSE PERLE.—Quite a new colour, and will no doubt be highly valued by every lover of violets. The medium size flowers are of a fine satiny rose colour, with white centre; the colour being clear and decided; it does not fail to attract immediate attention. 1s.

SINGLE VARIETIES.

AMIRAL AVELLAN-A grand improvement on Odorata rubra, being brighter in colour and

stronger in scent. 6d. each; 4s. per doz.

ARGENTÆFLORA—Colour white, tinged with pink; long footstalks, flowers small, strong grower, and should be in every garden. 6d. each; 5s. per doz.

ITALIA—One of the finest. 6d. each; 4s. pcr doz.

KAISER WILHELM- A fine advance, which we are certain will meet with universal approval. 9d. each; 6s. per doz.

LA FRANCE—A glorious flower; large round petals, metallic blne-violet flowers carried on

long stiff stalks, and as large as a two-shilling piecc. 9d. each; 6s. per doz.

LUXONNE—A very sweetly-scented purple blue flowering variety. 9d.

PRINCESS OF WALES—Its blooms are more like a Viola than a Violet. We confidently recommend all growers and lovers of this family to obtain this variety. Award of Merit, R.H.S. 6d. each; 4s. per doz.; 30s. per 100.

RAWSON'S WHITE—White, tinged with pink; very dwarf and free.

SINGLE RED or PINK-Distinct.

THE RUSSIAN AND LONDON-Are of a much dwarfer growth, with small leaves; their runners become quickly interwoven, and in the early spring produce their flowers so thick as to give quite the appearance of a hedding plant. 3s. per doz.

VICTORIA REGINA—Is very similar, possessing a fine flower, long footstalks, and when well-

white czar.—Its very similar, possessing a the lower, long rowestake, and when well-grown cau be readily distinguished from all older varieties. 6d. each; 4s. per doz.

WHITE CZAR.—This variety occasionally changes, and for a time produces purple coloured flowers, but when it comes true it is a useful single white; strong grower, free bloomer in the spring. 6d. each; 5s. per doz.

YELLOWRETTE (SULPHUREA)—Producing medium-sized flowers of a decided creamy-

yellow shade; very distinct, and a perfect contrast to all other varieties. 9d. each; 6s. per doz.

All those not priced 6d. each.

VIOLETS.

We have always a large quantity of fine plants in 5-inch pots, 8s. and 10s. per doz., £3 3s. per 100, of Swanley White, Marie Louise, and Neapolitan. Blooms all the winter when grown under glass. Fine clumps from ground now ready to be planted out in cold frames, 4s. per doz.; 30s. per 100.

GREEN CARPET BEDDING PLANTS.

Where the splendonr of Carpet Bedding is desired to be in perfection these must be used.

HERNIARIA GLABRA—The darkest green of all the carpet bedding plants; very neat, close growth, one of the best for this purpose. 6d. each; 4s. per doz.; 20s. per 100. Cuttings, by post, 5s. per 100.

MENTHA PULEGIUM GIBRALTARI-CUM-Dwarf, dense, green growing plant; effective when surrounded with brighter colonrs. 2s. 6d. per doz.; 12s. per 100; rooted cuttings, by post, 5s. per 100.

SEDUM LYDIUM-A different tint of green, never exceeding more than 3 in. high, 2s. 6d. per doz. Rooted little plants, 5s. per 100.

SEDUM GLAUCUM - Light blue-green ; for covering mounds of earth and margins of beds it is most useful, particularly in dry situations. Can be supplied cheap, 6d. each; 6s. per 100 from ground.

PYRETHRUM TCHIHATCHEWI-Dwarf moss-like growing plant for standing very dry weather. 6d. each; 4s. per doz. Cnttings, by post, 5s. per 100.

VERONICA REPENS (Alpina)-Another tint of pea-green, and in every way similar in growth. Never more than an inch high, and very effective. 2s. 6d. per doz.; 14s. per 100.

HARDY EYERGREEN, DECIDUOUS, AND FLOWERING TREES AND SHRUBS.

For full List of the above, and also Fruit Trees, see Autumn Catalogue, post free on application.

SMALL

EVERGREEN SHRUBS WITH VARIEGATED FOLIAGE.

EUONYMUS JAPONICUS AUREA MARGINATUS-Leaves green, broadly and distinctly margined with gold; very showy; a very beautiful little shrub. 1s.

ÉUONYMUS JAPONICUS AUREA VARIEGATUS—Leaves dark green, with bright green-yellow blotch in centre. 6d. and 1s. each; 8s. per doz.

EUONYMUS JAPONICUS LATIFOLIUS VARIEGATUS-Leaves dark green, regularly margined with white. 1s.

EUONYMUS RADICANS VARIEGATUS -Leaves green, broadly and beautifully margined bright silver; exquisite plant for edging to flower beds. 6d. to 1s. each; 7s. per doz.

A SELECT LIST OF HERBACEOUS

HARDY PERENNIALS & FLOWERING PLANTS.

SEVERAL ACRES.

For New and Rare Hardy Herbaceous Plants, see front of Guide.

N the wide range of hardy plants, consisting of several thousand species and varieties, some mere weeds, tho following will be found all choice and most telling useful kinds, and such as should be in every garden. They are selected with the greatest care, and we think none choicer can be recommended. We have well-established plants, such as will travel with safety to all parts of the world, and give satisfaction.

THE SWANLEY COLLECTION OF HARDY PLANTS.

100 Plants in 100 varieties for 25s.

Collections of 100 nseful Border Plants, flowering at various seasons, 30s. and 50s.

Spring flowering plants, 12 varieties, 9s. 25 16s. 22 3.5 50 30s. ,, Autumn Flowering Perennials, 12 varieties, 6s. to 15s. 11 25 ,, 12s. to 30s. 11 ,,

50 20s. to 60s. The Bijon collection for the rock garden carefully selected. 50 plants in 50 varieties, 20s. Older and commoner sorts:—25 varieties for 7s. 6d.; 50 varieties, 14s.

Having had frequent proofs of the great difficulty experienced by many of our patrons and others, in making an effective and satisfactory selection of the above plants, we venture to think that we shall meet a general requirement of the present day, by offering at the above exceedingly low price our Swanley Collection of Hardy Herbaceous Plants, Florists' Flowers and Bulbs, carefully selected for the purpose of giving more or less bloom in the open garden during at least nine months of the year. The plants are all such as will live and increase in effectiveness from year to year in an ordinary border, and all are sufficiently hardy to thrive in any part of the United Kingdom.

We shall be happy to advise intending purchasers as to quantity of plants, &e., for any given beds or borders, if particulars are sent as to dimensions, aspect, and soil.

ACÆNA BUCHANANI-Grey-brown foli-

age, pretty red spikelets. 6d. each.

ANEMONE NARCISSIFLORA - One of the most distinct; flowers white. \$\frac{3}{4}\$ ft. 9d.

ANEMONE NEMOROSA CERULEA

(Robinsoniana)-Most heautiful sky-hlue form of the Wood Anemone. 3 ft. 9d.

ANEMONE NEMOROSA ROSEA FL.PL. -A double rose-coloured form of the Wood Ansmone. 6d.

ANEMONE PALMATA (Lobata) (Cyolamen Windflower) - Bright golden yellow. 6d.

ANEMONE PALMATA ALBA - Pure

white; very early. 1 ft. 6d.

ANEMONE PULSATILLA (Pasque-flower) -Deep purple flowers, covered with long silky hairs; a general favourite. 3 ft. 6d.

ANEMONE RANUNCULOIDES - Very early; flowers golden yellow. ½ ft. 6d.
ANEMONE RIVULARIS—Strong grower,

having white flowers with purple anthers. $1\frac{1}{2}$ ft. 9d.

ANEMONE SYLVESTRIS FL. PL.-Of

great use for cutting. 9d.

ANEMONE SYLVESTRIS (The Snowdrop Windflower) - Desirable for spring decoration; large pure white flowers. 2 ft. 6d.

ANEMONE SYLVESTRIS BAICA-LIENSE-A larger flowering form of the Suowdrop Aremone, flowers purple on the outside instead of white. 1s.

ANEMONE VERNALIS (Shaggy Pasque Flower)-Large white flowers, externally of a bluish purple. 1 ft. 1s.

ANTENNARIA TOMENTOSA (Snow Plant)-Silvery-leaved edging plant; very usefnl. 6d. each; 3s. per doz.

ANTHEMIS KELWAYI-Rich yellow flowers; compact growth. 11 ft. 6d.

ANTHERICUM LILIAGO (St. Bernard's Lily)-Large tufts of grassy foliage, and spikes of delicate white flowers. 2 ft. 6d.

ANTHERICUM LILIASTRUM (St. Bruno's Lily)-Spikes of large pure white flowers issuing from tufts of long narrow grass-like foliage; very fragrant. 2 ft. 6d.

ANTHERICUM LILIASTRUM MAJOR
-A fac-simile of St. Bruno's Lily, but double the size, both in foliage and flower; very hest hardy plants. 2 to 3 ft. 9d.

ANTHYLLIS MONTANA-Dwarf ornamental rock plant; pink flowers. 1 ft. 9d.

ANTIRRHINUMS .- See Summer Bedding Flowering Plants.

APIOS TUBEROSA. - See Hardy Climbing or Wall Plants.

AQUILEGIA-Hyhrids from hest varieties. 6d. each; 3s. per doz.

AQUILEGIA CALIFORNICA—Handsome, flowers scarlet and green. 21 ft. 9d.

AQUILEGIA CANADENSIS - A pretty and useful variety. 9d cach; 6s, per doz. AQUILEGIA CARYOPHYLLOIDES FL.

PL.—Double, striped of various shades; hesutiful, 2 ft. 6d.

AQUILEGIA CHRYSANTHA - Longspurred flowers of a clear yellow, the petals being of a deeper tint than the sepals. $2\frac{1}{2}$ ft. 6d.

AQUILEGIA CŒRULÊA-Blue and white, lovely; from the Rocky monntains, 1½ ft. 9d. AQUILEGIA GLANDULOSA—Oue of the most beautiful; flowers large, of a rich deep hluc, pure white corolla. 3 ft. 9d.

AQUILEGIA GRANDIFLORA ALBA-Large pure white flowers; one of the best. 1s. AQUILEGIA SKINNERI - Dwarf and

compact, flowers red and green. 6d.

AQUILEGIA STUARTII-Rich blnc, with white cap and yellow anthers, large flowers;

gem. 2 ft. 1s. 6d. AQUILEGIA VULGARIS ALBA FL. PL. -A double white form, and deserving of a place in every collection. 6d.

ARABIS ANDROSACEA-A choice Alpine, flower white, on stems 2 in. high. 6d.

ARABIS ALBIDA 6d. each; 4s. per doz.

ARABIS ALBIDA FOL. VAR.— Very pretty. 1 ft. 6d. each; 4s. per doz.

ARABĪS ALBIDA FL. PL. (Suowdrift)— Producing double flowers, compact growth, an acquisition, 6d.

ARABIS LUCIDA FOL. VAR.—For a permanent edging or spring bedding one of the hest plants in cultivation. 6d. each; 4s. per doz. ARABIS STURII—A pretty Alpine 9d.

ARENARIA BALEARICA - One of the dwarfest of plants, forming a dense green earpet upon stones; white flowers. 6d.

ARENARIA LARICIFOLIA-Pure white

flowers. 3 ft. 9d.

ARENARIA MONTANA - A prostrate creeping plant covered with large snow-white flowers; a gem for overhanging rocks, &c., or in 🗼 ft. 9d. the border.

ARENARIA PURPURASCENS-Purplish flowers, produced in abundance; forms a dwarf tufted mass of smooth narrow oval-pointed

leaves. 6d.

ARMERIA ALBA. 6d. each; 4s. per doz. ARMERIA RUBRA. 6d. each; 4s. per doz.

(Thrift), Charming little Alpine plants, forming dense tufts of minnte foliage; very useful and

pretty.

ARMERIA CEPHALOTES RUBRA -This and the two following form a group of Giant Thrifts; splendid border plants, flowers rosy red. 9d.

ARMERIA LAUCHEANA-Fine heads of

crimson flowers. § ft. 6d.
ARMERIA PLANTAGINEA RUBRA-

Dark rose; distinct foliage. 9d.

ARNEBIA ECHIOIDES (The Prophet Flower)-A showy Boragewort; flowers bright golden yellow with conspicuous black blotches;

quite hardy and showy. 1½ ft. 1s.

ARNICA MONTANA — Orange-yellow
flowers: a tufted plant. ¾ ft. 9d.

ARUM ITALICUM—Producing handsome foliage in winter and spring. 6d. each; 5s. per doz.

ARUNDO CONSPICUA-Strong growing grass, fine companion plant to the Pampas Grass; well snited for isolating on a lawn. 18.
ASARUM EUROPÆUM—Deep evergreen

leaves, excellent for furnishing ground beneath trees, curious brownish-purple flowers. 1/2 ft. 6d

ASCLEPIAS INCARNATA-Umbels of pink flowers; sweet scented; useful for bces 3 ft. 6d.

ASCLEPIAS TUBEROSA-Rich orange;

flowers in autumn. 1 to 2 ft. 6d.

ASPARAGUS VERTICILLATUS— Graceful foliage, useful for mixing with cut flowers. 9d.

HEXAPHYLLA - A tall ASPERULA species, with white flowers. $2\frac{1}{2}$ ft. 9d.

(Sweet-scented ASPERULA ODORATA Woodroff)-A plant that will thrive best under the shade of trees in moist soil. 1 ft. 6d.

ASPHODELUS LUTEUS-Spikes of yellow flowers 3 feet in height; narrow grass-like foliage. 6d.

ASPHODELUS RAMOSUS (King's Spear) -A bold and striking plant, spikes of white flowers; distinct. 3 ft. 9d.

ASTERS (Michaelmas Daisy)-See Col-

lection.

ASTILBE PANACHE - Silvery white spikes; effective. 1s.

ASTILBE PLUMET NEIGEUX-Large spreading plume-like panieles; pure white. Is.

ASTILBE RIVULARIS-Elegant plant, bearing long racemes of white flowers. 3 ft. 9d.

ASTILBE SILVER SHEAF (Gerbe d'Argent)-Creamy white spikes, freely produced; useful for forcing. 1s.

ASTILBE THUNBERGH - Beautiful foliage, with arching rosy-white spikes, when forced pure white; a pretty-habited plant. 2 ft. 6d. and 9d.

ASTRAGALUS HYPOGLOTTIS ALBUS —A fine free-growing prostrate plant. † ft. 9d.

ASTRAGALUS MONSPESULANUS -Purple flowers, of a shrubby nature. 1 ft. 9d.

ASTRANTIA MAJOR (Black Masterwort) -Showy; compact heads of pink and white flowers. 2 ft. 6d.

ATRAGENE ALPINA-The lovely Alpine Clematis, of comparatively dwarf habit; lavender, four petalled flowers. 1s. 6d.

AUBRIETIA DELTOIDEA - For edging and rockwork; violet-blue flowers. 6d. each;

5s. doz.

AUBRIETIA FIRE KING-Deep red or

AUBRIETIA GRÆCA SUPERBA- ()ne of the finest; compact habit; flowers large and fine. 6d. each; 5s. per doz.

AUBRIETIA HENDERSONI-Of a deep violet-purple colonr; very free; most effective. 6d. cach; 4s. per doz.

AUBRIETIA LEICHTLINI-1) warf habit ; of a carmine-rose shade; distinct. ½ ft. 6d.
AUBRIETIA PURPUREA VARIEGATA

-An elegant rock or edging plant. 6d. AUBRIETIA ROSEA-Soft rose-pink ; neat

and compact. 1 ft. 6d.

AUBRIETA TAURICOLA — A distinct species, forming dense cushions covered with rosy purple flowers; one of the most distinct.

AUBRIETIA WM. INGRAM-Large, decp,

rose-coloured flowers. 9d. AURICULAS, ALPINE-Of a most beantiful strain, and in great variety. 6s. & 10s. doz. BAMBUSA-A full collection from 9d. to

1s. 6d. each. BAPTISIA AUSTRALIS -- Bluc pea-shaped flowers; fine border plant. $2\frac{1}{2}$ ft. 9d.

BELLIS-See Index.

BETONICA GRANDIFLORA. 1 ft. 6d. BOCCONIA CORDATA (Plume Poppy)-

One of the finest hardy plants. 6 ft. 9d.

BOCCONIA MICROCARPA — A larger grower, distinct in foliage and flower, and a far more characteristic plant than preceding. 6 ft. 9d. and 1s.

BOLTONIA ASTEROIDES VAR. DECURRENS-Stems erect, glancous folinge, pure white daisy-like flowers; useful for cutting; much admired. 6d.

BOLTONIA LATISQUAMA-Tall-growing Aster-like flowers, pure white; useful for cutting. 6 ft. 9d.

BORAGO LAXIFLORA-A pretty plant, pale cernican blue. 2 ft. 6d.

BUPHTHALMUM CORDIFOLIUM-Foliage large; golden orange flowers. 3 ft. 9d.

BUPHTHALMUM SALICIFOLIUM -Orange-yellow; bushy habit. 6d.

CALAMINTHA ALPINA-Pretty for the rockery; flowers rosy purple and lasting a long

CALANDRINIA UMBELLATA-A pretty Alpine; magenta-crimson. 6d.

CALTHA PALUSTRIS FL. PL. (Double Marsh Marigold)—Fine for a moist spot; golden yellow flowers; showy and attractive. 1 ft. 6d.

CALLIRHŒ INVOLUCRATA - Showy, trailing hahit; large crimson flowers. 6d.

CALYSTEGIA- See Index.

CAMASSIA-See Bulb List.

CAMPANULA ABIETINA-Deep purplish hlue; dwarf and neat. 1 ft. 9d.

CAMPANULA ALLIARIAEFOLIA--Long spikes of drooping white flowers; vigorous and stately. 3 ft. 6d.

CAMPANULA BURGHALTI — Immeuse pale blue hells; handsome. 2 ft. 6d.

CAMPANULA CARPATICA-Large erect blue flowers. 1 ft. 6d.

CAMPANULA CARPATICA ALBA-Producing pure white flowers. 1 ft. 6d.

CAMPANULA CARPATICA PALLIDA-

Pale blue; pretty. 1 ft. 6d
CAMPANULA GARGANICA—Sheets of purplish flowers; fine for rockwork. 4 ft. 6d. CAMPANULA G. F. WILSON — Hybrid hetween C. pulla and turbinata; dark blue;

dwarf and compact. & ft. 6d. CAMPANULA GLOMERATA CŒRULEA

AND ALBA. 6d. each.

CAMPANULA GLOMERATA DAHU-RICA — A fine variety; deep purple-blue flowers. 2 ft. 6d.

CAMPANULA GRANDIFLORA (Platycodon)-Large hlue flowers in early autumn; effective. 2 ft. 9d.

CAMPANULA GRANDIFLORA ALBA-Large white flowers. 2 ft. 9d.

CAMPANULA GRANDIFLORA FL. PL. -Large blue semi-double flowers. 1s.

CAMPANULA GRANDIS—Large blue salver-shaped flowers. 2 ft. 6d.

CAMPANULA GRANDIS ALBA-Very free growing; useful for entting. 2 ft. 6d. each;

5s. per doz. CAMPANULA HENDERSONI-A hybrid of great merit; flowers large, of a pretty manve

shade. 1 ft. 9d. CAMPANULA HOSTII-A native of the

Alps; fine rock plant. 1 ft. 9d. CAMPANULA ISOPHYLLA ALBA-A dwarf species, pure white flowers. 1/2 ft.

CAMPANULA ISOPHYLLA MAYII-Light blue flowers; heautiful. 1s. 6d.

CAMPANULA LATIFOLIA-Stout stems, large blue flowers in great abundance. 3 ft. 6d. CAMPANULA LATIFOLIA ALBA—Pure white; a graud border plaut. 9d.

CAMPANULA LATIFOLIA MAC RANTHA-An extra fine form of the preceding.

CAMPANULA LACTIFLORA-Very pale blue flowers; immense spikes. 9d.

CAMPANULA MACRANTHA ALBA-Long white spikes; a noble border plant. 9d.

CAMPANULA MIRABILIS—Pale blue or lilac flowers, very free, of great beanty. 1s. 6d., and 2s. 6d.

CAMPANULA PULLA-Charming when seen in a mass; deep purple flowers. † ft. 9d. CAMPANULA PERSICIFOLIA—Flowers blue. 2 ft. 6d.

CAMPANULA PERSICIFOLIA ALBA FLORE PLENO-Flowers pure white; valuable for ent flowers. 2 ft. 6d. cach; 4s. per doz.

CAMPANULA PERSICIFOLIA CORO-NATA ALBA — A beautiful free-flowering variety. 9d. each; 6s. per doz.

CAMPANULA PORTENSCHLAGIANA (Muralis) - Distinct and pretty. ½ ft. 6d.

CAMPANULA PUMILA- tft. 6d. each; 5s. per doz.

CAMPANULA PUMILA ALBA-Very

neat and distinct. 4 ft. 6d.
CAMPANULA PYRAMIDALIS (Chimney Campanula)-A fine plant for the back of the herbaceous border, or for pot culture, forming a pyramid composed of numerous stems 4 to 5 feet in height, each stem crowded with large hlue anlver-like flowers. 6d.

GAMPANULA PYRAMIDALIS ALBA—Pretty. 4 to 5 ft. 6d. CAMPANULA PYRAMIDALIS COM-PACTA, SYON HOUSE-Distinct from the older form, being dwarfer and the flowers larger and of a deeper blue; quite hardy and well adapted for pot culture. 9d.

CAMPANULA PYRAMIDALIS COM-PACTA ALBA-A fine companion to the Syon House, but the flowers are pure white. 9d.

CAMPANULA RHOMBOIDALIS Flowers deep hlue, on slender stems. 1 ft. 9d. CAMPANULA TURBINATA-Large bell-shaped blnish purple flowers. 1/2 ft. 9d.

CAMPANULA URTICÆFOLIA FL. PL.—

A very old and useful form. 9d. CAMPANULA VAN HOUTTEI-A eharm-

ing hybrid; immense dark blue flowers 3 in. in length. 2 ft. 6d.

CARDAMINE PRATENSIS PLENA-Growing freely in any damp situation on the rockery and horder; purplish colour, changing to snowy-whiteness. 1 ft. 9d.

CARDAMINE TRIFOLIATA—Very pretty. white-flowering spring plant. 3/4 ft. 6d. CARDUUS HETEROPHYLLUS — Very

large purple flowers; orunmental. 3 ft: 6d. CARDUUS HETEROPHYLLUS ALBUS

-Pure white.

CATANANCHE BICOLOR-Free-growing effective border perennial; flowers blue and white. 2 ft. 6d. each; 5s. doz.

CATANANCHE CCERULEA - Easily

growu, free hlooming, useful; blue. 2 ft. 6d.

(99)

CENTAUREA BABYLONICA-Tall leafy rigid stems, 5 ft.; covered with yellow flowers, foliage is very thick and hoary. 9d.

CENTAUREA DEALBATA-Showy rose-

coloured flowers. 6d.
CENTAUREA GLASTIFOLIA—Graeeful habit; flowers golden yellow. 6d.

CENTAUREA MACROCEPHALA - A strong growing form, large bright yellow flowers. 31 ft. 9d.

CENTAUREA MONTANA (The Perennial Cornflower)—Blue, very useful for entting purposes. $1\frac{1}{2}$ ft. 6d.

CENTAUREA MONTANA ALBA-Very usefnl. $1\frac{1}{2}$ ft. 6d.

CENTAUREA MONTANA RUBRA-Red flowers, quite distinct from the form usually sold under this name. 6d.

CENTAUREA MONTANA SUL-PHUREA—Soft straw colour. 6d.

CENTAUREA RUTHENICA-Useful border plant; flowers pale yellow. 3 ft. 9d.

CENTRANTHUS ALBA AND RUBER -Both fine for cutting. 6d. each.

CEPHALARIA ALPINA-A sulphurflowered Scabious; fiue border plant. 4 ft. 6d.

CEPHALARIA TARTARICA - Yellow Scabious-like flowers; a fine specimen plaut. 5 ft. 9d.

CERASTIUM TOMENTOSUM - A wellknown rock or earpeting plant. 6d. each; 2s. per doz.

CHEIRANTHUS ALPINUS - Forming dense cushions covered with sulphur-coloured flowers. 1 ft. 6d.

CHEIRANTHUS CHEIRI LUTEUS PLENUS (Double Yellow Wallflower)—A free-flowering old favonrite. 14 ft. 9d. CHEIRI LUTEUS

CHEIRANTHUS MARSHALLI-Orange colour; fragrant; nseful for eutting. 1 ft. 9d. CHEIRANTHUS VERSICOLOR

leni)-Mahogany and violet shaded. 1 ft. 9d. CHELONE OBLIQUA ALBA—A white owered variety. 3 to 4 ft. 6d.

flowered variety. 3 to 4 ft. 6d. CHELONE OBLIQUA, (Snake's-head).— 3 to 4 ft. 9d.

CHIONODOXA-See Bulb List.

CHRYSANTHEMUM-For snmmer-flowering varieties, see Catalogue.

LATIFOLIUM-CHRYSANTHEMUM Pure white, yellow centre; one of the best late hardy Margnerites. 3 ft. 6d.

CHRYSANTHEMUM LATIFOLIUM, TOP SAWYER-Flowers immeuse, snow white, 3 to 4 ft. 9d.

CHRYSANTHEMUM LEUCANTHE-MUM SEMI-DUPLEX-A distinct and useful plant for cutting; flowers pure white, double. I to 2 ft. 9d.

CHRYSANTHEMUM MAXIMUM (True)

One of the most useful Perennials in commerce; large, well-formed, pure white flowers. 2 ft. 6d.

CHRYSANTHEMUM MAXIMUM, DUCHESS OF ABERCORN—A beautiful fimbriated form of Maximum; one of the best. 6d.

CHRYSANTHEMUM MAXIMUM FILI-FORME—Petals pure white, broad and over-lapping, the ends of each petal deeply cut into narrow segments, giving it a most graceful appearance. 6d.

CHRYSANTHEMUM MAXIMUM FILI-FORME, G. H. SAGE-Large snowy white flowers, petals notched; very free flowering and elegant, 6d.

MUMIXAM CHRYSANTHEMUM GRANDIFLORUM-A fine variety, flowers very large, broad petals, of great substance, robust and free. $2\frac{1}{2}$ ft. 9d.

CHRYSANTHEMUM MAXIMUM, MAURICE PRICHARD - Flowers very large, of the purest white; erect habit; very fine. 9d.

CHRYSANTHEMUM MAXIMUM, MRS. HEAD-Very large pure white flowers, 4 in. in diameter, petals broad, and of great substance. 9d.

CHRYSANTHEMUM MAXIMUM, PRINCESS HENRY - Large pure white flowers; very hardy. 9d.

CHRYSANTHEMUM ULIGINOSUM -See Pyrethrum Uliginosum.

HOOKERI-Bean-CHRYSOBACTRON tiful yellow Asphodel-like plant. 9d.

VIRGINICUM - A CHRYSOGONUM distinct and pretty plant, flowering for a long time; yellow. 9d.

CIMICIFUGA DAHURICA-A very haudsome plant both in foliage and flower, very large cylindrical spikes of creamy white flowers.

CIMICIFUGA JAPONICA (syn. Pityrosperma Acerinum) Forming a mass of pretty glisteuiug green foliage, numerous erect stems and spikes of feathery-white flowers in late summer. 2 ft. 9d.

CIMICIFUGA RACEMOSA - Handsome foliage, long feathery spikes of white flowers. 3 to 5 ft. 9d.

CIMICIFUGA SERPENTARIA - Naked erect stems and spikes of feathery-white flowers in October; very showy. 9d. CISTUS—See Index.

CLAYTONIA CAROLINEANA - Pretty rose-coloured flowers; it usually grows in moss in shady positions. 9d.

CLEMATIS DAVIDIANA—Large elusters of sweetly perfumed Hyacinth-like porcelain blue flowers. is.

CLEMATIS INTEGRIFOLIA-A herbaceous species, with elegant bell-like purple flowers. 2 ft. 9d.

CLEMATIS—For other varieties see Index.

COLCHICUM—See Bulb List.

CONVALLARIA (Lily of the Valley)—See Bulb List.

CONVOLVULUS-See Index.

COREOPSIS GRANDIFLORA—Yellow; a

large free-flowering variety. 3 to 4 ft. 6d. COREOPSIS LANCEOLATA — A handsome kind, flowering nearly all the summer; hright yellow. 2 ft. 6d.

CORONILLA IBERICA-A capital rock or border plant; large yellow pea-shaped flowers;

trailing habit. 9d.

CORYDALIS NOBILIS—The handsomest of this family; flowers rich goldca yellow. 1 to 1 ft. 9d.

CRAMBE CORDIFOLIA (Wild Seakale) -A showy plant for the wild garden, shruh-eries, &c. 9d.

beries, &c.

CRUCIANELLA STYLOSA-A neat trailing plant; globular heads of rose flowers. 6d.

CYCLAMEN-The greenhouse varieties are familiar to everyone, but how few have any idea of the modest heauty of the hardy species; they only require planting in light loamy soil, in a shady position. 4 to 4 ft. high.

CYCLAMEN AFRICANUM (Maorophyl-

lum)-Large red flowers in autumn.

CYCLAMEN ATKINSI ALBUM-White;

winter flowering. 1s.
CYCLAMEN ATKINSI PURPUREUM— Bright purple. 9d.

CYCLAMEN COUM-Red; flowers in Feh-

ruary. 6d. CYCLAMEN EUROPÆUM — Summer flowering, rosy pink; very free. 6d.

CYCLAMEN HEDERÆFOLIUM-Rose, foliage marbled; autumnal: one of the best. 9d. CYCLAMEN HEDERÆFOLIUM ALBUM -Pure white. 9d.

CYCLAMEN IBERICUM-White flowers,

hright purple spot at the hasc. 9d.

CYCLAMEN REPANDUM VERNUM-

Deep reddish crimson. March. 9d.

CYPRIPEDIUM ACAULE (Stemless Lady's Slipper)-Flowers rosc colour, varying in shade to almost white, but invariably tinted with rose. $\frac{1}{2}$ ft. 1s. 6d. to 2s. 6d.

CYPRIPEDIUM CALCEOLUS (English Lady's Slipper)-Sepals and petals of a brownish purple, and the lip of a clear bright yellow.

1 ft. 1s. and 1s. 6d.

CYPRIPEDIUM MACRANTHUM (Siberian Lady's Slipper)—Flowers of a rich purplish crimson colour. 1 ft. 2s. 6d. and 3s. 6d.

CYPRIPEDIUM PARVIFLORUM-Fragraut flowers, with a hright yellow lahellum; sepals and petals of a hrownish purple. 11 ft.

CYPRIPEDIUM SPECTABILE -- Lahellum is much inflated; delicate rose colour, sepals and pctals white. One of the hest species for all purposes. 1½ ft. 1s. 6d. and 2s. 6d. DACTYLIS—See Index.

DAFFODILS-See Bulb List.

DAISIES-See Collection.

DELPHINIUMS-See Collection.

DIANTHUS ANNULATUS—A very heautiful rock plant. 1 ft. 6d.
DIANTHUS ALPINUS (Alpine Pink)—

Rose flowers, spotted crimson. 1 ft. 1s.

DIANTHUS BARBATUS MAGNIFICUS FL. PL. -Large heads of deep crimson; double flowers, 6d.

DIANTHUS CŒSIUS - Rose coloured; very fragrant. & ft. 6d.

DIANTHUS CRUENTUS-Deep crimsonscarlet. 1 ft. 6d.

DIANTHUS FRAGRANS. 1 ft. 6d.

DIANTHUS KNAPPII - A yellow-flowered species. 9d.

DIANTHUS NEGLECTUS - One of the Dest; hright rosy pink; compact tufts. 1 ft. 1s. DIANTHUS SUAVIS—A heautiful little

DIANTHUS SYLVESTRIS-Bright rosecoloured flowers; useful. 1s.

DICTAMNUS FRAXINELLA - Curious red flowers; fine horder plant. 3 ft. 9d.

DICTAMNUS FRAXINELLA

-White, fragrant. 6d.

DICTAMNUS GIGANTEUS -An improve-

ment on Fraxinella. 1s. 6d.

DIELYTRA (DICENTRA) EXIMIA-A charming spring-flowering plant, racemes of drooping reddish-purple flowers; fine for spring decoration. $1\frac{1}{2}$ ft. 9d.

DIELYTRA FORMOSA—Also a very useful

and pretty variety. $1\frac{1}{2}$ ft. 6d.

DIELYTRA SPECTABILIS-One of the finest spring-flowering plants, either for border or greenhouse, that we possess; well known. 2 ft. 6d.

DIELYTRA SPECTABILIS ALBA-White, faintly flushed pink; beautiful. $1\frac{1}{2}$ ft. 1s. and 1s. 6d.

DIGITALIS GRANDIFLORA - Yellowflowered perennial Foxglove. 3 to 4 ft. 6d.

DODECATHEON JEFFREYANUM-The largest of this group; drooping rose-coloured flowers, with yellow centres. 1 ft. 9d. and 1s.

DODECATHEON MEADIA (The Amerioan Cowslip) — Bearing umhels of purple flowers; form of flower somewhat like the Cyclamen; quite hardy. 1 ft. 6d.

DODECATHEON SPLENDIDUM (Shooting Star)-Deep crimson colour; a little gem

for a cool, shady spot. 1 ft. 9d.

DORONICUM AUSTRIACUM — Bright golden yellow; very effective. 11 ft. 6d. each; 5s. per doz.

DORONICUM CLUSII-Rich yellow flowers, very free and effective. 11 ft. 6d.

DORONICUM PLANTAGINEUM EX-CELSUM (Harpur Crewe)-A grand variety, producing freely large, bright yellow flowers; the finest for cutting purposes 2 to 3 ft 6d.

DRABA AIZOIDES—A pretty yellow spring-flowering rock plant.

ft. 64.

DRABA BRUNLÆFOLIA-Dark foliage, yellow flowers; a useful rock plant. 1 ft. 9d. DRABA LASIOCARPA—Distinct; early spring; golden yellow flowers. 9d.

DRACOCEPHALUM RUPRECHTI— Lilac-blue. 1 ft. 6d.

DRACOCEPHALUM VIRGINICUM -Pink flowers along the two-thirds the height of stems. $2\frac{1}{3}$ ft. 6d.

DRACOCEPHALUM VIRGINICUM ALBUM-Long spikes of pure white flowers. 2 ft. 9d.

DRYAS OCTOPETALA-A ereeping evergreen plant; white flowers and yellow stamens;

ECHINACEA (RUDBECKIA) ANGUSTI-FOLIA—More graceful than Purpurea; longer and narrower foliage, more sleuder stems; abundance of flowers. 1s.

ECHINACEA PURPUREA (Rudbeckia)-Very stately autumn flowering perennial, with large reddish purple flowers on stems 3 feet in height. 9d.

ECHINOPS BANNATICUS-Very large heads of pale blue flowers. 4 ft. 9d.

ECHINOPS RITRO (Globe-Thistle) — A handsome foliage plant, having also globular heads of rich blue flowers. 2 ft. 6d.

ECHINOPS RUTHENICUS - Blue; showy border plant. 2 to 3 ft. 9d.

ECHINOPS SPHÆROCEPHALUS -Flower beads white. 6d.

EDELWEISS-See Gnaphalium.

EPILOBIUM ANGUSTIFOLIUM-Adapted for shrubberies, borders, &c. 3 to 4 ft.

EPILOBIUM ANGUSTIFOLIUM ALBUM-A pretty white-flowered variety, 6d. EPILOBIUM FLEISCHERI-Rosy purple flowers; useful for rockery. 1 ft. 9d.

EPIMEDIUM ALPINUM (Barren Wort)-Yellow and crimson; elegant group of rock or 6d. border plants. 1 ft.

EPIMEDIUM MACRANTHUM - White,

tinged violet. 9d.

EPIMEDIUM RUBRUM-Reddish brown.

EPIMEDIUM NIVEUM—Capital plant for forcing; white. 1 ft. 9d.

EPIMEDIUM PINNATUM-Bright yellow.

EPIMEDIUM SULPHUREUM-Pale yel-

ERANTHIS-See Bulb List.

EREMURUS BUNGEI - Long spikes of straw-coloured flowers, with conspicuous anthers; very rare and beautiful. 12s. to 15s.

EREMURUS HIMALAICUS - Spikes of pure white flowers; hardy and free flowering 2s. 6d. to 5s.

EREMURUS OLGÆ-Dense spikes of rosy flesh-coloured flowers. 3 ft. 10s. 6d.

EREMURUS ROBUSTUS-Of a lovely pink, sweet scented, massive spikes, 7 to 8 feet high, native of Turkestan. Small plants, 3s. 6d.

AURANTIACUS -ERIGERON bright orange flowers, on stems 9 inches high. 6d. ERIGERON COULTERI - Pure white,

grows in any soil or situation. 9d.

ERIGERON GLABELLUS - Blue and yellow flowers; dwarf. 1/2 ft. 6d.

ERIGERON GLAUCUS - Large deep violet-blue flowers; neat and compact tufts. ft. 9d

ERIGERON PHILADELPHICUS-Free flowering rose-colonred variety. 6d.

ERIGERON ROYLEI -- Purplish blue flowers; May flowering; distinct. 1s.

ERIGERON SALSUGINOSUS (Gray)— Large; flowers in Junc. 1s. 6d.

ERÍGERON SPECIOSUS SUPERBUS-Large blue flowers, yellow centres; fine for the autumn. 2 ft. 6d.

ERINUS ALPINUS—Rose colonr, suitable for old walls, &c. $\frac{1}{4}$ ft. 6d. each; 4s. per doz. ERINUS ALPINUS ALBUS—White. 1 ft. 6d.

ERODIUM MACRADENIUM-Fern-like foliage rose-coloured flowers, blotched black. 1 ft. 6d.

ERODIUM MANESCAVI-A showy handsome species, purplish red flowers. 1 ft. 6d. ERODIUM REICHARDI—White flowers;

a pretty little Alpine. 1/4 ft. 9d.

ERYNGIUM ALPINUM—One of the hest; involucres large; bracts very large and deeply cut; of a rich metallic blue. $2\frac{1}{2}$ ft. 9d.

ERYNGIUM DICHOTOMUM - Glohose heads of small blue flowers. July-Ang. 6d.

ERYNGIUM GIGANTEUM — Effective. 1½ ft. 6d. each; 5s. per doz.

ERYNGIUM MARITIMUM (Sea Holly)-Pale blne; glaucous foliage. 1½ ft. 9d.

ERYNĞIUM OLIVERIANUM-Should be in every collection; stem and flowers a fine amethystine blue. 2½ ft. 9d. ERYNGIUM PLANUM — Good border

plant; distinct. 2 ft. 6d.

ERYNGIUM SERRA-Spikes of white and green flowers; handsome foliage. 1s.

EURYBIA GUNNIANANA-Erect muchbranched shrub, aster-like flowers of snowy whiteness. 2 ft. 1s. and 1s. 6d.

ERYTHRONIUM- See Bulb List,

EULALIA GRACILLIMA (Miscanthus sinensis) Long grass-like foliage, very narrow, drooping gracefully at the points. 9d. and 1s.

EULALIA JAPONICA, FOL. VAR.—A strong and elegant grower; leaves white and green; useful for grouping. 1s. and 1s. 6d.
EULALIA JAPONICA ZEBRINA—A

striking foliage plant, transverse yellow markings; handsome. 5 ft. 9d., 1s., and 1s. 6d.

EUPATORIUM PURPUREUM-Branching heads of purple flowers. 6-7 ft. 9d.

EUPHORBIA CYPARISSIAS-A pretty plant for covering dry banks under trees, &c. 6d. EUPHORBIA PILOSA MAJOR (Polychroma)-Large dense flat gorgeous heads of

rich yellow; effective. Is. and 1s. 6d. FERNS, HARDY-See ludex.

FERULA GIGANTEA—Attractive during the early Spring. When it has arrived at maturity, it is one of the graudest hardy foliage plants. 5 ft. 1s.

FESTUCA-See Index.

FRANCOA APPENDICULATA—Spikes of pink flowers. 2 ft. 9d.

FRANCOA RAMOSA — Fine racemes of white flowers. $1\frac{1}{2}$ -2 ft. 9d.

(102)

FRITILLARIA-See Bulb List.

FUCHSIA RICCARTONI - One of the bardiest and pretticst of ontdoor kinds. See Fuchsias. 6d. and 9d.

FUNKIA FORTUNEI—Blue-green foliage; distinct. 1 ft. 9d.

FUNKIA OVATA, syn. HEMEROCAL-LIS CŒRULEA-Large green foliage, flowers purple. 6d.

FUNKIA SIEBOLDI-Ornamental. 11 ft.

9d.

GRANDI-FUNKIA SUBCORDATA FLORA- Broad green leaves and noble spikes of pure white flowers. 13 ft. 9d.

FUNKIA UNDULATA FOL. VAR.-1 ft.

GAILLARDIA GRANDIFLORA - See Collection.

GALANTHUS - See Bulb List.

GALEGA OFFICINALIS—Of free growth 6d.

GALEGA OFFICINALIS COMPACTA -Grand for cutting; rich rosy purple. 6d.

GALEGA OFFICINALIS ALBA-Strong growing white, pea-shaped flowers; very useful for entting. 3-4 ft. 6d.

GALTONIA CANDICANS—See Index.

GAULTHERIA PROCUMBENS-A dwarf ereeping evergreen shrub, covered with searlet 1s. berries.

GENISTA ANDREANA - Upper petals golden-yellow, lower petals rich velvety erimson; very free and effective. 1s.

GENISTA TINCTORIA HUMIFUSA—

Deep yellow flowers, prostrate habit. 1s. 6d.

GENISTA SAGITTALIS-Forms masses of peenliarly winged and jointed branches destitute of leaves; showy spikes of yellow flowers.

GENISTA TINCTORIA FL. PL.—Snitable

for the rockery. 9d.

GENTIANA ASCLEPIADEA — Spikes of

dark purplish blne. 2 ft. 9d.
GENTIANA ACAULIS—The Gentianella; charming eushions of leathery glossy foliage, erect bell-shaped flowers of intense blne. 1 ft. 6d. each; 5s. per doz.

GENTIANA ANDREWSI-Rich purplish

blue; one of the handsomest. 1-2 ft. 1s. GENTIANA CRUCIATA—A vigorous growing species, flowers deep blue. 1-14 ft. 6d.

GENTIANA LUTEA-Rich yellow flowers, bold habit. 3-4 ft. 1s.

GENTIANA PNEUMONANTHE—Light blue flowers; fine. 3-1 ft. 9d. GENTIANA VERNA—It forms dense tufts of deep green glossy foliage, and in early spring is covered with brilliant blue flowers, with a white or yellow eye; sneceeds best in a ricb loamy soil. \(\frac{1}{4}\) ft. 9d.

GERANIUM-See Collection.

GERANIUM SANGUINEUM ALBUM-Pure white flowers, and prostrate growing; free growing, 9d.

GEUM COCCINEUM PLENUM-One of the finest of our bardy perennials; large double flowers of a dazzling scarlet. 11 ft. 6d.

GEUM EWENII-Bright orange; early; splendid. 6d.

GEUM MINIATUM—Distinct; rich orange-coloured flowers. $1\frac{1}{2}$ ft. 9d.

GEUM MONTANUM—Useful for rockwork or border; compact tufts; clear bright yellow. } ft. 6d.

GEUM MONTANUM MAXIMUM -Flowers large, deep yellow; very free and distinct in every way from all others 9d.

GILLENIA STIPULACEA - Numerons flowers on graceful stems, pure white, showy. 2½ ft. 1s.

GILLENIA TRIFOLIATA—Large panicles of pink and white flowers. 2-3 ft. 9d.

"GLADIOLI - See Index.

GLOBULARIA CORDIFOLIA-Fine rock plant; evergreen foliage, blue flowers.. & ft. 1s.

GLOBULARIA TRICHOSANTHA-Flowers dark blue, in globular heads. 3 ft. 6d.

GNAPHALIUM LEONTOPODIUM (The Edelwoiss) - A enrions Alpine species, producing heads of flowers cuveloped in a soft silky substance like cotton-wool. Easily grown on a raised border or piece of rockwork, in very sandy soil mingled with stones. \(\frac{1}{2} \) ft. 6d.

GUNNERA MANICATA -Large, bandsome

foliage. 4-5 ft. 3s. 6d. and 5s.
GUNNERA SCABRA—A native of the Andes. A fine plant for open spaces, on lawns, or the margin of lakes. 3-5 ft. 1s. and 1s. 6d.

GYNERIUM ARGENTEUM (Pampas Grass). 1s. to 2s. 6d.

GYPSOPHILA CERASTIOIDES-A pretty trailing plant; flowers white, streaked violet. 4 ft. 9d.

GYPSOPHILA PANICULATA - Forming a symmetrical bash about 2 feet high, and covered with miniature white flowers. 6d.

GYPSOPHILA PROSTRATA - Compact trailing habit; white flowers; a charming rock plant. \(\frac{1}{2} \) ft. \(6d. \) each; \(5s. \) per doz.

GYPSOPHILA REPENS MONSTROSUM -Early flowering; pure white dwarf, and continnous flowering. 1 ft. 1s. HACQUETIA—See Dondia.

HARDY FERNS-See Collection.

HARDY HEATHS-In variety. 12s. to 18s. doz

HARPALIUM RIGIDUM (Helianthus)-One of the best of our antumn plants; flowers large, of a bright golden yellow, black disc; free and showy. 3 ft. 6d. each; 4s. per doz.

HARPALIUM RIGIDUM (Miss Mellish's variety)-The best of all the family. 6d.

HEDERA - See Index.

MULTIJUGUM -HEDYSARUM useful plant; pea-shaped flowers of a crimson purple; effective. 9d. and 1s.

HEDYSARUM OBSCURUM-A brilliant and compact perennial. 1 ft. 9d.

HELENIUM AUTUMNALE - Flowers large, hright yellow, and produced in abundance; very useful for cutting purposes. 5-6 ft. 6d.

HELENIUM AUTUMNALE SUPER-**BUM**—Light yellow flowers, large branching heads. 6 ft. 9d.

HELENIUM BIGELOWI- Rich yellowhrown disc. 4 ft. 9d.

HELENIUM BOLANDERI-Dwarf habit, with large yellow flowers, centre black. 5-6 ft. 9d.

HELENIUM GRANDICEPHALUM-Yellow; very vigorous. 1-12 ft. 9d.

GRANDICEPHALUM HELENIUM STRIATUM-Large branching masses of bright orange flowers, splashed with crimson. 31 ft. 6d.

HELENIUM HOOPESII—Rich vellow. brownish centre, immense heads; very free aud good. 2 ft. 6d.

HELENIUM PUMILUM - Of a dwarfer hahit than the above; free. 3 ft. 6d.

HELIANTHEMUMS -- See Collection.

HELIANTHUS DECAPATALUS. 4-5 ft. 6d. each; 5s. per doz.

HELIANTHUS MULTIFLORUS GRANDIPLENUS (Soleild'Or)—Largedouble yellow flowers; the finest of this class. 6d.

HELIANTHUS LÆTIFLORUS — Rich golden yellow; free. 3 ft. 9d.

HELIANTHUS MULTIFLORUS (Bouquet d'Or)-One of the finest, florets are all very fine, and flowers remarkably double. 9d.

HELIANTHUS MULTIFLORUS (The Great Perennial Single Sunflower) - Grows from 3 to 4 feet high, and has a brilliant effect planted in masses, in shrubby borders, and other places. 4-5 ft. 6d. each; 5s. per doz.

HELIANTHUS MULTIFLORUS PLENUS (The Double Perennial Sunflower) —A vigorous growing perennial, large double deep yellow flowers; very neeful for entting. 4 ft. 6d. each; 5s. per doz.

HELIANTHUS STRUMOSUS - Small flowers, useful for cutting. 3-4 ft. 6d.

HELIOPSIS B. LADHAMS-Long elegant footstalks, large golden-yellow flowers. 4 ft. 9d.

HELIOPSIS LÆVIS-Deep orange, fine for cutting; dwarf. 6d.

HELIOPSIS PITCHERIANUS - Deep rich orange flowers; a curious specimen of duplicature. 9d.

HELIOPSIS SCABRA-Suitable for mixed border; flowers hright orange. 3 ft. 6d. HELIOPSIS SCABRA MAJOR-Flowers

hright yellow, closely allied to the Sunflower. 3½ ft. 6d.

BELLEEORUS ATRORUBENS-Bright rosy purple. 1 ft. 1s.

HÉLLEEORUS CAUCASICUS PUNCTA TUS-Very free, rosy crimson flowers, spotted deeper. 1 ft. 1s.

HELLEBORUS COLCHICUS "COCOI-NEUS"-Widely expanded bell-shaped flowers of a clear purplish carmine colour; very floriferous and robust in hahit. 1 ft. 2s. 6d.

HELLEBORUS FŒTIDUS-Green flowers; a pretty winter foliage plant. 1 ft. 9d

HELLEBORUS GUTTATUS - White, freely spotted purple. 1 ft. 1s.

HELLEBORUS NIGER (Christmas Rose) -Perfectly hardy, and if planted in the garden and taken np and potted when it hecomes large clumps, and placed in a cold frame, it will continue to give a profusion of flowers for two months, with no other trouble than the ordinary watering. 1s. 6d. each; 15s. per doz.; smaller, 12s. per doz.

HELLEBORUS NIGER ALTIFOLIUS (Maximus)-Very large and fine, far surpassing the type for cutting purposes. 1-2 ft. 1s. 6d. and 2s. 6d.

HELLEBORUS NIGER ANGUSTI-FOLIUS (St. Bridgid's Christmas Rose)-Very large, free blooming, of the purest white. 1 ft. 1s. 6d. and 2s. 6d.

HELLEBORUS NIGER MAJOR-Wonderfully free-flowering; large white flowers. 1s. 6d. and 2s. 6d.

HELLEBORUS OLYMPICUS — White

slightly tinged green. 1s.

HELLEBORUS ORIENTALIS — Deep purple-red; one of the most effective. 1s. each; 9s. per doz.

HELLEBORUS PURPURASCENS-Flowers large, dove-coloured iuside and out; one of the earliest in bloom. \(\frac{3}{4}\) ft. \(2s. 6d.\)

HEMEROCALLIS AURANTIACA MAJOR — A beautiful variety, rich orange-yellow flowers, distinct. 2 ft. 1s. 6d. aud 2s. 6d

HEMEROCALLIS DISTICHA FL. PL.-Bronzy yellow; flowers large and double. 3 ft. 9d.

HEMEROCALLIS FLAMID - A pretty garden hybrid, as it flowers nearly a month earlier than any other variety; flowers are a pretty shade of orange-yellow, very free, distinct.

HEMEROCALLIS DUMORTIERI -Flowers soft rich yellow; a gem for the border or rockery; nseful for cutting. 1 ft. 6d. and 9d.

HEMEROCALLIS FLAVA (Day Lily)-Golden yellow, very fragrant; fine for cutting and foreing. 3 ft. 9d. each; 7s. 6d. per doz.

HEMEROCALLIS FULVA-Large tawnyorange flowers and handsome foliage. 3 ft. 6d. HEMEROCALLIS HYBRIDA

SOVEREIGN - Soft orange yellow; large well-formed flowers and petals. 2s.
HEMEROCALLIS KWANSO FL. PL.

FOL.VAR.—Ornamental foliage; fine. 3ft. 9d. HEMEROCALLIS MIDDENDORFIANA -Terra-cotta coloured flowers; very useful for cutting; distinct. 23 ft. 9d.

HEMEROCALLIS THUNBERGI-Deep snlphury yellow; fragrant; very useful for entting. $2\frac{1}{2}$ ft. 9d. HEPATICA TRILOBA-

Single hlue " 1 ft. Single white (11 9d. Single red each. Donble red 2.1

Double blue. 1s. 6d. HEPATICA ANGULOSA — Largest and

earliest; sky-blne. ½ ft. 6d. HERNIARIA—See Index.

HESPERIS MATRONALIS—See Rockets. HEUCHERA BRIZOIDES-A very distinct plant, handsome dark hronzy foliage and slender

spikes of crimson flowers; very pretty. 9d.
HEUCHERA ERUBESCENS — Tufts of greyish marbled green foliage, with erect spikes of small white flowers, faintly tiuted red; a fiac

rock plant. 2 ft. 9d. HEUCHERA MICRANTHA — Tinged white flowers; graceful s ikes. 9d.

HEUCHERA RICHARDSONI-A beautiful foliage plant; pale brown flowers. 9d. HEUCHERA SANGUINEA(AlumRoot)-

One of the hest garden plants; exquisite flowers for cutting; light coral-scarlet; dwarf, compact, branching growth. 13-2 ft. 6d.

HEUCHERA SANGUINEA ALBA-Long slender flower stalks, covered with blossoms of a French white tint, similar in habit and growth to the type. 9d.

HIERACEUM VILLOSUM-Large goldenyellow flowers, suitable for rockwork or horder.

} ft. 6d.

HOLLYHOCKS-See Index.

HOUSTONIA CŒRULEA - Pale blue flowers; a pretty plant for a shady ledge.

HUTCHINSIA ALPINA A compact Alpine; snow-white flowers. 9d.

HYACINTHUS-See Index. HYDRANGEA-See Index

HYPERICUM ANDROSÆMUM-Amber.

coloured flowers. $2\frac{1}{2}$ ft. 9d.

HYPERICUM CALYCINUM (Rose of Sharon, St. John's Wort)—Bright yellow flowers, 1 ft. 6d.

HYPERICUM MOSERIANUM-Very fine; hright yellow flowers. 2-3 ft. 9d.

HYPERICUM MOSERIANUM COLOR-Large golden-yellow flowers, scarlet stamens, leaves greea shaded yellow. 1s,

HYPERICUM OLYMPICUM — Golden yellow flowers; distinct.

HYPERICUM PATULUM-Forming neat

and well-shaped hushes. 3 ft. 6d.

HYPERICUM REPENS—Prostrate habit;

golden-yellow flowers; a pretty plant. 9d.
HYPERICUM REPTANS—A pretty trailing species, useful for rockwork; large flowers.

IBERIS CORRŒFOLIA-One of the finest of the evergreen Candytufts; pure white, flowers early in spring; very useful for cutting. 3/4 ft. 6d. each; 5s. per doz

IBERIS LINIFOLIA—Very compact grow-

ing variety. -6d.

IBERIS SEMPERFLORENS. 6d. each; 5s. per doz.

IBERIS SEMPERVIRENS FLORE PLENO (Double White Perennial Candytuft) -For edgings, beds, horders, rockwork, &c. It is a dwarf, compact and beantifully-rounded hash. 6d. each; 4s. doz.

IBERIS SEMPERVIRENS, LITTLE GEM-Dwarf compact habit, white flowers,

very free. 6d.

IBERIS SEMPERVIRENS SUPERBA -Pure white flowers in very large heads, good for cutting; heantiful. 6d.

INCARVILLEA DELAVAYI-A splendid hardy plant, large flowers ranging from rose to

carmine. 1s. to 2s. 6d.

INCARVILLEA OLGÆ -- Compact, hut finely divided foliage, bright rose trumpet-shaped flowers; handsome. 3; ft. 1s.

INULA ENSIFOLIA - Distinct, yellow;

very free. 9d, INULA GLANDULOSA — Large golden yellow, wonderfully effective, and much admired. 9d, and 1s.

INULA HELENIUM — Large heads of bright yellow flowers. 1-1½ ft. 6d.
INULA ROYLEI — Rich orange-yellow;

very handsome. 2s.

IRIS-See Collection.

ISOPYRUM THALICTROIDES - White flowers, Maidenhair-like foliage. 1s.

IXIA -See Bulb List.

KNIPHOFIAS-See Tritomas.

LATHYRUS GRANDIFLORUS (Biflorus) -The finest of the Perennial Peas, flowers very large, of a hright crimson-scarlet, produced in ahundance. 4 ft. 9d.

LATHYRUS LATIFOLIUS (The Perennial Pea)—Having red flowers in hnnehes. 4 ft. 6d.

LATHYRUS LATIFOLIUS ALBUS-One of the finest white flowers in cultivation for eutting purposes. 4 ft. 1s.

LATHYRUS LATIFOLIUS SPLEN-

DENS-A fine dark variety. 4 ft. 1s.

LAVENDULA SPICATA (Lavender). 6d. each; 4s. per doz.

LEUCOJUM—See Bulh List.

LIATRIS GRAMINIFOLIA, var. DUBIA -Long handsome spikes of bright rosy purple flowers, 1s, 6d.

LIATRIS PYCNOSTACHYA-Long spikes

of purple flowers. 3 ft. 9d.
LIATRIS SPICATA—Purple. 1½ ft. 6d.
LIBERTIA IXIOIDES — Pure white flowers; grassy foliage. 9d.

LILIES—See Collection.

LINARIA CYMBALARIA (Ivy-leaved Toad Flax)-Pretty for dry sunny spots. 6d. LINARIA DALMATICA - Rich golden-

yellow; very striking and free. 6d. LINARIA HEPATICÆFOLIA—A pretty erecping species from Corsica; marbled foliage; flowers white tiuted. 9d.

LINUM ARBOREUM — Free flowering, requiring a sunny position on borders or rockwork, in sandy, well-draiged soil. 1 ft. 9d.

LINUM FLAVUM-An invalnable horder or rock plant. $1-1\frac{1}{2}$ ft. 9d.

LINUM MONOGYNUM-Large pure white flowers; fine 9d.

LINUM NARBONENSE - The finest perennial blue flax. 11 ft. 9d.

LITHOSPERMUM PROSTRATUM-Rich blue; one of the best rock plants. \(\frac{1}{2} \) ft. 9d.

LITHOSPERMUM PURPUREO-CŒRU-LEUM-A vigorous trailing species with blue flowers, useful for covering large boulders, &c.

LOBELIAS—See Collection.

LOTUS CORNICULATUS FL. PL. -Pretty. 6d. each; 4s. per doz.

LUPINUS ARBOREUS (Tree Lupin)—Fine yellow. 2.4 ft. 9d.

LUPINUS ARBOREUS, SNOW QUEEN -A pure white form of the above, a splendid plant. 1s.

LUPINUS FOXII-Dark purple and white . fine for cutting. 9d.

LUPINUS NOOTKATENSIS - Blue and white; dwarf variety. 1\frac{1}{2} ft. 9d.

LUPINUS POLYPHYLLUS — A grand

border plant. 4 ft. 6d.

LUPINUS POLYPHYLLUS ALBUS—A showy plant for borders. 4 ft. 6d.

LYCHNIS ALPINA-Rose coloured; dwarf

aud pretty. ½ ft. 6d.
LYCHNIS CHALCEDONICA FL. PL.-

Immense heads of double scarlet flowers; fine for entting. 3 ft. 9d.

LYCHNIS CHALCEDONICA ALBA FL.

PL.—White; very finc. 3 ft. 1s. LYCHNIS DIOICA RUBRA FL. PL.—A very handsome neat border plant; large double crimson flowers; fine for massing and cutting purposes. 1½ ft. 6d. each; 4s. per doz.
LYCHNIS FLOS CUCULI ALBA

PLENA - Suow white flowers, beautifully friuged; useful for the border, exhibition, or cutting purposes. $1\frac{1}{2}$ ft. 6d.

LYCHNIS FLOS - CUCUL! ROSEUS PLENUS-A free flowering showy variety with bright rose-coloured flowers; mest useful for cutting purposes. 11 ft. 9d.

LYCHNIS GRANDIFLORA-Soft salmonred flowers; prefers a moist situation. 1s. 6d.

LYCHNIS HAAGEANA-In variety. 1 ft.

6d. each; 5s. per doz.

LYCHNIS VESPERTINA PLENA-Finc. double white; very free bloomer; useful for

cutting. 2½ ft. 1s.
LYCHNIS VISCARIA SPLENDENS PLENA - Spikes of very double red flowers.

1 to 11 ft. 6d. LYŠIMACHIA CLETHROIDES — Purc white; very effective. 2 ft. 6d.

LYSIMACHIA NUMMULARIA AUREA (Golden-Leaved Creeping Jenny)-6d.

LYTHRUM ALATUM - A pretty plant covered with rosy-purple flowers throughout the summer; bushy habit. 9d.

LYTHRUM ROSEUM SUPERBUM-Fine. 3 to 4 ft. 6d. cach; 5s. per doz.

LYTHRUM SALICARIUM ROSEUM-Long branched spikes of rosy-pink flowers; a useful border plant. 3 to 4 ft. 6d.

MALVA MOSCHATA ALBA—Flowers pure white and very fragrant. 2 ft. 6d.

MARGYRICARPUS SETOSUS-A charming little evergreen creeping plant, bearing small white berries like mistletoe. 1s.

MAZUS PUMILIO-Purple flowers; crecping habit; a preity New Zealand plant. 9d. MEGASEA (SAXIFRAGA) CORDIFOLIA

PURPURFA -Rich purple flowers; the finest of this genus. 1½ ft. 6d. to 2s. 6d.

MEGASEA PURPURASCENS - Light purple flowers, tall stems; scarce. 1 ft. 1s. 6d. MEGASEA LIGULATA-Early flowering;

piukish lilac. 1 ft. 9d.

MEGASEA STRACHEYI-Pretty blushpink flowers; a select frame plant. 1 ft. 1s.

MENTHA REQUIENII—Dense carpets of minute foliage and blue flowers; the perfume of peppermint very strong. 6d.

MERTENSÍA LANCEOLATA - Blue flowers; a charming plant. 1s.

MERTENSIA SIBERICA-Drooping

clusters of light blue flowers. 1 ft. 9d. MERTENSIA VIRGINICA (Pulmonaria)

-Flowers purplish blue colour. 11 ft. 9d. MEUM ATHAMANTICUM-Fine Ferulalike foliage; umbels of white flowers. 9d.

MICHAELMAS DAISIES-See Index.

MICHAUXIA CAMPANULOIDES-Large blush white, curiously shaped flowers on branching stems; a distinct and haudsome perennial. 4 ft. 9d.

MIMULUS CARDINALIS - Very showy and effective; flowers scarlet. 1 ft. 6d.

MONARDA DIDYMA-Scarlet; fragrant. 2 ft. 6d.

MONARDA DIDYMA ALBA - A white flowering form of the above, showy and attractive. 6d.

MONARDA DIDYMA ROSEA-Bright

glowing rose colour; very showy. 6d.
MONTBRETIA "FIERY STAR"—Habit robust, most floriferous, producing in long succession brilliant vermilion widely-expanded flowers. 3 ft. 6d.

MONTBRETIA "GOLDEN SHEAF"-Improvement on Crocosmantora aurea, having larger, more expanded, golden-yellow flowers and a dwarf compact habit; excellent for cutting. 3 ft. 6d

For other varieties of Moutbretia, see Bulb

Catalogue.

MORINA LONGIFOLIA - Highly ornamental, both in foliage and flowers. $2\frac{1}{2}$ ft. 9d.

MORISIA HYPOGŒA-Requires a sunny position in sandy loam; of tufted habit; bright yellow flowers; dark green foliage. 1s. 6d. MUSCARI—See Bulb List.

MYOSOTIS, in variety-See Summer flower-

MYOSOTIS IMPERATRICE ELIZA-BETH—Colour very rich. 3 ft. 6d. each; 5s. per doz.

NARCISSUS - See Bulb List.

NIEREMBERGIA RIVULARIS - Large pure white flowers; dwarf, slender, ereeping stems. 2 in. high. 9d.

NYMPHŒA - See Aquatics.

CENOTHERA FRASERI - Very showy. 1½ ft. 6d. each.

CENOTHERA FRUTICOSA MAJOR— Large deep yellow flowers; fine. 1 to 1½ ft 6d.

CENOTHERA MACROCARPA (Evening Primrose)—Deepgoiden yellow flowers. 1 ft. 6d. CENOTHERA PILGRIMI — By far the finest of the yellow Evening Primroses. 1 ft. 6d. CENOTHERA RIPARIA. 1 ft. 6d. each;

5s. doz.

CENOTHERA SPECIOSA - Free-growing large white fragrant flowers, and for borders few can be found to equal it. 1 to 1\frac{1}{2} ft. 9d. each; 6s. per doz.

CENOTHERA TARAXACIFOLIA-One of the prettiest of the dwarf Evening Primroses; large white flowers changing to red when fading. 1 ft. 6d.

CENOTHERA YOUNGII - Deep golden yellow, red buds; a fine plant for the border.

OMPHALODES VERNA-Charming little plant; blue. ½ ft. 6d. each; 5s. per doz.

OMPHALODES VERNA ALBA-d ft.

6d. each; 5s. per doz.

ONONIS ROTUNDIFOLIA -- A free-flowering and effective border plant; will thrive in sandy soils. 13 ft. 9d.
ONOSMA TAURICA—Bright yellow; very

fragrant. 3 to 1 ft. 1s. and 1s. 6d.

OPUNTIA RAFINESQUEI (Prickly Fig) -A truly hardy Cactus, with yellow flowers; indispensable for the rockwork. 1s. For other varieties, see Cacti Catalogue.

ORNITHOGALUM-See Bulb List.

OROBUS AURANTIACUS (Luteus) -Bright orange flowers; very distinct. 11 to 2 ft. 9d.

OROBUS CANESCENS-One of the most showy; blue purple. 1 ft. 9d.

LATHYROIDES - Numerous OROBUS spikes of small blue flowers, closely arranged; a showy plant. 21 ft. 6d

OROBUS VERNUS - Purple pea-shaped flowers; one of the prettiest spring-flowering 1 ft. 6d.

OROBUS VERNUS ALBA PLENUS-

Double white; pretty. 1s. 6d.
OROBUS VERNUS ALBUS-Pink and white. 1s. 6d.

OSTROWSKIA MAGNIFICA-The giant Bell-flower from Central Asia; flowers bell-shaped; mauve-lilac and white. 3 to 4 ft. 2s. 6d.

OURISIA COCCINEA-Spikes of drooping scarlet flowers; a gein for a moist shady spot 3 ft. 9d.

OXALIS—See Index; also Bulb List,

PÆONIA MOUTAN (Tree Pæonies)—Ser Collection.

PÆONIAS, HERBACEOUS - See Collection PANSIES-In great variety-See Collection.

PAPAVER BRACTEATUM-Large brilliant erimson-scarlet flowers, black blotch at base of each petal; fine for borders. 3 ft. 9d.

PAPAVER NUDICAULE-Showy, forming tufts of bright yellow flowers. 1 ft. 6d.

PAPAVER NUDICAULE ALBUM - A pretty white variety of the preceding; fine for entting. 1 ft. 6d.

PAPAVER NUDICAULE COCCINEUM FL. PL. - New double flowering form of the bright orange-scarlet variety of the Iceland Poppy. 1 ft. 1s.

PAPAVER NUDICAULE MINIATUM-Brilliant orange-scarlet flowers; one of the most showy of the Iceland Poppies. 1 ft. 6d.

PAPAVER NUDICAULE SUL-PHUREUM Pale sulphur-coloured flowers.

PAPAVER ORIENTALE - Immense deep erimson flowers, black blotch. 3 ft. 6d.

PAPAVER ORIENTALE "BLUSH QUEEN" - Beautiful soft rosy-pink flowers; more erect in growth than Orientale. F.C.C. 3½ ft. 6d.

PAPAVER ORIENTALE "DUKE OF TECK "-Splendid rich crimson-scarlet; very large and bold. 9d.

PAPAVER ORIENTALE "LIVERMERE"

-Immense blood red flowers. 9d.

PAPAVER ORIENTALE "MOGUL"-Very large flower, dark scarlet 9d.

PAPAVER ORIENTALE "PRINCE OF ORANGE" — Dwarf, compact habit; clear orange-scarlet flowers; exceedingly handsome.

PAPAVER ORIENTALE "SALMON QUEEN "-Of a charming soft salmon-scarlet shade. 2 ft. 9d.

PAPAVER ORIENTALE "SEMI-PLENA "-Rich erimson flowers. 9d

PAPAVER ORIENTALE "SILVER QUEEN "-Very distinct and dwarf; flowers medium size, silvery white, slightly unged blush, and without the black blotch. 2 ft. 9d.

PAPAVER RUPRIFRAGUM -Soft terra-

cotta; useful for cutting. 6d.

PENTSTEMONS (Florists' varieties)-See

PENTSTEMON BARBATUS (CHELONE) TORREYI — Large pendant tubular scarlet flowers, fine spikes. 3 ft. 6d.

PENTSTEMON BARBATUS COC-CINEUS-A desirable plant. 3 ft. 6d.

PENTSTEMON HETEROPHYLLUS-Lovely sky-blue flowers, at times tinted rose, dwarf. 9d.

PENTSTEMON OVATUS-A good horder plant, quite hardy, and a fine blue. 3 ft. 9d.

PENTSTEMON PUBESCENS - Lilac, with white mouth; a good border kind, 1 ft. 9d. PENTSTEMON SCOULERI — Flowers large and inflated, of a lovely bluish-lilac; perfectly hardy, easily grown. 2 ft. 1s-

PHALARIS ARUNDINACEA FOL. VAR.

-Pretty. 6d.

PHLOX AMCENA -- Fine for spring bedding and a gem for rockeries. 6d.

PHLOX CANADENSIS - Pale hlnc;

slender-growing species. 1 ft. 6d.

PHLOX NELSONI-Snow white flowers, 6d, PHLOX OVATA-Rosy purple flowers, late in spring; one of the best hardy plants. 1 ft. 9d.

PHLOX SETACEA, syn. FRONDOSA—Bright rose-coloured flowers. ½ ft. 6d.

PHLOX SETACEA "ALDBOROUGH - ENSIS"—Pale lilac; very distinct. 9d.

PHLOX SETACEA ATROPURPUREA-Purplish rose-coloured flowers, crimson eye.

6d. each; 4s. per doz.

PHLOX SETACEA "BRIDE"—Pure white, red centres; very conspicuous. 9d.

PHLOX SETACEA "COMPACTA"-Lovely rose; effective. 9d.

PHLOX SETACEA "FAIRY"-Pure white,

with a red eye; frec. 9d.

PHLOX SETACEA "GRANDIFLORA"-

Rich mauve; distinct. 6d.

PHLOX SETACEA "G. F. WILSON"-Dense masses of bluish manve flowers, distinct. 6d. PHLOX SETACEA"LILACINA"—A lovely variety with lilac blue flowers, forming a dense sheet of colouring. 6d.

PHLOX SETACEA "MODEL" - Bright

rosy carmine, neat habit; effective. 6d.
PHLOX SETACEA "PALLIDA" — Rose, shaded lilac; flowers large. 6d.

PHLOX SETACEA "PERFECTION"-

White, purple centre. 6d.

PHLOX SETACEA "VIVID"-Fiery rose colour, ricb carmine centre; the hrightest of the group. 9d. PHLOX VERNA—Deep red. ½ ft. 5s. per

doz.; 6d. each.

PHLOXES (Florists' varieties), Early and Late Flowering-See Collection.

PHORMIUM TENAX (New Zealand Flax) -Perfectly hardy; a splendid green foliage plant. 1s. 6d., 2s. 6d., and 3s. 6d.

PHORMIUM TENAX VARIEGATUM-Alternate hands of green and golden yellow, running the entire length of the leaf; one of the finest foliage plants; hardy in warm, sheltered positions. 2s. 6d. and 3s. 6d. each.

PHORMIUM TENAX ATROPURPUREA -Leaves narrower and more creet; purple

foliage. 2s. 6d. and 3s. 6d.

PHYGELIUS CAPENSIS-Very effective spikes of long tuhular flowers of a rich vermilion; yellow throat. 3 to 4 ft. 9d.

PHYSALIS FRANCHETII-A large and much finer variety than Alkekengi; an acquisition. 9d.

PHYTOLACCA DECANDRA-White and rose coloured flowers, succeeded by spikes of black berries. 9d.

PINKS-See Index.

PLATYCODON MARIESI - Large bellshaped flowers of a rich blue, a fine addition.

PLATYCODON MARIESI ALBUM — White with a bluish tinge. 1s.

PLUMBAGO LARPENTÆ-A pretty oruament for rockwork, banks, &c. 9d. each; 7s. 6d. per doz.

PODOPHYLLUM EMODI — Large green foliage, flowers creamy white, succeeded by bright scarlet fruit; thrives hest in shade. 1 ft.

PODOPHYLLUM PELTATUM—Beautiful wrinkled leaves, small white flowers; shady positiou. 1 ft. 9d.

POLEMONIUM HIMALAICUM-A noble plant for the mixed horder, strong grower; should be in every collection. 2 ft. 6d.

POLEMONIUM REPTANS-Valuable blne spring flowering plant. 1 ft. 6d.

POLEMONIUM RICHARDSONI, syn. HUMILE-A beautiful hardy perennial; lovely sky-blue flowers. 11 ft. 6d.

POLEMONIUM RICHARDSONI ALBUM Flowers white, and flowering more or less throughout the summer; a showy border plant, dwarf. 6d.

POLYANTHUS—See Iudex.

POLYGONATUM - See Bulb Catalogue; several varieties can be supplied.

POLYGONUM AMPLEXICAULE-Branched heads of deep crimson flowers; vigorous, 2 ft. 9d.

POLYGONUM BRUNONIS - Useful for its pink flowers and coloured foliage; dwarf.

POLYGONUM COMPACTUM - White flowers, much branched stems. 2 ft. 9d.

POLYGONUM CUSPIDATUM COM-PACTUM—A compact grower, beautiful foliage, erect showy creamy-white flower spikes. 9d.

CUSPIDATUM POLYGONUM (Sieboldi)—Large haudsome foliage, white Spiraealike flowers in profusion. 6 to 8 ft. 6d.

POLYGONUM CYMOSUM-Another five white-flowered variety, sweet sceuted. 9d.

POLYGONUM SACHALIENSE - Tall stout stems and very large foliage; a plant of suh-tropical appearance, very useful for the margins of waters, shrubbery, borders, &c. 6d. and 9d.

POLYGONUM SPHŒROSTACHYON-A rare Himalayau species, dark crimson spikes. 1 ft. 3s. 6d.

POLYGONUM VACCINIFOLIUM-Piuk flowers, late in autumn; dwarf and pretty. 🖠 ft. 9d. POPPY—See Papaver.

POTENTILLA DAVURICUM - l'rostrate shrubby species, yellow flowers; prefers sandy soil. 1s. 6d.

POTENTILLA FORMOSA - Bright eherry-red flowers in profusion. 1 ft. 6d.

POTENTILLA HOPWOODIANA—Quite distinct, buff flowers, shaded white and rose; a fine border plant. 9d.

POTENTILLA TONGUEI - Terra-cotta and orange-coloured flowers.

POTENTILLA TRIDENTATA—A dwarf white species. 6d.

POTENTILLAS (Double)—See Collection. PRIMROSES -See Index.

PRIMULA-See Collection.

PRUNELLA GRANDIFLORA ALBA-A spreading habit and pure white flowers; a fine form of this useful and pretty rock and horder plant. 6d.

PRUNELLA WEBBIANA—Spikes of deep purple flowers; a splendid rock or border plant.

1 ft. -6d.

PYRETHRUMS, DOUBLE AND SINGLE

—See Collection.

PYRETHRUM ULIGINOSUM - Producing large pure white flowers; a fine plant for autumn decoration; useful for cutting. 5 ft. 6d.

PULMONARIA SACCHARATA-Prettily marhled leaves, red and violet tubular flowers.

3 ft. 6d.

PULMONARIA SACCHARATA RUBRA

-Bright colour. 6d.

RAMONDIA PYRENAICA—Flowers of a pretty violet-purple, with a bright orange eye; easily grown; perfectly hardy; shady, damp spot. ½ ft. 9d. and 1s.

RAMONDIA PYRENAICA ALBA-White well-formed flowers, very beautiful and interesting; prefers a shaded and partially damp positiou with a north aspect. 3s. 6d. to 7s. 6d.

RANUNCULUS ACONITIFOLIUS PLE-NUS-Flowers pure white, very double; grows freely in any situation. If t. 6d.

RANUNCULUS ACRIS FL. PL. - Double goldeo yellow flowers; will grow in any damp

shady corner. 3 ft. 6d.

RANUNCULUS AMPLEXICAULIS— Large white flowers; very distinct. 1 ft. 6d.

RANUNCULUS MONTANUS-A pretty

Alpine plant; flowers yellow. 9d.

RANUNCULUS NYSSANUS —Golden-

yellow flowers in May. 1s. 6d. RANUNCULUS SPECIOSUS FL. PL.-Immense double golden yellow flowers, produced in ahundance. 1 ft. 6d.

RHEUM EMODI-A gigantic-leaved plant. 4 ft. 1s.

RHEUM PALMATUM-Large and handsome foliage, fine for isolating on lawus. 5 ft. 1s.

ROCKETS — Hesperis matronalis albaplena and purpurea plena—They are as showy and as beautiful as any Stock, quite hardy, and bloom twice the length of time, and for cut flowers are amongst some of the best hardy plants. 2 ft. 6d. each; 4s. doz.

ROMNEYA COULTERI (Californian Tree Poppy) - Large pure white flowers, golden anthers; quite hardy. 2s. 6d. to 3s. 6d.

ROSES-See Index.

RUDBECKIA CALIFORNICA-Light yellow flowers in autumn; very distinct. 5 ft. RUDBECKIA LACINIATA-Yellow Mar-

guerite-like flowers. 31 ft. 6d.
RUDBECKIA LACINIATA FL. PL. (Golden Glow) - Splendid for cut flowers; heautiful yellow. 51 ft. 6d.
RUDBECKIA MAXIMA—Large glaucous

foliage, black centred goldcu-yellow flowers. 9d.

RUDBECKIA NEUMANII -Showy golden yellow and black flowers; very useful for purposes. 2 ft. 6d. each; 4s. per doz.

RUDBECKIA PINNATA-A lovely plant,

sulphur flowers and brown centre. 1s. RUDBECKIA PURPUREA—See Echioncea. RUDBECKIA SUB-TOMENTOSA-Compaet heads of clear yellow flowers, with a distinct dark centre; very free, usefol for cutting. 3 to 4 ft. 9d.

SALVIA OFFICINALIS AUREA. 6d.

SALVIAS-See Collection.

SANGUINARIA CANADENSIS-Large white flowers with yellow centre; a beautiful dwarf plant. 6d.

SAPONARIA CAUCASICA FL. PL.—Showy large double rose-pink flowers. 6d.
SAPONARIA OCYMOIDES—Trailing

perennial; hright rose-coloored flowers; invaluable for covering large stones. 1 ft. 6d.

SAPONARIA OCYMOIDES, var. SPLEN-DIDISSIMA-Flowers large, circular, and deep rosy crimson in colour; fine for rockwork. 9d.

SAXIFRAGAS—In variety. See Index. SCABIOSA CAUCASICA—Beautiful heads of lilac-hlue flowers. 9d.

SCABIOSA CAUCASICA ALBA-Of the

purest white. 9d.

SCHIZOSTYLIS COCCINEA - A handsome semi-hulhous plant, the flowers, which are produced late in the autumn, are of a hright crimson; good for cutting purposes. $1\frac{1}{2}$ to 2 ft. 6d. each; 4s. per doz.; 30s. per 100.

SCUTELLARIA MACRANTHA-A showy

dwarf horder plant, flowers hlue. 9d. SEDUMS-See Collection.

SEMPERVIVUMS-See Collection.

SENECIO CLIVORUM-Glossy leaves and large orange-yellow flowers; bold and vigorous. 2s. 6d.

SENECIO DORONICUM - Large golden yellow flowers; fine for cutting. 11 to 21 ft. 6d. SENECIO PULCHER — Ao exceedingly vigorons hahit, and perfectly hardy; brilliant purplish crimson flowers, with a golden yellow disc, of a good form and substance. 2 to 3 ft. 9d.

SHAMROCK-The true variety from Ireland.

SIDALCEA CANDIDA - Long spikes of white flowers. 2½ ft. 6d.

SIDALCEA LISTERI-Flowers soft satinypink, distinct and pretty. 31 ft. 9d.

SILENE ACAULIS-A dwarf Alpine herb; pink flowers. 6d.

SILENE ACAULIS ALBA—A pretty rock plant; pure white flowers. 9d.

SILENE ALPESTRIS-A charming evergreen rock or border plant, glossy white flowers; fine for massing. 6d. each; 5s. per doz.

SILENE MARITIMA FL. PL.—Prostrate tufts of glancoos foliage, scarcely an inch in height, bearing double flowers as large as the old "Double White Pink." 3 ft. 9d.

SILENE MARITIMA ROSEA — Single

rose; a fine rock plant. 6d.

SILENE SCHAFTÆ-A neat trailing autumn species, rosy purple flowers; fiue for massing. \(\frac{1}{2} \) ft. 6d.

SILPHIUM LACINIATUM-Tall; yellow;

very distinct. 7 ft. 1s.

SILPHIUM PERFOLIATUM-A showy border plant, handsome yellow flowers; a good plant for naturalising 5 ft. 9d. SISYRINCHIUM BERMUDIANUM

Blue flowers all the summer; small grassy

foliage. 6d.

SISYRINCHIUM CONVOLUTUM-Grassy tufts 9 in. high, glistening yellow flowers · in great profusion. Gd.

SISYRINCHIUM GRANDIFLORUM -Rich purple bells in Fobruary. 3 ft. 6d. aud 9d. SISYRINCHIUM GRANDIFLORUM ALBUM-Pure white flowers. Both of these aro amongst the elite of spring flowering plants. 3 ft

6d. and 9d. SMILACINA BIFOLIA-Pure white flowers liko a miniature Lily of the Valloy. 1 ft. 6d.

SOLDANELLA ALPINA—Forms a mass of dark green leathery foliage; bell-shaped flowers on sleuder stems of a bluish purple, beautifully fringed. 1 ft. 9d. and 1s.

SOLDANELLA MINIMA - Forming a dense tuft, pretty fringed bluish flowers. 1s.

SOLDANELLA MONTANA-Larger than Alpina, hut much finer flowers. $\frac{1}{4} - \frac{1}{2}$ ft.

SOLIDAGO EUCKLEYI-Foliage glaucous, yellow flowers; a good and desirable rock plant. 1 ft. 1s.

SOLIDAGO GATTINGERI — September

flowering; yellow; distinct. 9d. SOLIDAGO SHORTI- The most graceful and effective of all the tall-growing kinds; immense heads of flowers composed of long arching rachues of deep golden-yellow flowers. 6d. SOLIDAGO VIRGAUREA —A very useful

autumn blooming plant. 6d.

SOLIDAGO VIRGAUREA NANA—Neat
and effective; bright golden-yellow flowers. 1½ ft. 6d.

SPARAXIS-See Bulb List.

SPIGELIA MARILANDICA-Crimson and yellow flowers, of much interest and beauty. A damp shady position in peaty soils suits it well. 15.

SPIRÆAS-For other varieties, see Autumn Catalogue

SPIRÆA ARUNCUS-A useful border or pot plant, feathery panicles, composed of in-

numerable small white flowers. 3-4 ft. 9d. SPIRÆA ASTILBOIDES-A fine species;

elegant dense plumes of pure white; well adapted for the border or for foreing. 2-21 ft.

SPIRÆA ASTILBOIDES FLORIBUNDA —A splendid variety, producing its feathery white flowers in great abundance; quite bardy, and forces easily. 9d.

SPIRÆA CRISPIFOLIA (Bullata) - A charming rock or border plaut, erisp leaved, and carmine budded. 1 ft. 9d.

SPIRÆA GIGANTEA (Kamtschatica)-Feathery creamy-white plumes, large palmate leaves. 8-10 ft. 1s.

SPIRÆA JAPONICA-As useful for the border as it is for pots. 2 ft. 6d.

SPIRÆA JAPONICA AUREA RETI-CULATA — Handsome variegated foliage; a useful pot or border plant. 9d.

SPIRÆA JAPONICA COMPACTA-Dense plumes, double the size of the ordinary variety.

6d.

SPIRÆA PALMATA-Distinct and beautiful, palmate leaves, and strong bright red flower stems, surrounded by numerous broad corymbs of heautiful deep crimson flowers. $2\frac{1}{2}$ -3 ft. 6d.

SPIRÆA PALMATA ALBA - A most charming plant; flowers pure white. 2 ft. 6d. SPIRÆA PALMATA ELEGANS-A very distinct and pretty plant; soft rose, 2\frac{1}{2}-3 ft. 9d.

SPIRÆA VENUSTA-Lovely deep rosy earmine flowers; very useful for cutting. 3-33 ft.

SPIRÆA ULMARIA FOLIA VARIE-

GATA-Very pretty. 2 ft. 6d. SPIRÆA ULMARIA FL. PL. 2½ ft. 6d. SPIRÆA FILIPENDULA FLORE PLENO-Corymbs of double white flowers, with a slight creamy tinge. The pretty feru-like foliage is exceedingly attractive during the whole year, and is very useful for cutting. 11 ft. 6d. STATICE INCANA—Enormous beads of

flower, blue, white, erimson, and purple. 1 ft. 6d.

STATICE LATIFOLIA-Forming au immense branching panicle 2 ft. aeross, composed of small blue flowers; useful for cutting. 2½ ft. 9d.

STATICE LIMONIUM - Dwarf, free flower

ing, deep blue. 1 ft. 6d.

STATICE GMELINI - Small dark blue

flowers; one of the best. 1 ft. 9d.

STENACTIS SPECIOSA - Large, showy pale purple flowers with a vollow centre. 2 ft.

STIPA PENNATA- Very elegant grass. 6d. STOKESIA CYANEA-Light blue Centaurea-like flowers. 1 ft. 9d. and 1s.

SYMPHYTUM BOHEMICUM—Reddish-

purple flowers; handsome. 1-11 ft. 9d.

SYMPHYTUM OFFICINALE AUREUM VARIEGATUM-Gold variegation. 2 ft. 9d. TELEKIA-See Bulpthalmum Cordifolium.

THALICTRUM ADIANTIFOLIUM-Perfeetly bardy; in delicacy of structure it is equal to the Adiantums or Maidenhair Fern. 1ft. 9d. THALICTRUM ANEMONOIDES—Pure

white flowers, nearly an inch across, neat and dwarf; sandy peat. 1 ft. 9d.

THALICTRUM AQUILEGIFOLIUM-

Cream-coloured flowers. 3 ft. 6d.
THALICTRUM AQUILEGIFOLIUM ROSEUM-Neat and effective. 9d.

THALICTRUM AQUILEGIFOLIUM RUBRUM—Flowers and foliage alike ornamental; fine for outting. 3 ft. 9d.

THALICTRUM GLAUCUM-Deep green, minute foliage. 2 ft. 6d.

THERMOPSIS MONTANA-Yellow peashaped flowers. 23 ft. 6d.

MARGINATUS THYMUS TISSIMUS-A compact and effective plant, the best of all the garden variegated Thymes. 6d. each; 4s. per doz.

THYMUS MICANS-Compact cushions of dark green foliage, rosy purple flowers; very pretty. 6d.

THYMUS SERPYLLUM ALBUM-Snowy white; oue of the prettiest rock plants.

THYMUS SERPYLLUM, var. COC-CINEUS-A variety of the Mountain Thyme, but with deeper and more hrilliant flowers, forming sheets of rich crimson. \(\frac{1}{8}\) ft. 6d.

THYMUS VARIEGATUS—Each leaf is variegated with silver, and for spring gardening a very beautiful plant. 6d.

TIARELLA CORDIFOLIA (Foam Flower) -White flowers like a small Spirwa; very beautiful in pots, perfectly hardy. 3 ft. -6d.

TRADESCANTIA VIRGINICA ALBA MAJOR-The hest white variety; a fine border

plant. 11 ft. 6d.

TRADESCANTIA VIRGINICA RUBRA PLENA-A showy and highly decorative group of border plants; free. 11 ft. 6d.

TRILLIUM ERECTUM-Brownish parple.

3 ft. 9d.

TRILLIUM GRANDIFLORUM -- Pore white, the largest of this group; one of the vest of our spring flowers. $\frac{3}{4}$ ft. 6d.

TRITOMA (Kniphofia)-Torch Lily, Red

TRITOMA BURCHELLI-Early flowering, dark red passing to orange, large spikes. 21-3 ft.

CAULESCENS — Yucca-like TRITOMA leaves and growth, reddish orange flowers; effective. 4 ft. 1s. 6d and 2s. 6d.

TRIPOMA CITRINA (Hybrld)—Massive spikes of canary-coloured flowers; one of the most distinct. 2 ft, 2s. 6d.

TRITOMA CORALLINA-Dwarf; coralred, shading into orange-red. 2 ft. 9d.
TRITOMA H. CANNELL-Immense long

spikes, of a bright coral red. 4 ft. 2s.

TRITOMA MACOWANII-A dwarf species, rich golden orange, passing to a bright orange-21 ft. 9d.

TRITOMA NELSONI - Foliage grassy; narrow tapering spikes of bright coral red; a gem for pots or a warm sheltered spot. 1s. 6d.

TRITOMA NOBILIS-Fine spikes of scarlet and yellow. 5-6 ft. 1s. 6d.

TRITOMA PFITZERI-A splendid rich crimsou; a really first-class variety. 2-3 ft.

TRITOMA ROOPERI - Large spikes of bright scarlet-orange; robust and free flowering. $2\frac{1}{3}$ -3 ft. 1s.

TRITOMA SAUNDERSI-Deep red, tipped yellow; beautiful foliage, and noble spikes. 4-5 ft. 1s. 6d.

TRITOMA UVARIA GLAUCESCENS-Large spikes of flowers of a bright orange and scarlet colonr. $2\frac{1}{2}-3$ ft. 1s.

TRITOMA UVARIA GRANDIFLORA-Deep crimson and orange flowers, the last in bloom. 4 ft. 1s.

TROLLIUS ASIATICUS-Orange. 2 ft. 9d. TROLLIUS CAUCASICUS (Orange Globe) -Immense flowers of a deep orange; vigorous grower and free blooming; very showy. 2s.

TROLLIUS EUROPÆUS — Well known. 1 ft. 6d. each; 5s. per doz.

TROLLIUS EUROPÆUS ALBUS -Creamy white. 9d.

TROLLIUS GIBSONI—Superior to Japonicus. 1s. 6d.

TROLLIUS GIGANTEUS-Lemon coloured, 2 ft. 6d. and 9d.
TROLLIUS HYBRIDA EXCELSIOR-

Of the deepest orange; most useful for cutting.

TROLLIUS HYBRIDA NEWRY GIANT Large deep golden yellow flowers; tall.

TROLLIUS LAXUS—Pale greenish lemon

colonred flowers. 9d,
TROLLIUS NAPELLIFOLIUS — Yellow flowers. 2 ft. 9d.

TROPÆOLUMS-See Collection.

TUNICA SAXIFRAGA-Pink flowers, very profuse, fine spreading habit; delightful for the rock gardeu, old walls, and dry border. 6d.

TUSSILAGO FARFARA VARIEGATA-Pretty variegated foliage. 3 ft. 9d.

UVULARIA GRANDIFLORA-Weeping habit; pale yellowish greeu flowers. 9d.

VALERIANA PHU AUREA- A strong, growing border plant. 6d. each; 4s. per doz.
VANCOUVERIA HEXANDRE - Plumes

of pretty, erect, snow-white flowers; useful for rockwork. 1 ft. 9d.

VERATRUM ALBUM—One of the finest

hardy foliage plants. 2 ft. 1s.

VERATRUM NIGRUM—1!andsome foliage and curious black spikes. 1s. 6d.
VERBASCUM CHAIXI—A bold stately

percnnial; yellow flowers, with a purple centre; very effective as single specimens in the shrubbery or mixed borders. 3 ft. 9d.

OLYMPICUM - Flower VERBASCUM spikes from 6 to 8 feet in height, clear yellow flowers; large woolly leaves. 9d.

VERBASCUM PHŒNICEUM-Very effective and free growing; purple flowers. 2ft. 6d. VERBENA VENOSA-See Iudex.

VERONICA AMETHYSTINA-One of the very best of the taller growing species; clear blue. 11 ft. Strong elumps, 6d. each; 4s. per doz.

FLOWERING SHRUB-LIKE PLANTS.

CISTUS-

The members of this useful genus of dwarf shrub-like plants have heen so far too unuch neglected, when their beauty and general value for the decoration of hot dry positions where not many things will thrive are taken into consideration. The only wonder is that they are not grown by everybody.

BULBOUS PLANTS.

AMARYLLIS (Hybrids)—2s. 6d. and 3s. 6d. AMARYLLIS FORMOSISSIMUS (Jacobæa Lily)—Crimson. 9d. each; 7s. 6d. per doz.

ARUM SANCTUM (The Black Calla, Arum Palestinum, or Solomon's Lily)— These magnificent flowers often measure more than a foot in leugth, by 5 to 8 inches in width; the inside colour is of the richest velvety purplish-black imaginable, while the outside is of a pleasing green. 2s. 6d.

BABIANAS—A collection of 16 of the finest varieties. Per pot of 3 bulbs, 9d.

BEGONIAS—The finest collection in cultivation; also a great quantity of seedlings bloomed and unbloomed. See Collection.

CALOCHORTI (Butterfly and Star Tulips)
—A fine collection. 1s. to 1s. 6d.

CHIONODOXA LUCILÆ — Pretty blue flowers. 6s. per doz.

CROCOSMA AUREA — Bright orange in autumu; extra fine. Per pot, several bulbs, 9d.

EUCHARIS AMAZONICA—One of the best white-flowering stove plants. 1s. to 2s. per bulb; flowering plants, 10s. 6d., 15s., and 2ls. each.

FREESIA REFRACTA ALBA—The fragrance of these charming flowers is most agrecable; pure white; a gem for forcing. Per pot of 3 bulbs, 2s.

LEITCHLINI—Per pot of 3 bulbs, 1s. 6d.

HYACINTHUS (GALTONIA) CANDIOANS—Hardy. 6d. each; 4s. per doz.

IRIS-See Collection.

ISMENE CALATHINA (Sea Daffodil)— White trumpet-shaped flowers; very fragraut. 9d.

UNDULATA—Pure white, beautifully fringed. 9d.

IXIA—A collection of 30 of the finest. Per pot of 3 bulbs. 6d.

LACHENALIA TRICOLOR. Per pot, 5 bnlbs in each, 1s. 6d.

NELSONI-2s. 6d.

LILIES—See Collection.

MONTBRETIA POTTSI — Orange-scarlet; thbular flowers, borne on one-sided spikes; three bulbs in each pot. 9d.

CROCOSMLÆFLORA — Orange-red; exceedingly free and hardy. 1s.

CROCOSMIÆFLORA ELEGANS—
Brightycllow flowers, exterior vermilion and yellow. 1s. 6d. pot.

For other varietics, see Bulb List.

NARCISSUS—A fine collection of border varieties, in pots; price on application.

CORBULARIA MONOPHYLLUS—

CORBULARIA MONOPHYLLUS — Silver white; early bloomer. Per pot of 3 bnlbs, 1s.

JUNCIFOLIUS—Dwarf species; rich yellow flowers; neat 6d.

TRIANDRUS (Cyolamen Daffodil)— Very rare and beautiful. Per pot, 3 bulbs in each, 2s. 6d.

ORNITHOGALUM ARABICUM — Large heads of white flowers, with deep black centre. 6d.

AUREUM—A miniature species, with golden-yellow flowers; rare. Per pot containing several bulbs, 2s. 6d.

OXALIS—A collection of the most useful and effective varieties. Per pot of 5 roots, 1s.

PANCRATIUM CARRIBEUM—The best of all the section. 1s. 6d.

ILLYRICUM — Large white flowers;
fragrant. 1s.

MARITIMUM—White; fragrant; fine pot plant. 6d. each.

PARVIFLORUM—Large white flowers; fragrant and showy. 9d.

RICHARDIA ÆTHIOPICA (Calla), the well-known Arum Lily. 9d., 1s., and

ALBO-MACULATA-Leaves heautifully spotted. 9d.

HASTATA-Yellow, with dark centre. 2s. 6d.

SPARAXIS-A collection of 12 of the finest varieties. Per pot of 3 hulbs, 6d. TIGRIDIA—See Collection.

TRICHONEMA SPECIOSUM-Large carmine flowers, of a satiny texture, issuing from tufts of slender grassy foliage. Per pot of 3 hulhs, 1s.

SPECIOSUM ALBUM - Pure white; effective. 9d. each.

TRITONIA-A collection of 10 of the finest varieties. Per pot of 3 hulbs, 9d. TROPÆOLUMS—See Collection.

VALLOTA PURPUREA (Great Soarboro Lily)-Splendid Amaryllis-like flower; beautiful summer flowering plant. 1s. to 1s. 6d.

WATSONIA-Long spikes of flowers, resembling Gladioli. A collection of 7 very fine

varieties, 6d. each.

ZEPHYRANTHES CANDIDA (Lily Daffodil)-Large, silver-white flowers. 1s.

CARINATA-The finest of the genns, deep rose colour. 1s.
TREATI—White, slightly tinged with

rosc. 1s.

(POLIANTHES). TUBEROSE

CULTURAL DIRECTIONS.—Pot into 4's, place in 65 degrees temperature, hottom heat; keep moist until roots have made a growth, then increase temperature from 70 degrees to 80 degrees. When full of roots, rc-pot into 6-inch pots, and place near the glass; after bloom spike appears, place them in a cooler honse; train up under the glass. They must be well syringed, and amply supplied with liquid manure.

AMERICAN (Double)-For choice buttonhole bouquets, &c., no other flowers are of more value at all scasons than the Tuhcrose, and should he used in succession in every forcing-house during the winter. 2s. per doz.

AFRICAN (Double)—Direct from the Cape; have bloomed heautifully with us all the summer, and can highly recommend them.

> Started in pots, 4s. per dozen. Fine dry Bulbs, 3s. per dozen.

Our LILY OF THE VALLEY is quite equal to the engraving.

(127)

COLLECTION OF BEDDING PLANTS FOR THE DECORATION OF THE FLOWER GARDEN ON AND AFTER 20th MAY.

For the convenience of persons who have not the time to make their own selections, we beg to say, in the first place, our whole attention is devoted to this branch of Horticulture; and as we have all kinds of new and best bedding plants as soon as they are out, and propagate them in large quantities, and only the very best older varieties are allowed to remain in our nursery, we have good reason for saying they will include plants that cannot be equalled by other florists.

Best Collection, comprising 250 Plants, left to our selection, for 50s.; half the quantity for 25s.; quarter the quantity for 14s.

They will consist of Plants embodied in this Catalogue. Packing, 4s., 2s., and 1s. 6d., according to Collection.

N.B .- All kinds of bedding plants will be considerably lowered in price after the 1st of May. A List, and special arrangements for large quantities, on application.

COLLECTION OF PLANTS FOR THE DECORATION OF THE CONSERVATORY,

100 Showy Plants of our selection from this Catalogue for 35s.; package, 4s.

If this Collection is shifted into larger pots as soon as received, and with the ordinary amount of attention, they will make a grand display through the season. They will be packed as closely as possible, so the cost of the carriage will be but trifling. At this cheap rate all orders must be accompanied with the amount. The Collections will be sure to give satisfaction.

FOR GREENHOUSE DECORATION AND FOR CUT FLOWERS.

We have an almost unlimited supply of the following Flowering Plants to offer at the proper seasons, in pots full of flower, or coming on.

BOUVARDIAS-In great variety.

15s. per doz.

BULBS—Dutch, in great variety. See Catalogue.

CALCEOLARIAS. 12s. to 18s. per doz. CARNATIONS, TREE-In variety.

to 18s. per doz. CINERARIAS. 6s. to 18s. per doz.

CYCLAMEN PERSICUM-Invariety. 6s. to 18s. per doz.

DEUTZIAS. 9s. to 18s. per doz. DIELYTRA. 12s. to 18s. per doz. GLOXINIAS. 12s. to 24s. per doz.

LILY OF THE VALLEY (Convallaria)— Strong; imported. 6s. to 18s. per doz.

PELARGONIUMS-Forcing. 12s. to 24s. per doz.

PINKS—Forcing, in variety. 6s. per doz. PRIMULA—Double white. 12s. to 24s. per doz.

PRIMULAS-Single varieties. 6s. to 12s. per doz.

ROSES-6 and 7-inch pots. 18s. to 30s. per doz.

ROSES, TEAS-6 and 7-inch pots. 18s., 36s., and 42s. per doz.

SOLANUMS—Full of berries. 12s. to 18s.

per doz. SOLOMON'S SEAL (Polygonatum)—Good strong crowns; useful for forcing. 4s. and 6s.

per doz. SPIRÆA JAPONICA. 6s. to 9s. per doz. ZONAL PELARGONIUMS — Full of

flower. 12s., 18s., to 24s. per doz.

HOW TO MANAGE PLANTS, ROOTED CUTTINGS, AND SEEDLINGS SENT BY POST.

HERE persons have the convenience and sufficient experience for nursing small plauts, and enjoy seeing them grow, we strongly recommend their having them sent hy post, as every care is taken to grow them in such a temperature, &c., that there is no risk ahout their doing well with a

is taken to grow them in such a temperature, &c., that there is no risk ahout their doing well with a small amount of ordinary care, if the appended instructions are carefully followed.

It must be remembered that plants are like young children; they must be earefully looked after, fed, clothed, and trained in the way they should go, and a little common sense exercised to ascertain their requirements, and to guard against enemies. And should they be forgotten, and get with others of bad character, it is surprising how quickly they will partake of the same habits and disease, and will soon die in sorrow and disgrace. A sweet-smelling hot-hed rather on the decline is preferable, with the heat at ahout 65 degrees. When you receive a hox of rooted cuttings or plants, immerse them in water at the same temperature from one to two hours. When they are all refreshed, proceed to pot them into small pots, using nice, warm, sandy soil. See that the roots are separated and spread naturally out in the soil without injuring them, pressing the soil firmly. Place them in the frame, keep them shut close for a few days, he careful of damp, and admit air as they get established. Let them he slightly dried each day, but do not allow them to flag from too much air or sun. And if a person possesses a stove, or even a warm greenhouse, there is no more difficulty in getting them to person possesses a stove, or even a warm greenhouse, there is no more difficulty in getting them to grow under an air-tight hand-glass or wooden hox with the top covered with glass, than those of their own striking or raising.

> AZALEAS, 2s. 6d. aud 3s. 6d. each. HARDY GHENT AZALEAS. 24s. and 30s. per doz. AZALEA MOLLIS-In variety. 18s., 24s., and 30s. per doz.

RHODODENDRONS-Best whites, scarlets, &c., unusually well set with bloom huds, 24s., 30s., 40s., and 50s. per doz.

CAMELLIAS.

Price, 14 inches high, 2s. 6d.; 18 inches, 3s. 6d.; 24 inches, 5s. each.

NEW YEAR'S PRESENTS OF SPLENDID PLANTS JUST COMING INTO FLOWER.

We have some thousands of winter early-hlooming plants.

HYACINTHS, strong, in 5-inch pots. 10s. per doz.

TULIPS, strong, 3 and 4 in a pot. 9s. per doz.

CROCUS, full of roots. 8s. per doz.

NARCISSUS, double. 8s. per doz.

LILY OF THE VALLEY, very strong. 9s. per doz.

CINERARIAS, showing flower. 9s. per doz.

PRIMULAS, showing flower. 9s. per doz.

CYCLAMEN, heautifully coming into flower. 12s. to 18s. per doz.

CALCEOLARIA. 9s. and 18s. per doz.

DUTCH AND OTHER BULBS.

The finest and cheapest, and we hope our patrons will favour us with their orders-we are sure the Bnlbs will give every satisfaction.

Our Autumn Catalogue of all the most useful Bulhs and Winter-flowering Plants, with reduced prices of New and other Plants, ready and posted to all customers in September. Should any fail to receive it, please send us a post-card.

All through the autumn, winter, and spring, a large quantity of Flowering Plants, &c., always

kept ready for immediate effect for all purposes.

DEPARTMENT FLOWER CUT

(PRIVATE TRADE ONLY).

Have your Cut Flowers direct from us, the ACTUAL PRODUCERS, you thus effect a great saving. We have erected a large and spacious building for the reception and making up of Flowers. All kinds, large or small quantities,

are regularly sent by post.

The advantage, in both price and freshness, in baving them direct from the actual growers is something considerable, particularly as a Post Office official meets five trains per day from Swanley at Holborn, and immediately conveys postal matter to the Chief Office.

Wedding and other Bouquets from 7s. 6d. upwards; Wreaths from 10s. 6d. upwards; and Funeral Crosses from 10s. 6d. upwards. Loose Flowers, also Foliage and Ferns for Table and other decoration. Orders for Cut Flowers from 2s. 6d. upwards can be sent by Letter or Parcel Post.

Boxes of mixed Cut Flowers, with Ferns, sent daily to all parts of the United Kingdom, 2s. 6d., 5s., 7s., and 10s.

SPAWN. MUSHROOM PERFECT

Having every facility, and to he quite sure that nothing hat the hest shall come from us, we collect samples from all sources where manufactured, immediately test which is the hest, and purchase largely; consequently, all our enstomers succeed, most of them far above their expectations. At this moment we have a large stock, and beyond all question the finest ever offered. Per brick, 6d., postage 4d.; per peck, ls. 6d., postage 9d.; per bushel, 5s.

"A Practical Treatise on the Cultivation of Mushrooms," by J. Wright, F.R.H.S. Price 1s.; post free, 1s. 3d.

SELECT GRAPE VINES.

GRAPE VINES we grow very extensively; our 150 ft. by 20 ft. wide house is filled with them early in the spring, and is a fine sight afterwards.

BOOK ON VINES, BY A. BARRON, 5s.; POST FREE, 5s. 6d.

* For cool house.

+ For hothouse.

a Pot culture.

- a†ALICANTE-Black, oval herries, hunches large; a fine late variety; excellent keeping qualities. *ALNWICK SEEDLING—Black, large oval herries; rich flavour, late, haudsome, keeps well; set with the pollen of some other variety (Hamburgh) gives the hest results.

 *APPLEY TOWERS—Black, succeeding Black Hamburgh; good flavour and keeping qualities.

 a*BLACK HAMBURGH (Frankenthal)—Roundish-oval herries; a delicious Grape, best for general use; a fine early forcing kind.

*BLACK PRINCE-Berries roundish oval, bunches long and tapering.

4*BUCKLAND SWEETWATER-White or pale amher, round herries; an excellent carly Grape; useful for summer.

*CALABRIAN RAISIN-White, round herrics, late; keeps well.

- a†CHASSELAS MUSQUE-White, round berries, early; fruits hest on suckers or quite young
- *DIAMOND JUBILEE (new)—Black, large oval herry, sets freely, colours early and easily; fine flavour; can be grown without or with very little heat in the south; an acquisition. Strong canes, 15s. each; small, 10s. each.
 †DUKE OF BUCCLEUCH - Amher, largest white round-herried Grape in cultivation;
- companion to Black Hamburgh.
- *FOSTER'S WHITE SEEDLING-White, oval berries, early and good; reliable cropper.

*GOLDEN QUEEN-Oval white; bunches large, flesh firm, very juicy; distinct.

†GROS COLMAR (Dodrelabi)—Black, very large round berries; late autumn. †GROS GUILLAUME (Barbarossa)—Black, round herries, produces enormous hunches, and hange late.

(132)

*GROS MAROC-Black, oval berrics; useful for mid-season; handsome.

tLADY DOWNE'S SEEDLING-Black, large roundish oval herries; late banging, firm flesh one of the best keepers.

at*MADRESFIELD COURT-Black, oval berries; snitable for cool vinery; or well adapted for early work.

MRS. PINCE'S BLACK MUSCAT-Fine colour, medium size, oval herries; late.

†MUSCAT OF ALEXANDRIA (Bowood Muscat)—White, oval-shaped berries; requires heat,

†MUSCAT HAMBURGH-Black, oval berries, bunches large; Muscat flavour, mid-season. a*ROYAL MUSCADINE—White, round berries, early, and one of the best for a wall outside; free frniting

†TREBBIANO-Large oval white berries, enormous sized bnuches; strong and robust, late. Fine Grown Canes, 4 to 6 ft. long, 5s.; very fine full-sized canes, 10 to 14 ft. long, 7s. 6d. and 10s. 6d. each.

What a lovely refreshing fruit! And when we hear it is the firm belief of the highest in the medical profession that if we were to eat more we should licar less of gout, rheumatism, and other pains; and seeing how easy Strawberries are to grow, it should be the set determination of all to cultivate their own, and have them with all their beautiful freshness, morning and evening, as long as possible; and when so, they are one of the greatest charms and benefits that mankind can partake of.

NEW LATE STRAWBERRIES.
QUEEN ALEXANDRA (Wright)—Award of Merit, Royal Horticultural Society, July 15th, 1901. The result of a cross between Waterloo, a popular and very distinct coloured late variety, and Latest of All, a large good-flavoured very late-flowering kind; this in turn was crossed by Frogmore Late Pine, a very desirable and excellent bearing Strawberry. Rooted runners,

. per doz.; strong, in small pots, 7s. 6d. per doz.

GIVON'S LATE PROLIFIC.—Award of Mcrit, Royal Horticultural Society. It is a cross between Waterloo and Latest of All, the former being the seed parent. The raiser considers it excels both these varieties, and is a much better doer than either. It is remarkably vigorous and free-cropping, especially as a yearling plant. Fruits are very large, mostly of a cockscomb shape, of a rich crimson colour, not quite so dark as Waterloo, and of a much finer flavour than that

variety. Ground rnnners, 3s. doz., 20s. per 100; strong, in small pots, 30s. per 100.

LAXTON'S CLIMAX (Late)—The result of a cross between Latest of All and Waterloo, and in habit and appearance it is intermediate between its parents, partaking of the enormous cropping qualities of Latest of All and the firmness of Waterloo. The flavour is very rich, and the colour a bright glossy crimson; flesh firm and solid. Its constitution is very hardy, and the foliage is smooth and leathery, rendering the variety a splendid mildew-resister. Bids fair to make a standard fruit to follow Sir J. Paxton or other mid-scasou varieties. Open ground rnuners, 3s. per doz.; 20s. per 100. In pots, 5s. per doz.; 30s. per 100.

LARGE-FLOWERED EARLY STRAWBERRY.

THE LAXTON-The ideal amateurs' and market growers' fruit. A fruit that everyone

must grow! An earlier, darker, firmer, and improved Royal Sovereign.

We believe this to be by far the finest of the many introductions, and to have combined all the good points of those two fine varieties from which it was raised, viz.: Royal Sovereign and Sir J. Paxton, and believe it to be the most wonderful Strawberry for earliness, size, firmness, quality, hardiness, and vigour of plant combined. The demand for this variety has been already very large, and as the stock is small and is fast selling out we must ask for early orders. Open ground plants, 8s. per doz.; 50s. per 100. In small pots, 10s. per doz.; 60s per 100.

TRAFALGAR (Late)—Award of Merit, Royal Horticultural Society, 1900. An exceptionally fine late variety, of rich pine flavour, equalling Royal Sovereign in size, crop, and colour, and as late as Waterloo. As a really good late variety it is anticipated to attain as great a popularity as Royal Sovereign has done amongst the earlies. A good traveller and an exceptioually good grower and cropper. Open ground runners, 2s. per doz.; 10s. per 100. In pots, 3s. per doz.; 20s. per 100.

FILLBASKET (Mid-Season)—First Class Certificate, York Gala, 1900. Raised from Royal Sovereign and Latest of All. The colonr is a good hright scarlet, the flesh is white and firm; the flavour beautifully jnicy, yet sweet and luscious. The cropping qualities of this variety are most remarkable; it carries more flower-spikes thau foliage, and the individual trusses with as many as thirty fruits on each. It ripens its fruit with Latest of All, and as a mid-season to late variety, we know of no Strawberry that can bear any comparison with it. As a second early forcing

variety, it will prove equally valuable, as it sets as freely as Royal Sovereign; a really remarkable and valuable variety. Open ground runners 1s. 6d, per doz.; 5s. per 100. In pots, 2s. per doz.;

and valuable variety. Open ground runners 1s. 6d. per doz.; 5s. per 100. In pots, 2s. per doz., 15s. per 100.

MENTMORE—Award of Merit, Royal Horticultural Society. A handsome main-crop variety; rich glowing deep crimson colonr, with a smooth, highly-varnished appearance; fruit large and flatly-pyriform in shape, flavour brisk and sweet, very heavy cropper; a really good forcing variety. A cross between Noble and British Queen. Open ground runners, 1s. per doz.; 5s. per 100. In pots, 2s. per doz.; 15s. per 100.

PROLIFIC—A hardy, strong growing, and exceedingly prolific variety, the result of a cross between Empress of India and British Queen. The fruits vary in shape from conic to cockscomb; in the latter form they attain a large size, often 1½ to 2 inches deep, ripening to the apex. The skin is bright crimson-scarlet, the flesh whitish and firm, with a pleasant vinous flavour in which that of British Queen is strongly pronounced. The plant is among the most rohust and vigorons. Plants in small pots, 2s. per doz.; 15s. per 100. Strong runners, 1s. per doz.; 5s. per 100.

ROYAL SOVEREIGN—Certainly one of the best in cultivation when all runners are kept trimmed off. This variety has now been grown and tested and subjected to all kinds of conditions and seasons, and has fully confirmed everything previously said of it, so that it is now universally admitted on all sides to he the best introduction since Sir J. Paxton, and should be extensively planted in every garden, totally setting aside many of the older kinds, which we have discontinued. planted in every garden, totally setting aside many of the older kinds, which we have discontinued growing. Small runners, 3s. per 100. Fine selected runners, 4s. per 100; 20s. per 1,000. Fine plants, in small pots, 2s. per doz.; 12s. per 100. Fruiting plants, in large 5-in. pots, 30s. per 100. Special Prices to the Trade and Market Growers on application.

NEW PERPETUAL-FRUITING STRAWBERRIES.

ERIGÉ DE TRÉVOUX (1902). The above Strawberries were picked on August 16th, yet the plants were producing flowers and fruit October 31st.

THE PEARL (1903).

THE PEARL (1903)-The result of a cross between Louis Gauthier and Perpetual Bearer. Fruits large, conical, of regular size, rich carmine colour, and of a sweet and strong perfume. Fruiting stemsare sufficiently strong to keep the fruit well above the foliage. Recommended as a great advance in this section, and very prolific. 1s. 6d. each; 15s. dozen.

ERIGE DE TREVOUX (1902)-Much the best of all the Hauthois section, producing quantities of lovely red fruit during the end of July and through August. After this St. Joseph and St. Antoine de Padoue, with good management, carry the Strawberry crop all the summer and antumn. Free grower; runners must be kept cut off. This is a real acquisition, and should be in every garden, if only for the children to pick and cat. 1s. cach; 3s. per doz.

SAINT ANTOINE DE PADOUE—The fruit is much larger and finer than St. Joseph, and of a most excellent flavour, firm, and of good keeping qualities. An incontestable improvement on St. Joseph. It has also proved to be a good forcing variety. Open ground runners, is. 6d. per doz.; 7s. 6d., per 100. In pots, 2s. 6d. per doz.; 18s. per 100.

OREGON—Said to be superior to St. Joseph. Highly recommended, yielding fruits as large as Hericart de Thury. It commences bearing fruit early in the summer, and continues until frost, the fruits appearing freely on the young runners as well as on the main plants. The flavour is of the first quality, and they are highly colonred. Open ground runners, 2s. per doz.

PERPETUAL SAINT JOSEPH or RUBICUNDA, LARGE FRUITED—This really the first true perpetual large-fruited Strawberry ever offered. The flower stems are is really the first true perpetual large-fruited Strawberry ever offered. produced in succession from May to autumn, and bear an abundance of fruit, for which reason some slight support to them is almost indispensable. The fruit is of good size, dark red in colour (also red inside), solid, firm, very juicy, and of first-rate quality. Early runners planted separate during summer have also produced a very good crop the same autumn. Opeu ground runners, 1s. per doz.; 5s. per 100. lu pots, 2s. per doz.; 15s. per 100.

LOUIS GAUTHIER-Fruit of bright pink, large size, and very sweet. Culture-Pick off all first fruit and flowers from the old plant, lay ont runners, get them well rooted; and from the first to the second these throw up trusses of fruit, and give a succession all through late summer and early autumn. Open ground runners, 1s. per doz.; 5s. per 100. In pots, 2s. per doz.; 15s. per 100.

GENERAL LIST OF STRAWBERRIES.

AUGUSTE NICAISE-Fruit of this variety has been repeatedly shown in fine condition.

BICTON PINE—Conical shape, white fruit; distinct; large. 3s. 6d. pcr 100.

BRITISH QUEEN—The best-flavoured fruit in cultivation, should be grown in every garden. 5s. per 100.

COMPETITOR—Very large, splendid Strawberry.
COUNTESS (Dr. Roden)—Large second early; fruit good colour and flavour, of handsome cockscomb shape. First Class Certificate from the Royal Horticultural Society.

COUNTS-A really good old variety; does splendidly in our fields, and produces enormous crops.

DR. HOGG—Similar to British Queen; fine variety; should be tried everywhere. DR. MORERE—A well-known French variety, and as popular there as Sir Joseph Paxton is in this country; the fruit is highly coloured and travels well; the plant is hardy and vigorous. Rooted runuers, 5s. per 100.

DUKE OF EDINBURGH—Large, handsome; deep crimson; juicy.

ELTON PINE—One of the best late varieties in cultivation.

KEEN'S SEEDLING—One of the best for forcing and small gardeus.

LADY SUFFIELD—Mid-season; large dark red, highly glazed fruit, with a distinct Hauthors flavour; a free bearer. 10s. per 100.

LA GROSSE SUCREE—Sweet flavour; one of the best for forcing.

LATEST OF ALL-As its name denotes, it is several days later than most varieties; free; fruit

 large; good cropper.
 LAXTON'S No. 1—Very early; an improvement on Noble.
 LEADER—Mid-season; large and fine; dark crimson flesh; good flavour. 1s. 6d. per doz.; 6s. per 100.

LORD SUFFIELD-Rich flavour; free and large.

MONARCH—Second early; large size, good colour, rich flavour. 1s. per doz.; 5s. per 100. PERFECTION—Second early; good flavour, large size, and of deep colour. 1s. per doz.; 5s. per 100.

PRESIDENT—Oue of the best; a general favourite for all purposes.

PRINCE OF WALES-Large size; rich flavonr; uot so dark as Waterloo.

PRINCESS OF WALES-Full size; Queen flavour; dwarf. QUEEN OF DENMARK-Distinct colour; flesh firm; prolific. RICHARD GILBERT-Iu the way of President, but finer fruit.

SCARLET QUEEN-Very attractive ; Queen flavour; a favourite with many.

SIR CHAS. NAPIER-One of the very best for forcing.

SIR J. PAXTON-This is the variety so popular throughout Kent for field and market. Special prices for large quantities.

(135)

VICOMTESSE H. DE THURY (syn. Garibaldi) — Although small, it is one of the best in cultivation to answer all general purposes, soil, and climate. 3s. 6d. per 100.

WATERLOO—The darkest coloured fruit of any, and for dessert indispensable.

Other varieties can also be supplied.

Rooted Runners from fruiting plants, well rooted and picked, 4s. per 100; selected, 5s. per 100, except those priced. In small pots, to fruit the first season, 12s. to 14s. per 100; in 5 and 6-inch pots, for forcing, 25s. to 40s. per 100.

Special Prices per 1,000, 50,000, and 100,000.

We cut off all fruit trusses of our plants when in flower, so as to induce early strong runners and make plants more fruitful; this alone makes what we supply nearly as good again as in the ordinary way.

ordinary way.

WIRE STRAWBERRY SUPPORTS, 2s. per doz.; 10s. per 100.

We respectfully solicit orders for ours, the finest plants and most complete collection in England. Swanley is the largest and best Strawberry-growing district in the world.

Eight Acres grown entirely for the Runner Plants, at a distance of 4 ft. from plant to plant, so that every plant is true.

Strawberries, like Potatoes, are always more fruitful when given a change of soil,

consequently success depends a good deal on having runners from a purely different soil.

Being located in the midst of hundreds of acres of all the best Strawberries and Raspherries enables us to offer fine plants, and good sure-cropping kinds at the lowest prices.

Other named varieties supplied at current prices.

JAPANESE WINEBERRY (Rubus phanicolasius)-More hardy and vigorous than the Blackberry or Raspherry; large clusters of wine-coloured fruit, ripens from July onwards; very prolific;

useful for preserving or cooking. Is. each.

THE LOGANBERRY—A true hybrid between the Red Raspberry and the Blackberry; berries are a deep reddish maroon, and rich in flavour; the canes are very prolific and vigorous. 1s. each.

THE STRAWBERRY-RASPBERRY—Grows very dwarf and dense; foliage resemble a

hybrid between the two; large white flowers, and its fruit, which is just eatable, is in appearance a facsimile of the finest red Strawherry ever seen. 9d. each.

PRIMULAS. CALCEOLARIAS. CINERARIAS.

CYCLAMEN.

We have a large and fine lot of these. Our Strains are the best in the United Kingdom.

Dozen. Dozen. Dozen. PRIMULAS, 5-in. pots, 8s., 12s., & 15s.; 3-in., 3s. 6d.; Seedlings, 2s. CALCEOLARIAS CINERARIAS ..

CANNELLS' REAL MANURE.

(SPECIALLY PREPARED AND ALWAYS RELIABLE.) ~~~~~~~~~

Treble Your Produce-Quality and Quantity Combined. ~~~~~~~~~~

For GREENHOUSE PLANTS, FOLIAGE and POT PLANTS, ROSES, VINES-FRUIT TREES, VEGETABLES, FLOWER GARDENS, and LAWNS.

~~~~~~~~~ ALWAYS AN ABUNDANCE OF FLOWERS.

The properties of this Manure go direct to make Flowers, Fruit, and Vegetables more brilliant, larger and finer, without the gross foliage. After one gets used to it, they will soon gauge the exact strength that is necessary for any plant desired to have extra fine, the great thing is not to overapply it, but if used with discretion this is the most convenient and valuable of all Manures—its effect in a fortnight is marvellous—and those who use it double their produce. We have several who leave us standing orders for large quantities to be sent at stated times. All are charmed with its results. No greenhouse or garden ought to be without it, and for all who wish to be first at exhibitions it is absolutely necessary. Every shilling so expended gives another in return, and often two.

DIRECTIONS USE. FOR

FOR LAND IN GOOD CULTIVATION AND GROWING CROPS.—Three-quarters of an ounce to the square yard, one-and-a-half hundredweight to the acre. Mix with treble its quantity of fine, slightly damp soil, and scatter it regularly; you can sec to a line how far it has been put.

FOR POOR LAND AND POTATOES .- Four to six hundredweight to the acre.

FOR POTTING.—One ounce to the bushel of good compost, and thoroughly mix.

Top Dressing.—Two onnces to a bushel of good soil.

LIQUID MANURE.—Half ounce to a gallon of water, and increase it a little twice a week until the plants are well in flower.

FOR LAWNS. - Scatter broadcast at the rate of 13 onnces to the square yard, afterwards to be well watered.

Double production of everything is obtained by using it. Nothing is so important in every part of the garden as two or three applications during the season. It gives more than satisfaction whatever it is applied to, and in most cases trebles the size. A 1-lb, tin will show its effects and guarantee its general use.

1-lb. tin 1s., post free 1s. 4d.; 3-lb. tin 2s. 6d., post free 3s.; 7 lbs. 4s., post free 4s. 10d. In bags—14 lbs., 6s.; 28 lbs., 10s. 6d.; 56 lbs., 18s. 1 cwt., 30s.

MISCELLANEOUS ARTICLES, MANURES, HORTICULTURAL TOOLS. AND GARDEN REQUISITES.

- "Acme" Labels for Orchids, 3/6 per dozen, or 36/- per Gross.
- Fruits, 1/9 per dozen, or 18/- per gross.

 Roses, 1/3 per dozen, or 12/- per gross.

 Acme" Weed Killer—A solution for effectually destroying weeds on carriage drives, garden walks, stable yards, cemetery walks, railway station platforms, &c. Saving more than half the cost of labour, and more effectual and clean than hand-weeding, or the use of salt. Price per gallon, 2/-; 5-gallon lots, 1/9 per gallon. Special quotation for larger quantities. "Acme" Weed Killer-Powder, 1/9 per tin.

Aphis Wash-See Insecticides.

Anti-Mildew Fungus Powder—McDougall's, 1½ lbs., 1/-; 3½ lbs., 2/-; 7 lbs., 4/-. Aphicides—For spraying plants with insecticides, &c., 1/6 and 2/- each. Aprons, Gardeners'—Shalloon, 4/6 each; serge, 3/- eacb.

Axe-See illustrations.

Barrows, Garden—Of best quality, 20/- to 25/-.
Baskets—Split oak, for stables, carrying potatoes, &c., light and very durable, 2/-, 2/9, and 3/6 cach. Wood or track, for vegetables or fruit, with cross handles, 9d. to 3/3 cach. Orchid, best octagonal teak wood, with hanging wires complete, 4 to 18 inches, 1/6 to 7/6 eacb.

Beetle Powder (Hughes's)—A most effective article, 6d., 1/-, and 2/6 per tin.

Beetle Traps (Birkenhead's)—1/6 and 1/9 each.

Bell or Propagating Glasses—From 10d. to 2/9. Larger sizes can be had.

Bill Hooks—Double-edged, for pointing pea stakes, &c., 3/6 to 4/6 eacb. Hammer and claw, a most useful article, 1/9, 2/-, and 2/3 each.

Boite-a-Houppe—See Distributors.

Bouquet Wire—See special mention.

Brooms, Birch-5/- per doz.; 6d. each.

Brushes-Aphis, for cleaning plants, 2/- each. Cocoa Fibre, for scrubbing flower pots, &c., 6d.

Charcoal—From best wood, 2/6 per bushel.

Chisels-Pruning or Garden Spnds, 1/3 to 1/6 each.

THE FOUR OAKS UNDENTABLE SYRINGES.

All guaranteed against indentation of working barrel for 3 years. The most perfect Syringes ever piaced in a Gardener's hands.

Special best quality, of highest possible finish, complete No. 1.—The Gardeners' Ideal Syringe. Special best quality, of highest posswith two roses and jet, with quick-filling ball valves, teak handle,

 $1\frac{1}{4} \times 16 \text{ in.}, 16/-; 1\frac{1}{2} \times 20 \text{ in.}, 21/-; 1\frac{3}{4} \times 20 \text{ in.} 25/-$

2.—Second quality, splendid value ... $1\frac{1}{4} \times 16$ in., 15/-; $1\frac{1}{2} \times 18$ in., 17/6; $1\frac{3}{4} \times 18$ in., 21/-

3.—Third quality, good serviceable

15/-Syringe ... 12/6;

This is a Novelty which will commend itself to practical Gardeners. It is fitted with an Angle Joint, by means of which the user can send water or other liquid either forwards, backwards, upwards, downwards, or at any angle desired. It is invaluable for syringing the undersides of leaves, Chrysanthemums, Roses, &c., which cannot be reached by ordinary Syringes.

 $1\frac{1}{4}$ in. \times 16 in. $1\frac{1}{2}$ in. \times 20 in. $1\frac{3}{4}$ in. \times 20 in. No. 4.—Special best quality, as No. 1 above 21/-27/-32/-13 in. × 20 iu. $1\frac{1}{3}$ in \times 18 in. 23/6 28/-5.-Second quality, splendid value ... 18/6 6 .- Third quality, useful Syringes ... The Angle Joint is detachable. The most useful Syringe ever sold.

The handiest and best spraying Syringe on the market. Gives a fine mist or vapour-like spray, which can be regulated according to pressure used. Invalnable for spraying plants, distributing insecticides, &c.

... $1\frac{1}{8}$ in. \times 20 in., 12/6; $1\frac{1}{2}$ in. \times 20 in., 16/6No. 9 ...

Angle Joint .- For use on the Four Oaks Undentable Spraying Syringe. A most useful addition. Enables the user to spray the undersides of leaves in a mauner hitherto impossible. Is a miniature form of our Angle Joint illustrated above.

... 5/6 for $1\frac{1}{8}$ in.; 6/- for $1\frac{1}{2}$ in.

UNSOLICITED TESTIMONIALS.

Mr. GEORGE WYTHES, V.M.II., Head Gardener to His Grace the Dukk of Northumberland, Syon Gardens, Brentford.—"Your new Syringe is excellent, and I am much pleased with its good work."

Mr. WILLIAM POPE, Head Gardener to the Earl of Carrandon, Castle Gardens, Highelere, Newbury.—"Please find Cheque for Syringe enclosed. I may tell you I like it very much. I think it is the best on the market."

S. ARNOTT, Each, J.P., Rosedene, Carsethorn, by Dumfries, N.B., writes:—"The Undentable Angle Joint Syringe is 'perfection,' and should take the market well."

Mr. GEORGE CLARK, Head Gardener to Earl Powis, Walcot Park Gardens, Lydbury, North Shropshire.—"I am very much pleased with the Syringes sent me, they meet a long-felt want, and have certainly come to stay, to the detriment of the old-fashioned Syringe. They are Al."

FOR FULL PARTICULARS, SEE AUTUMN CATALOGUE.

TO LADIES AND GENTLEMEN IN REQUEST OF GARDENERS.

Our Mr. H. Cannell, Senr., gives personal daily attention to all applications for Gardeners (good all-round men). His wide connection, and being a large employer, makes him intimately acquainted with most of the best practical and deserving men in the country, and he would feel a real pleasure in assisting and fitting in the right man to fill the situation for which any lady or gentleman may require him.

id

COME AND SEE

Our Fruit Lands at Eynsford during the fruiting season, and inspect the very trees and thousands of others similar, bearing extraordinarily fine fruit, and if any of our customers decide to plant we request a trial order to give the greatest confidence that our trees are the best to be obtained.

ENGLAND'S BEST SEEDS

ARE

CANNELLS'

Genuine Kentish Grown.

THEIR produce, quality, and successes at Exhibitions have been acknowledged remarkable. Five years in succession (1898, 1899, 1900, 1901, and as recently as last October, at the Chiswick Great Vegetable Show) they were awarded the Silver-Gilt Knightian Medal by the Royal Horticultural Society. Our collections were considered "Wonderfull" A similar exhibit at the Royal Aquarium was unanimously awarded a Gold Medal, and last May we exhibited one of the finest Trade Collections at the Great Temple Show, and were again honoured with a Gold Medal. A crowning victory.

The significance of these awards from the Premier Horticultural Society in existence should be sufficient to convince all who have a garden, and certainly those who are apparently wedded to certain seeds, or dislike to change, or are the least dubious that both our Seeds and Strains are as nearly "Perfect" as possible. Acting on these successes, we confidently assert that the result to purchasers would certainly be most gratifying, and a still further advantage in having them direct from the actual Growers and Producers. It should be known to all that our climate and soil (317 acres) are the most favourable in Great Britain. Numerous spontaneous proofs have been received by us from all parts of the world confirming the excellence and superior quality of our Strains and fine bold Seeds; prices no higher, and bringing forth an abundance of the finest garden produce. Remember, the best seeds and the best crops should be the desideratum of all lovers of their gardens.
